On Cuba:

On Cuba Noam Chomsky, Vijay Prashad, 2024-07-23 An intimate conversation between towering public intellectuals examining the contentious interplay between the Cuban Revolution and U S empire An audacious revolutionary experiment in the backyard of empire Cuba has occupied a vexed role in the international order for decades Though its doctors and fighters and the outsized influence of its example have traversed the globe from Venezuela to Angola its political and economic future remain uncertain as the Castro era comes to a close and the U S embargo proceeds unabated Through an intimate conversation between two of the country s most astute observers of international politics Noam Chomsky and Vijay Prashad *On Cuba* traces Cuban history from the early days of the 1950s revolution to the present interrogating U S interventions and extracting lessons on U S power and influence in the Western Hemisphere along the way Neither a jingoistic condemnation nor an uncritical celebration Chomsky s heterodox approach to world affairs is on full display as he and Prashad grapple with Cuba s unique place on the international scene In a media landscape saturated with half truths and fake news Chomsky and Prashad our own Frantz Fanon whose writing of protest is always tinged with the beauty of hope Amitava Kumar author of *Immigrant Montana* seek to shed light on the truth of a complex and perennially controversial nation while examining the limits of mainstream media discourse
