Penal Code 2003:

Penal Code 2003, 2003 **International Crimes: Volume I: Genocide** Guénaél Mettraux, 2019-06-18 Judge Mettraux's four volume compendium *International Crimes Law and Practice* will provide the most detailed and authoritative account to date of the law of international crimes. It is a scholarly tour de force providing a unique blend of academic rigour and an insight into the practice of international criminal law. The compendium is unrivalled in its breadth and depth, covering almost a century of legal practice, dozens of jurisdictions, national and international, thousands of decisions and judgments, and hundreds of cases. This first volume discusses in detail the law of genocide, its definition, elements, normative status, and relationship to the other core international crimes. While the book is an invaluable tool for academics and researchers, it is particularly suited to legal practitioners, guiding the reader through the practical and evidential challenges associated with the prosecution of international crimes.

Textbook on the Indian Penal Code Krishna Deo Gaur, 2009 **The Crime of Aggression under the Rome Statute of the International Criminal Court** Carrie McDougall, 2021-08-12 After the crime of aggression was adopted under the Rome Statute of the International Criminal Court, Carrie McDougall used her intimate involvement in the crime's negotiations, combined with extensive scholarly reflection, to produce the first and most comprehensive academic study. This updated second edition offers an exhaustive and sophisticated legal analysis of the crime's definition, as well as the provisions governing the ICC's exercise of jurisdiction over the crime. It explores the desirability of holding individuals to account for unlawful uses of inter-State armed force, the geo-political significance of the crime, and a range of practical issues likely to arise in prosecutions before both the ICC and domestic courts. This book is highly relevant to all academics and practitioners interested in the crime of aggression, as well as broader issues relating to the prohibition of the use of force in international criminal law and the ICC.

International Crimes Guénaél Mettraux, 2019 This book discusses in detail the law of genocide, its definition, elements, normative status, and relationship to the other core international crimes. It is the first in a four volume compendium from Judge Mettraux on the four core international crimes.

The Obligation to Extradite or Prosecute Kriangsak Kittichaisaree, 2018-03-02 Prosecution of serious crimes of international concern has been few and far between, before and even after the establishment of the International Criminal Court in 2002. Hope thus rests with the implementation of the international legal obligation for States to either extradite or prosecute such perpetrators among themselves or surrender them to a competent international criminal court. This obligation was considered by the United Nations International Law Commission (ILC), which submitted its final report in 2014. Kittichaisaree, Chairman of the ILC Working Group on that topic, not only provides a guide to the final report, offering an analysis of the subject and a unique summary of its drafting history, he also covers important issues left unanswered by the report, including the customary international legal status of the obligation, the role of the universal jurisdiction immunities of State officials, and impediments to the surrender of offenders to international criminal courts. Authoritative, encyclopaedic, and

essential to those in the field The Obligation to Extradite or Prosecute also offers practical solutions as to the road ahead

The Law of Non-International Armed Conflict Sandesh Sivakumaran, 2012-08-09 The Law of Non International Armed Conflict brings together and critically analyses the disparate conventional customary and soft law relating to non international armed conflict All the relevant bodies of international law are considered including international humanitarian law international criminal law and international human rights law The book traces the changes to the legal framework applicable to non international armed conflict from ad hoc regulation in the nineteenth and early twentieth century to systematic regulation through the 1949 Geneva Conventions and 1977 Additional Protocols to the transformation of the law in the mid 1990s Armed conflicts ranging from the US civil war the Algerian War of Independence and the attempted secession of Biafra through to the current conflicts in the Colombia the Philippines and Sudan are all considered The identification and analysis of the law is complemented by a consideration of the practice allowing both violations of and respect for the law to be ascertained Given that non international armed conflicts are fought between states and non state armed groups or between armed groups particular attention is paid to the oft neglected views of armed groups This is done through an analysis of hundreds of statements unilateral declarations internal regulations and bilateral agreements issued by armed groups Equivalent material emanating from states parties to conflicts is also considered The book is thus an essential reference point for the law and practice of non international armed conflicts

The Rome Statute as Evidence of Customary International Law Yudan Tan, 2021-08-09 In The Rome Statute as Evidence of Customary International Law Yudan Tan offers a detailed analysis of topical issues concerning the Rome Statute of the International Criminal Court as evidence of customary international law The 1998 Rome Statute has generated a great deal of scholarly interest Providing a novel way of analysing the treaty custom interactions Yudan Tan examines the customary status of essential parts of the Rome Statute Based on a flexible two element identification approach focusing more on opinio juris Yudan Tan convincingly argues that provisions of the Rome Statute were partly declaratory of custom when adopted in 1998 and that they are also partly declaratory of custom at the present time

The 1949 Geneva Conventions Andrew Clapham, Paola Gaeta, Marco Sassòli, 2015-10-15 The four Geneva Conventions adopted in 1949 remain the fundamental basis of contemporary international humanitarian law They protect the wounded and sick on the battlefield those wounded sick or shipwrecked at sea prisoners of war and civilians in time of war However since they were adopted warfare has changed considerably In this groundbreaking commentary over sixty international law experts investigate the application of the Geneva Conventions and explain how they should be interpreted today It places the Conventions in the light of the developing obligations imposed by international law on states armed groups and individuals most notably through international human rights law and international criminal law The context in which the Conventions are to be applied and interpreted has changed considerably since they were first written The borderline between international and non international armed conflicts is not as clear cut as

was once thought and is complicated further by the use of armed force mandated by the United Nations and the complex mixed and transnational nature of certain non international armed conflicts The influence of other developing branches of international law such as human rights law and refugee law has been considerable The development of international criminal law has breathed new life into multiple provisions of the Geneva Conventions This commentary adopts a thematic approach to provide detailed analysis of each key issue dealt with by the Conventions taking into account both judicial decisions and state practice Cross cutting chapters on issues such as transnational conflicts and the geographical scope of the Conventions also give readers a full understanding of the meaning of the Geneva Conventions in their contemporary context Prepared under the auspices of the Geneva Academy of International Humanitarian Law and Human Rights this commentary on four of the most important treaties in international law is unmissable for anyone working in or studying situations of armed conflicts

Penal Code, Annotated California,2008 **International Criminal Justice** Roberto Bellelli,2016-04-22 This volume presents an overview of the principal features of the legacy of International Tribunals and an assessment of their impact on the International Criminal Court and on the review process of the Rome Statute It illustrates the foundation of a system of international criminal law and justice through the case law and practices of the UN ad hoc tribunals and other internationally assisted tribunals and courts These examples provide advice for possible future developments in international criminal procedure and law with particular reference to their impact on the ICC and on national jurisdictions The review process of the Rome Statute is approached as a step of a review process to provide a perspective of the developments in the field since the Statute s adoption in 1998 Detention in Non-international Armed Conflict Lawrence Hill-Cawthorne,2016

International law has long differentiated between international and non international armed conflicts traditionally regulating the former far more comprehensively than the latter This is particularly stark in the case of detention where the law of non international armed conflict contains no rules on who may be detained what processes must be provided to review their detention and when they must be released Given that non international armed conflicts are now the most common form of conflict this is especially worrying and the consequences of this have been seen in the detention practices of states such as the US and UK in Iraq and Afghanistan This book provides a comprehensive examination of the procedural rules that apply to detention in non international armed conflict with the focus on preventive security detention or internment All relevant areas of international law most notably international humanitarian law and international human rights law are analysed in detail and the interaction between them explored The book gives an original account of the relationship between the relevant rules of IHL and IHRL which is firmly grounded in general international law scholarship treating the issue as a matter of treaty interpretation With that in mind and with reference to State practice in specific non international armed conflicts including those in Sri Lanka Colombia Nepal Afghanistan and Iraq it is demonstrated that the customary and treaty obligations of States under human rights law continue absent derogation to apply to detention in non international armed conflicts The

practical operation of those rules is then explored in detail The volume ends with a set of concrete proposals for developing the law in this area in a manner that builds upon rather than replaces the existing obligations of States and non State armed groups Customary International Humanitarian Law Jean-Marie Henckaerts, Louise Doswald-Beck, 2005 In 1996 the International Committee of the Red Cross alongside a range of renowned experts embarked upon a major international study into current state practice in international humanitarian law in order to identify customary law in this area This book is the result of that study a comprehensive analysis of the customary rules of international humanitarian law applicable in international and non international armed conflicts Given that important treaties in this area have not yet been universally ratified this is a publication of major importance carried out at the express request of the international community In so doing this study identifies the common core of international humanitarian law binding on all parties to all armed conflicts

Environmental Protection and Transitions from Conflict to Peace Carsten Stahn, Jennifer S. Easterday, Jens Iverson, 2017 This book examines the protection of the environment in post conflict societies with regard both to the maintenance of natural ecosystems and to the function of environmental protection in the peace building process addressing the strengths and weaknesses of different bodies of law Encyclopedia of Criminology J. and it was then incorporated into the 1948 Convention on the Prevention and Punishment of the Crime of Genocide This volume looks at the issues that are raised both by the existing international law definition of genocide and by the possible developments that continue to emerge under international criminal law The authors consider how the concept of genocide might be used in different contexts and see whether the definition in the 1948 convention may need some revision also in the light of the original ideas that were expressed by Lemkin The book focuses on specific themes that allow the reader to understand some of the problems related to the legal definition of genocide in the context of historical and recent developments As a valuable contribution to the debate on the significance meaning and application of the crime of genocide the book will be essential reading for students and academics working in the areas of Legal History International Criminal Law Human Rights and Genocide Studies Chapter 12 of this book is freely available as a downloadable Open Access PDF under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license available at <http://www.taylorfrancis.com/books/e/9781003015222>

The Law of International Humanitarian Relief in Non-International Armed Conflicts Matthias Vanhullebusch, 2021-10-05 This book comprehensively covers the entire scope of conflicting rights and duties of the fighting parties and international humanitarian relief actors in non international armed conflicts namely from the moment of the initiation of international humanitarian relief actions till their authorisation and throughout the consecutive stages of the delivery of relief From the practice of frontline humanitarian negotiations this book reconceptualizes how those rights and duties are coming into being and how compliance with agreements on humanitarian access and other international humanitarian law and international human rights norms can be ensured and or their normativity can be strengthened
