Joint Publications Research Service, 1967 *Translations on People's Republic of China*, 1967-10 **Party Vs. State in Post-1949 China** Shiping Zheng, 1997-07-13 This book provides the most comprehensive analysis of one of the most important issues in China today the tensions between the Chinese Communist Party and the Chinese state legislative judicial administrative and military institutions Taking the neo institutionalist approach the author suggests that the Communist Party in post 1949 China faces an institutional dilemma the Party cannot live with the state and it cannot live without the state Zheng demonstrates that it is not only conceptually constructive but analytically imperative to distinguish the state from the Communist Party Secondly he integrates detailed study with broader generalizations about Chinese politics thus making efforts to overcome the tendency toward specialized scholarship at the expense of comparative and systemic understanding of China He also opens a new dimension of Chinese politics the uncertain and conflictual relationship between the Communist Party and the Chinese state *World War II* Spencer C. grasp how the Second Sino Japanese War contributed to the start of World War II and see the direct impact of new military technology on the outcomes of the battles during the conflict The lengthy documents volume represents a valuable repository of additional information for student research Gun Barrel Politics Fang Zhu,2019-03-13 This book tests the model of civil military dualism to explain People s Liberation Army s PLA political engagement and its loyalty to the party in Maoist China It explores how the party maintained its control through penetration of the armed forces or non intervention and civilian control *500 Great Military Leaders* Spencer C. Tucker,2014-12-16 This insightful encyclopedia examines the most influential commanders who have shaped military history and the course of world events from ancient times to the present From Alexander the Great and Attila the Hun to Ho Chi Minh and Colin Powell 500 Great Military Leaders provides readers with insight into the most innovative and prominent individuals who have led armies to victory on battlefields all over the world The broad coverage ranges from military leaders from the ancient world to the present day including political figures who directed war efforts and those who were responsible for major technological improvements This encyclopedia goes beyond providing factual information about each individual s life to delve into the greater historical context and impact on their contemporaries as well as on future military history The presentation of information is designed to enable readers to both observe the gradual evolution of warfare over time and clearly perceive the differences in tactics used by generals with varying military resources at their disposal The entries include not only information on the individual s life and work but a summary statement that assesses successes and failures across each leader s career and summarizes the overall impact Each entry also provides several references for further reading about that individual The accessible writing style of this resource and in depth information and analyses make it appropriate for high school and undergraduate level students as well as scholars of military history and individuals who simply enjoy reading about military history **China's Road to Disaster** Frederick C. Teiwes,Warren Sun,1998-12-14 This text analyzes the dramatic shifts in Chinese Communist Party economic policy during the mid to late 1950s which eventually resulted in 30 to 45 million deaths through starvation as a result of the failed policies of the Great Leap Forward Teiwes examines both the substance and the process of economic policy making in that period explaining how the rational policies of opposing rash advance in 1956 57 gave way to the fanciful policies of the Great Leap and assessing responsibility for the failure to adjust adequately those policies even as signs of disaster began to reach higher level decision makers In telling this story Teiwes focuses on key participants in the process throughout both rational and utopian phases Mao other top leaders central economic bureaucracies and local party leaders The analysis rejects both of the existing influential explanations in the field the long dominant power politics approach focusing on alleged clashes within the top leadership and David Bachman s recent institutional interpretation of the origins of the Great Leap Instead this study presents a detailed picture of an exceptionally Mao dominated process where no other actor challenged his position where the boldest step any actor took was to try and influence his preferences and where the system in effect

became paralyzed while Mao kept changing signals as disaster unfolded Communist China Digest ,1967 Daily Report,
Foreign Radio Broadcasts United States. Central Intelligence Agency,1964 Translations on Communist China United
 States. Joint Publications Research Service,1968 **China During the Cultural Revolution, 1966-1976** Tony H.
 Chang,1999-01-30 One of the most tumultuous periods in modern Chinese history the Cultural Revolution affected virtually
 all Chinese people and all aspects of Chinese life including art music and drama education factory management economic
 planning and medical care Studies of the Cultural Revolution in both Chinese and Western languages have burgeoned over

 overview of the literature on the Chinese Cultural Revolution and its impact on China Its scope and coverage make it a useful
 resource for any library whose readers have an interest in modern Chinese history **Korea** Richard Dannatt,Robert
 Lyman,2025-05-22 A ground breaking history of this global conflict including the errors and miscalculations made on both
 sides Korea War Without End examines the stand off between East and West in Korea that ultimately defined the second half
 of the 20th century It provides a critical analysis of the lack of preparation by the West for war the results of the North
 Korean invasion in June 1950 the counter stroke by MacArthur in September and then the strategic overreach which led to
 communist China s involvement on the North Korean side and the rapid escalation to consideration of the use of nuclear
 weapons Through meticulous analysis of all the source material this book details the chaos of political decision making at the
 war s outset and as it progressed The Korean War was not planned as a Communist offensive against the West In turn the
 East did not understand the principle at the core of the Western response to Kim Il sung s aggression namely a refusal to
 appease an aggressor the key mistake the West considered to be at the heart of the rise of Nazi Germany and militaristic
 Japan in the 1930s Korea War Without End also considers the effect of the fighting on civilians While the war was a proxy one
 between East and West the people of Korea suffered immensely with approximately 3 million war fatalities and a larger
 proportional civilian death toll than World War II This is the definitive history of the conflict that is long overdue *Foreign
 Relations of the United States* United States. Department of State,2013 Description of Volume 13 China This volume is the
 first publication in a new subseries of the Foreign Relations series that documents the most important foreign policy issues of
 the Jimmy Carter presidential administration From U S Department of State Office of the Historian website **Foreign
