It's Not Over Pete Dolack, 2016-02-26 The path to a better world can't be found without knowledge of history It's Not Over analyzes attempts to supplant capitalism in the past in order to draw lessons for emerging and future movements that seek to overcome the political and economic crises of today This history is presented through the words and actions of the men and women who made these revolutions and the everyday experiences of the millions of people who put new revolutionary ideas into practice under the pressures of enormous internal and external forces This is history that can be applied to today's struggles to shape our world in which new ideas are emerging to bring about the economic democracy that is indispensable to a rational and sustainable future *Repression and Accommodation in Post-Revolutionary States* M. Krain, 2000-07-06 We know very little about political dynamics in states that have just experienced an internal war despite the increasing need to deal with such states in the post Cold War world Matthew Krain examines what prompts leaders in post revolutionary states to employ repression or accommodation Through statistical analysis and case studies of Iran Cuba Nicaragua and Bolivia he also examines the effects of these choices on how the domestic opposition reacts what type of political system develops in the new state and whether or not the leaders who institute these policies survive in power in the long run Krain concludes with a series of policy recommendations

Sandinista Communism and Rural Nicaragua Janusz Bugajski,1990-03-26 In this groundbreaking study Janusz Bugajski evaluates the impact of Sandinista political economic and social programs The book focuses on the confrontations between the regime and Nicaragua's rural population particularly the Ladino peasantry and the Indian and black indigenous minorities of the Atlantic coast region The book concentrates on the Sandinista's agrarian strategies in order to distinguish between short term policies and long term programs It addresses the question of whether any durable and novel ideological political and economic elements have been introduced in Nicaragua in terms of Marxist Leninist models of state socialism especially vis a vis peasantry and the country's ethnic minorities Upon seizing power in July 1979 the Sandinistas embarked on a socialist transformation of Nicaraguan society This book concludes that in confronting major internal and external obstacles the regime opted for a degree of economic flexibility without abandoning its long term political objectives The regime's Leninist political arrangements claims Bugajski were therefore combined with a quasi Communist economic program The Sandinistas captured and remodeled all levers of social control including the state apparatus the armed forces and the security network and fortified those mechanisms that could most effectively extend their domination But in order to minimize economic dislocation political opposition and social unrest to uphold productivity to obtain vital agro export revenues and to prevent international isolation Managua implemented a transitory mixed economy and continued to tolerate

a politically weakened private sector
