Kimmel, Jeff Hearn, Raewyn Connell, 2005 In the past research in the field of gender has mainly addressed issues about women and has for the most part been developed by women Recently the study of gender has rapidly expanded and there has been a growing interest in men's and boys' identities, conduct and problems The Handbook of Studies on Men and Masculinities is an interdisciplinary and international culmination of the growth of men's studies that also offers insight about future directions for the field The Handbook provides a broad view of masculinities primarily across the social sciences with the inclusion of important debates in some areas of the humanities and natural sciences The various approaches presented in this Handbook range across different disciplines, theoretical perspectives, methodologies and conceptualizations in relation to the topic of men Editors Michael S. Kimmel, Jeff Hearn and Robert W. Connell have assembled an esteemed group of contributors who are among the best known experts in their particular fields The Handbook of Studies on Men and Masculinities examines the construction of masculinities in four different frames: the social organization of masculinities in their global and regional iterations, the institutional reproduction and articulation of masculinities, the ways in which masculinities are organized and practiced within a context of gender relations, and the ways in which individual men express and understand their gendered identities The Handbook is organized in a way that moves from the larger global and institutional articulations of masculinities to the more intimate and personal expressions The Handbook of Studies on Men and Masculinities provides scholars, researchers and students with the most current incisive scholarship available for the men's studies area of gender studies It is a vital resource for those interested in the practical or cultural issues about men, boys and gender as well as an excellent addition to any academic library *Power at Play* Michael A. Women Poets, Male Publishers Lise Jaillant, 2025-03-17 We are often told that the women's movement of the 1960s and 1970s led to the rediscovery of forgotten women writers Without feminist presses such as Virago these women would have sunk into obscurity Thanks to Carmen Callil and other trailblazing feminist publishers a canon of women's literature emerged and living writers managed to survive and sometimes thrive in a literary marketplace that had so far been dominated by men Although obstacles remained the story is one of the triumphs over a misogynistic publishing industry a sector that had once sought to erase women writers of the past marginalise living authors and close the doors to any future legacy There are two problems with this oft repeated story First it focuses mainly on fiction rather than poetry founded in 1973 Virago did not start publishing poetry until the early 1980s Second it neglects the major role that conservative male publishers played in re-discovering women poets in post 1960s Britain With the growing influence of the Women's Liberation movement these publishers realised that there was a growing market for poetry by women At the same time the Arts Council of Great Britain started pushing for more diversity nudging its clients to make more room for women and ethnic minorities Drawing on extensive archival work and oral history interviews this open access book pushes the boundaries of a scholarship that has focused mainly on women's poetry in relation to women's presses Archival documents show the influence of the Arts Council and the market in pushing conservative publishers towards more diversity This evolution has had long term consequences on the canon of women's poetry a canon that was largely shaped by conservative publishing houses rather than radical feminist presses

Engaging African American Males in Community Colleges Ted N. Ingram, James Coaxum, 2018-05-01 This volume dedicated to the engagement of African American males in community colleges furthers the research agenda focused on improving the educational outcomes of African American males The theme engagement also supports the anti deficit approach to research on African American males developed by renowned research scholars The true success of African American males in community colleges rests on how well these institutions engage young men into their institutions This will require community colleges to examine policies pedagogical strategies and institutional practices that alienate African American males and fosters a culture of underachievement The authors who have contributed to this volume all speak from the same script which proves that when African American males are properly engaged in an education that is culturally relevant they will succeed Therefore this book will benefit ALL who support the education of African American males It is our intent that this book will contribute to the growing body of knowledge that exists in this area as well as foster more inquiry into the achievement of African American males The book offers three approaches to understanding the engagement of African American males in community college which includes empirical research policy perspectives and programmatic

initiatives The Man Question Nancy E. Dowd, 2010-09-20 A powerful book Nancy Dowd offers a novel and sweeping integration of feminism and masculinities theory Her ideas about how to recognize gender asymmetries understand male work codes and unravel prescribed social roles offer hope for changing workplace and educational cultures toward gender equality Nancy Levit co author of Feminist Legal Theory A Primer **African American Males and Education** T. Elon Dancy II, M. Christopher Brown, 2012-10-01 African American Males in Education Researching the Convergence of Race and Identity addresses a number of research gaps This book emerges at a time when new social dynamics of race and other identities are shaping but also shaped by education Educational settings consistently perpetuate racial and other forms of privilege among students personnel and other participants in education For instance differential access to social networks still visibly cluster by race continuing the work of systemic privilege by promoting outcome inequalities in education and society The issues defining the relationship between African American males and education remain complex Although there has been substantial discussion about the plight of African American male participants and personnel in education only modest attempts have been made to center analysis of identity and identity intersections in the discourse Additionally more attention to African American male teachers and faculty is needed in light of their unique cultural experiences in educational settings and expectations to mentor and or socialize other African Americans particularly males **Building on Resilience** Fred A. Bonner II, 2023-07-03 How do we fix the leaky educational pipeline into a conduit of success for Black males That the issue is critical is demonstrated by the statistics that only 10% of Black males in the United States are proficient in 8th grade reading only 52% graduate from high school within four years and only 35 percent graduate from college This book uniquely examines the trajectory of Black males through the educational pipeline from pre school through college In doing so it not only contributes significantly to the scholarship on the experiences of this population but bridges the gap between theory and practice to provide frameworks and models that will improve these young men s educational outcomes throughout their educational journeys A compelling feature of the book is that that it does not treat Black males as homogeneous but recognizes the diversity that exists among Black males in various educational settings It demonstrates the need to recognize students intersectionalities and individual characteristics as an essential preliminary to developing practices to improve outcomes at every educational stage Throughout the contributing authors also focus on the strategies and experiences of Black males who achieve academic excellence examining growth producing and asset based practices that can be sustained and that build upon the recognition that these males have agency and possess qualities such as resilience that are essential to their learning and development The frameworks and models that conclude each chapter are equally commendable to K 12 educators and administrators higher education faculty student affairs practitioners and administrators and policymakers for whom templates are provided for rectifying the continuing inequities of our educational system **Staging Masculinity** Carla J. McDonough, 2006-07-19 The men in plays such as Arthur Miller s Death of a Salesman or Sam Shephard s True West

are often presented as universal little attention is given to the gender dynamics involved in the characters This work looks at how contemporary playwrights including Miller Shepard Eugene O'Neill David Mamet and August Wilson stage masculinity in their works It becomes apparent that male playwrights return often to the issues of troubled manhood usually masked in other issues such as war business or family The plays indicate both the attractiveness of the model of traditional masculinity and the illusive nature of this image which all too often fractures and fails the characters who pursue it O'Neill's play *The Hairy Ape* and the character Yank receive much attention
