Penguin Millionaire The Story Of Birdland:

Penguin Millionaire Len Hill, Emma Wood, 1978 **Penguin Millionaire** Len Hill, Emma Wood, 1976 The Antarctic Dictionary Bernadette Hince, 2000-11-10 The world's most isolated continent has spawned some of the most unusual words in the English language. In the space of a mere century a remarkable vocabulary has evolved to deal with the extraordinary environment and living organisms of the Antarctic and subantarctic. Here for the first time is a complete guide to the origin and definitions of Antarctic words. Like other historical dictionaries, The Antarctic Dictionary gives the reader quotations for each word. These quotations are the life blood of the dictionary: more than 15 000 quotations from about 1000 different sources give the reader a unique insight into the way the language of Antarctica has evolved. The reader will find out what it means to be slotted, the shortcomings of homers, the joys of a donga and the hazards of a growler. The Antarctic Dictionary has been meticulously researched and will appeal to all those who have been to the frozen continent or have ever dreamed of going there. It will also appeal to those fascinated by the development of language. With a forward by Sir Ranulph Fiennes.

A Most Remarkable Creature Jonathan Meiburg, 2022-02-22 An enthralling account of a modern voyage of discovery as we meet the clever social birds of prey called caracaras which puzzled Darwin, fascinate modern day falconers and carry secrets of our planet's deep past in their family history. Deftly intertwine's natural history and human history with insights and lessons that go far beyond the subject birds. David Sibley, author of *What It's Like to Be a Bird*, Utterly captivating and beautifully written, this book is a hugely entertaining and enlightening exploration of a bird so wickedly smart, curious and social it boggles the mind. Jennifer Ackerman, author of *The Bird Way*. In 1833 Charles Darwin was astonished by an animal he met in the Falkland Islands: handsome, social and oddly crow-like, falcons that were tame and inquisitive, quarrelsome and passionate and so insatiably curious that they stole hats, compasses and other valuables from the crew of the Beagle. Darwin wondered why these birds were confined to remote islands at the tip of South America, sensing a larger story but he set this mystery aside and never returned to it. Almost two hundred years later Jonathan Meiburg takes up this chase. He takes us through South America from the fog-bound coasts of Tierra del Fuego to the tropical forests of Guyana in search of these birds, striated caracaras which still exist though they're very rare. He reveals the wild, fascinating story of their history, origins and possible futures. And along the way he draws us into the life and work of William Henry Hudson, the Victorian writer and naturalist who championed caracaras as an unsung wonder of the natural world and to falconry parks in the English countryside where captive caracaras perform incredible feats of memory and problem solving. *A Most Remarkable Creature* is a hybrid of science writing, travelogue and biography as generous and accessible as it is sophisticated and absolutely riveting.
