

The background of the cover is black. On the left side, there is a large, stylized white lightning bolt that extends from the top left towards the bottom right. To the right of the lightning bolt, there are several overlapping, angular shapes in a vibrant magenta color. These shapes are defined by thin white lines and create a sense of dynamic movement and energy. The overall design is modern and abstract, reflecting the themes of nuclear energy and the occult mentioned in the title.

Dorothy H. Forster, **The Burning Bush** Edward Reaugh Smith, 1997-07 Even more significant for Christianity in the long run than the twentieth century Dead Sea and Nag Hammadi discoveries is the growing North American awareness of Rudolf Steiner's works. Virtually unavailable until the end of the twentieth century, English translations from the German archives are gradually coming into print. Both Steiner and his works have thus far been virtually unknown in traditional theological circles. No Bible commentary has yet reflected the remarkable spiritual insights of Anthroposophy. Now ten years after first encountering a written comment about Rudolf Steiner, Ed Smith combines his own extensive traditional biblical knowledge with his years of concentrated study and reflection on hundreds of assembled works by Steiner. The result is the first Bible commentary in the light of anthroposophic insight. This is the first volume of a series of Bible commentary by the author. It is based on the anthroposophic understanding given to humanity by Rudolf Steiner during the first quarter of the twentieth century. Bible commentaries have always reflected the general line of thinking of their authors. However, the dramatic newness of anthroposophic thought means that perhaps the usual method of using a Bible commentary is not appropriate here. A large part of *The Burning Bush* is necessarily devoted to laying an anthroposophic or spiritual scientific groundwork. A major assumption indulged in most Bible commentaries that one can go directly to portions dealing with given passages of scripture and understand what is being said about them does not fit. *The Soul's Long Journey* Edward Reaugh Smith, 2003-11 Here are amazing insights showing reincarnation to be deeply and powerfully revealed in the Bible's most fundamental aspects. How and why have these insights escaped attention for so long? At last they are uncovered here by a confluence of conventional Bible study and the epochal spiritual discoveries of Rudolf Steiner. With particular emphasis on the organic provisions of the Old Testament, Smith shows both what the assumptions of the Master's hearers were and how the New Testament confirms the ancient heritage. Arising from the fullness of the canon is an exciting story of the long journey of humanity and every human soul, each a beloved sheep whom the Creator is unwilling to lose. Combining a lifetime of biblical study and teaching, fifteen years investigating and contemplating Rudolf Steiner's vast works, and almost three decades of applying the analytical skill required in an intense law practice, Smith has produced a potential classic the serious Bible student can ill afford to ignore. **David's Question** Edward Reaugh Smith, 2001-11 This collection of the astronomical writings by Dr Elisabeth Vreede is a fascinating compendium of scientific and spiritual knowledge. Between September 1927 and August 1930, Dr Vreede wrote a monthly letter, available by subscription, about both modern astronomy and classical astrology in the light of spiritual science. These letters include clear explanations of the fundamentals of astronomy and discussions on the role of astrology in the modern world. They also include inspiring presentations of a worldview that sees the stars, planets, and all physical phenomena as manifestations of spiritual beings and spiritual activities.
