G. Julie Rajan, 2011-08-26 This book offers an evaluation of female suicide bombers through postcolonial Third World feminist and human rights framework drawing on case studies from conflicts in Palestine Sri Lanka and Chechnya among others Women Suicide Bombers explores why cultural media and political reports from various geographies present different information about and portraits of the same women suicide bombers The majority of Western media and sovereign states engaged in wars against groups deploying bombings tend to focus on women bombers abnormal mental conditions their physicality for example their painted fingernails or their beautiful eyes their sexualities and the various ways in which they have been victimized by their backward Third World cultures especially by Islam In contrast propaganda produced by rebel groups

deploying women bombers cultures supporting those campaigns and governments of those nations at war with sovereign states and Western nations tend to project women bombers as mythical heroes in ways that supersedes the martyrdom operations of male bombers Many of the books published on this phenomenon have revealed interesting ways to read women bombers subjectivities but do not explore the phenomenon of women bombers both inside and outside of their militant activities or against the patriarchal Orientalist and Western feminist cultural and theoretical frameworks that label female bombers primarily as victims of backward cultures In contrast this book offers a corrective lens to the existing discourse and encourages a more balanced evaluation of women bombers in contemporary conflict This book will be of interest to students of terrorism gender studies and security studies in general A Companion to Feminist Geography Lise Nelson, Joni Seager, 2025-07-28 A Companion to Feminist Geography captures the breadth and diversity of this vibrant and substantive field Shows how feminist geography has changed the landscape of geographical inquiry and knowledge since the 1970s Explores the diverse literatures that comprise feminist geography today Showcases cutting edge research by feminist geographers Charts emerging areas of scholarship such as the body and the nation Contributions from 50 leading international scholars in the field Each chapter can be read for its own distinctive contribution **Information Services** Richard E.
