Model Of Love:

Modeling Love Dynamics Sergio E. T. Al RINALDI, 2015-10-22 This book shows for the very first time how love stories a vital issue in our lives can be tentatively described with classical mathematics Focus is on the derivation and analysis of reliable models that allow one to formally describe the expected evolution of love affairs from the initial state of indifference to the final romantic regime The models are in full agreement with the basic philosophical principles of love psychology Eight chapters are theoretically oriented and discuss the romantic relationships between important classes of individuals identified by particular psychological traits The remaining chapters are devoted to case studies described in classical poems or in worldwide famous films Blackwell Handbook of Social Psychology Garth J. O. Fletcher, Margaret S. Clark, 2008-05-12 This authoritative handbook provides a cutting edge overview of classic and current research as well as an assessment of future trends in the field of interpersonal processes Ensures thorough and up to date coverage of all aspects of interpersonal processes Includes contributions by academics and other experts from around the world to ensure a truly international perspective Provides a comprehensive overview of classic and current research and likely future trends Fully referenced chapters and annotated bibliographies allow easy access to further study Now available in full text online via xreferplus the award winning reference library on the web from xrefer For more information visit www.xreferplus.com New Philosophical Essays on Love and Loving Simon Cushing, 2021-09-20 New philosophical essays on love by a diverse group of international scholars Topics include contributions to the ongoing debate on whether love is arational or if there are reasons for love and if so what kind the kinds of love there may be between humans and artificial intelligences between non human animals and humans whether love can explain the difference between nationalism and patriotism whether love is an necessary component of truly seeing others and the world whether love like free will is fragile and may not survive in a deterministic world and whether or not love is actually a good thing or may instead be a force opposed to morality Key philosophers discussed include Immanuel Kant Iris Murdoch Bernard Williams Harry Frankfurt J David Velleman Niko Kolodny Thomas Hurka Bennett Helm Alfred Mele and Derk Pereboom Essays also touch on the treatment of love in literature and popular culture from Graham Greene s *The End of the Affair* to Spike Jonze s movie *her* **Metaphors of Anger, Pride, and Love** Zoltán Kövecses, 1986-01-01 This study is an attempt to uncover the structure of three emotion concepts anger pride and love The results indicate that the conceptual structure associated with these emotions consists of four parts 1 a system of metaphors 2 a system of metonymies 3 a system of related concepts and 4 a category of cognitive models with a prototypical model in the center This goes against an influential view of the structure of concepts in linguistics psychology anthropology according to which the structure of a concept can be represented by a small number of sense components *Models of Love* Barry Vissell, Joyce Vissell, 1986 Family Life Now Kelly J. Welch, 2025-01-07 Written with a down to earth and student focused approach Family Life Now 4th edition delivers a comprehensive examination of

interaction among family members and intimate partners With an emphasis on today s diverse and complex individual family and the evolving impact of societal issues this text engages students through a balanced integrated approach of the human development and family science disciplines Author Kelly Welch uses a first person narrative style of writing to engage readers encourage them draw upon their own background and experiences to understand theories and concepts and to paint a realistic view of families and intimate relationships This text lays the foundation to understanding relationships better applying research and theory and promotes the ways in which those considering a helping profession career such as social worker therapist psychologist teacher early childhood childcare provider or healthcare provider can employ strengths oriented best practices to create and deliver effective quality couple and family life education *Creating Optimal Relationships* Kathryn Elliott,, James Elliott,2015-10-30 Recent relationship science research finds that intense satisfying romantic love is a real phenomenon occurring in couples *Creating Optimal Relationships Use of the Voltage Concept with Couples* provides the field of marriage and family therapy with the first model for assisting couples to sustain bliss for a lifetime The voltage concept based on over forty years of clinical research uses a skills based approach from Anthetic Relationship Therapy By providing psychodynamic skills for facilitating each partner s psychological growth the psychological infrastructure is then achieved for supporting optimal relating skills The voltage concept presents a useful dichotomy of closeness levels to which partners aspire Couples who want a more surface relationship fit a Low Voltage Relationship model marked by less emotional intensity With such couples minimal skills can be taught to reduce any conflict that brought them to therapy High Voltage couples desire great emotional depth and receive skills to help them achieve it Perhaps even more valuable the voltage vocabulary equips clinicians and partners in understanding a common source of couple conflict that is the voltage mismatch The book offers options for treatment when a voltage discrepancy exists in the couple **Close Relationships** Harry T. Gluck, Richard W. Pew, 2006-04-21 Resulting from the need for greater realism in models of human and organizational behavior in military simulations there has been increased interest in research on integrative models of human performance both within the cognitive science community generally and within the defense and aerospace industries in particular This book documents accomplishments and lessons learned in a multi year project to examine the ability of a range of integrated cognitive modeling architectures to explain and predict human behavior in a common task environment that requires multi tasking and concept learning This unique project called the Agent Based Modeling and Behavior Representation AMBR Model Comparison involved a series of human performance model evaluations in which the processes and performance levels of computational cognitive models were compared to each other and to human operators performing the identical tasks In addition to quantitative data comparing the performance of the models and real human performance the book also presents a qualitatively oriented discussion of the practical and scientific considerations that arise in the course of attempting this kind of model development and validation effort The primary audiences for this book are people in academia industry and the military who are interested in explaining and predicting complex human behavior using computational cognitive modeling approaches The book should be of particular interest to individuals in any sector working in Psychology Cognitive Science Artificial Intelligence Industrial Engineering System Engineering Human Factors Ergonomics and Operations Research Any technically or scientifically oriented professional or student should find the material fully accessible without extensive mathematical background **Only Love Is Real** Tom Larontonda, 2013-06-14 As long as worldly love continues to be considered our means of salvation we will forever experience war greed hunger disease homelessness and every other form of pain and suffering that the dream can create This book is not about vastly improving worldly love into something newer better and bigger That strategy has gone on for centuries yet world peace has never been achieved This book is one soul's humble yet dedicated attempt to truly connect with those who

will listen and inspire them to stop and hear the magnificence of their heart and to put aside the egos insane influence and ask one simple question What has my strong allegiance to the illusions of this world truly created in my life The Love of God John C. Peckham,2015-07-28 Theology has constantly wrestled with the nature of God s love and what it means for how God relates to the world In this comprehensive canonical theology of divine love John C Peckham argues for an account that avoids the errors of both voluntarist and experientialist theologies and faithfully represents the full biblical witness

Raising Godly Children: How to Parent with Purpose and Love Margaret Light,2025-03-29 Raising Godly Children How to Parent with Purpose and Love offers practical biblically based guidance for parents seeking to nurture their children in faith love and wisdom This book explores how to create a spiritually grounded home model godly behaviour and teach responsibility accountability and respect With insights on instilling moral values fostering emotional and spiritual health and preparing children to navigate the challenges of the world it equips parents with the tools to raise the next generation of believers Through intentional parenting readers are encouraged to embrace their calling raising children who will impact the world for God s kingdom Courtly Love Undressed E. Jane Burns,2002 Reading through clothes reveals that the expression of female desire so often effaced in courtly lyric and romance can be registered in the poetic deployment of fabric and adornment and that gender is often configured along a sartorial continuum rather than in terms of naturally derived categories of woman and man
