*Professor Penguin* Lloyd Spencer Davis, 2014-10-17 Meet Bill Bryson in Antarctica in this engaging book by one of the world's authority on penguins Part memoir partly the research of a field biologist Professor Penguin could be called How Penguins Shaped My Life Based

on journals kept during Davis's years of working with penguins in the wild the story takes readers to remote locations Antarctica the Galapagos the deserts of Chile and Peru the Falkland Islands the wild coasts of Argentina and South Africa and New Zealand Davis a world authority on penguins reveals that these box office favourites are not the cute mate for life animals we've been led to believe He also reveals that penguins are a lot like humans sometimes disturbingly so when it comes to their basic needs sex food shelter marriage family and travel Over the years that Davis studies penguins he realises that they are far more complex and nuanced than he imagines at his first encounter They really don't deserve to be seen as so black and white He expertly marries scientific knowledge with his own anecdotes told with humour hard earned knowledge and insight He also includes stories about those who have helped advance our knowledge of penguins other Professor Penguins Implicit throughout is Davis's philosophy the more we learn about the natural world and specifically penguins the more we learn about ourselves And he asks Is the isolation of Antarctica sufficient to protect penguins from us

Imperial Babel Padma Rangarajan, 2014-09-15 At the heart of every colonial encounter lies an act of translation Once dismissed as a derivative process the new cultural turn in translation studies has opened the field to dynamic considerations of the contexts that shape translations and that in turn reveal translation's truer function as a locus of power In Imperial Babel Padma Rangarajan explores translation's complex role in shaping literary and political relationships between India and Britain Unlike other readings that cast colonial translation as primarily a tool for oppression Rangarajan's argues that translation changed both colonizer and colonized and undermined colonial hegemony as much as it abetted it Imperial Babel explores the diverse political and cultural consequences of a variety of texts from eighteenth century oriental tales to mystic poetry of the fin de siècle and from translation proper to its ethnological mythographic and religious variants Searching for translation's trace enables a broader more complex understanding of intellectual exchange in imperial culture as well as a more nuanced awareness of the dialectical relationship between colonial policy and nineteenth century literature Rangarajan argues that while bearing witness to the violence that underwrites translation in colonial spaces we should also remain open to the irresolution of translation its unfixed nature and its ability to transform both languages in which it works

Swinburne and the Singing Word* Yisrael Levin, 2016-03-16 Focusing on Algernon Charles Swinburne's later writings this collection makes a case for the seriousness and significance of the writer's mature work While Swinburne's scandalous early poetry has received considerable critical attention the thoughtful rich spiritually and politically informed poetry that began to emerge in his thirties has been generally neglected This volume addresses the need

for a fuller understanding of Swinburne's career that includes his fiction, aesthetic ideology and analyses of Shakespeare and the great French writers. Among the key features of the collection is the contextualizing of Swinburne's work in new contexts such as Victorian mythography, continental aestheticism, positivism and empiricism. Individual essays examine among other topics the dialect poems and Swinburne's position as a regional poet, Swinburne as a transition figure from nineteenth-century aesthetic writing to the professionalized criticism that dominates the twentieth century, Swinburne's participation in the French literary scene, Swinburne's friendships with women writers and the selections made for anthologies from the nineteenth century to the present. Taken together, the essays offer scholars a richer portrait of Swinburne's importance as a poet, critic and fiction writer.

Presenting focused studies of important literary texts by authors from Ireland and Britain, it shows how these discourses influenced European conceptions of place and identity as well as understandings of how to write the world.
