Translation Harald Kittel, 1995-01-01 *Hoffman's Index to Poetry* Herbert H. Hoffman, 1985 No descriptive material is available for this title **The Penguin Book of German Verse, Introduced and Edited with Plain Prose Translations of Each Poem. [Reprinted with Revisions.].** Leonard Forster, 1959 **A User's Guide to German Cultural Studies** Scott D. Denham, Irene Kacandes, Jonathan Petropoulos, 1997 Capitalizes on the ripeness of the German case for interdisciplinary investigation Wordsworth Translated John Williams, 2009-10-15 British writers of the Romantic Period were popular in Germany throughout the nineteenth century and translations of Scott Burns Moore Hemans and Byron among others became widespread This study analyses the reception of William Wordsworth's poetry in 19th century Germany in relation to other romantic poets Research into Anglo German cultural relations has tended to see Wordsworth as

of little or no interest to Germany but new research shows that Wordsworth was clearly of interest to German poets translators and readers and that there was significantly more knowledge of and respect for Wordsworth's poetry and interest in his ideas and beliefs than has previously been recognised Williams focuses particularly on the work of Friedrich Jacobsen Ferdinand Freiligrath and Marie Gothein who span the early middle and late years of the century respectively and establishes the wider presence of many others translating anthologising and commenting on Wordsworth poetry and beliefs

Bertha von Suttner, 'Lay Down Your Arms' Bertha von Suttner, 2019-02-15 Die Waffen nieder 1889 translated into English in 1892 as Lay Down Your Arms was an international bestseller Its Austrian author Bertha von Suttner 1843-1914 chose the medium of fiction in order to reach as broad an audience as possible with her pacifist ideals Challenging the narrow nationalisms of nineteenth century Europe Suttner believed that disputes between nations should be settled by means of arbitration rather than armed conflict She devoted her life to campaigning for the cause of peace and in 1905 became the first female recipient of the Nobel Peace Prize Suttner's influential novel yields insights into the early development of calls for a united Europe and an end to the arms race This English translation of the novel was carried out as a labour of love by the eminent Victorian surgeon and medical scholar Timothy Holmes 1825-1907 the editor of Gray's Anatomy for whom this was an unusual foray into the world of fiction Holmes was Vice Chairman of the London based International Arbitration and Peace Association and a contemporary of Suttner His translation helped to spread Suttner's views across the Anglophone world and contributed to the growth of the peace movement in the period before the First World War

Contemporary Italian Women Writers and Traces of the Fantastic Danielle Hipkins, 2017-12-02 Contemporary fantastic fiction particularly that written by women often challenges traditional literary practice At the same time the predominantly male authored canon of fantastic literature offers a problematic range of gender stereotypes for female authors to re-write Fantastic tropes of space in particular enable three important contemporary Italian female writers Paola Capriolo b 1962 Francesca Duranti b 1935 and Rossana Ombres b 1931 to encounter and counter anxieties about writing from the female subject All three writers begin by exploring the hermetic fantastic space of enclosure with a critical or troubled eye but eventually opt for wider national and often international spaces in which only a fantastic trace remains This shift mirrors their own increasingly confident distance from male authored literary models and demonstrates the creative input that these writers bring to the literary canon by redefining its generic boundaries

Pictures of the Heart Joshua S. Mostow, 1996-10-01 This book provides for the first time in English the kind of information that allows an accurate appreciation of the meanings and quality of Japanese poems Mostow's reception oriented approach in this poem by poem discussion inspires an excellent essay on the history of English translations of this collection Choice Joshua Mostow offers a brilliant and multifaceted exploration of Japanese poetics through translations commentaries and both literary and visual readings of the most influential of all poem anthologies This book penetrates to the heart of traditional Japanese aesthetics Stephen Addiss University of Richmond a rigorous and

engaging study of an extremely important Japanese text It is filled with information and shows a real appreciation for the often unarticulated assumptions that lay behind certain understandings both Japanese and Western concerning meaning and significance in a work of literature The study breaks still further ground by articulating and in the most persuasive fashion issues relating to text and image that are central to the Japanese arts in virtually all periods Professor Mostow has written a book that should interest not only specialists in the fields of Japanese literature and fine arts but virtually anyone who enjoys reading poetry in an active and thoughtful fashion J Thomas Rimer University of Pittsburgh *Paradisal Love* John D.

Baildam,1999-01-01 This is the first comprehensive study of Herder s preoccupation with the Song of Songs Baildam considers the importance of this poetry in his thinking and examines his commentaries and translations of 1776 and 1778 Despite Herder s claims to the contrary his own cultural position is revealed in his translations and in his unique interpretation of the work as the voice of pure paradisal love Starting with Herder s interest in the Song of Songs between 1765 and 1778 this book sets his reflections in the wider context of his relativistic views on the nature of poetry contemporary German culture and the importance of primitive poetry in general and the poetry of the Bible in particular Then Baildam looks at current literary critical theories with implications for Herder s translations of these Lieder der Liebe and discusses Herder s theories of language and translation in comparison with German translation theories Herder s reading of the Song as the most primitive natural and sublime example of Hebrew poetry is placed in the context of earlier and contemporary interpretations his opinion of which is examined In the last part of the book there is an appraisal first of Herder s commentaries themselves analysing how the details reflect his overall concept of the work and then of his translations comparing them with each other with the Lutheran text to which Herder ultimately directed his readership and with the Hebrew text A concluding chapter reviews the reception of Herder s work and three appendices offer a parallel presentation of Herder s translations of 1776 and 1778 Luther s translation of 1545 and Goethe s translation of 1775

Metaphors, Narratives, Emotions Stefán Snævarr,2010-01-01 This book argues that there is a complex logical and epistemological interplay between the concepts of metaphor narrative and emotions They share a number of important similarities and connections In the first place all three are constituted by aspect seeing the seeing as or perception of Gestalts Secondly all three are meaning endowing devices helping us to furnish our world with meaning Thirdly the threesome constitutes a trinity Emotions have both a narrative and metaphoric structure and we can analyse the concepts of metaphors and narratives partly in each other s terms Further the concept of narratives can partly be analysed in the terms of emotions And if emotions have both a narrative structure and a metaphoric one then the concept of emotions must to some extent be analysable through the concepts of narratives and metaphors But there is more Metaphors especially poetic ones are important tools for the understanding of the tacit sides of emotions perhaps because of the metaphoric structure of emotions The notion that narrations can be tools for understanding emotions follows from two facts narrations are devices for explanation and emotions have a narrative structure Fourthly the threesome has an impact on our rationality It has become commonplace to say that emotions have a cognitive content that narratives have an explanatory function and that metaphors can perform cognitive functions This book is the first attempt to articulate the implications that these new ways of seeing the three concepts entail for our concept of reason The cognitive roles of the threesome suggest a richer notion of rationality than has traditionally been held a rationality enlivened with metaphoric narrative and emotive qualities *A History of European Literature* Walter Cohen,2017-01-19 Walter Cohen argues that the history of European literature and each of its standard periods can be illuminated by comparative consideration of the different literary languages within Europe and by the ties of European literature to world literature World literature is marked by recurrent systematic features

outcomes of the way that language and literature are at once the products of major change and its agents Cohen tracks these features from ancient times to the present distinguishing five main overlapping stages Within that framework he shows that European literatures ongoing internal and external relationships are most visible at the level of form rather than of thematic statement or mimetic representation European literature emerges from world literature before the birth of Europe during antiquity whose Classical languages are the heirs to the complex heritage of Afro Eurasia This legacy is later transmitted by Latin to the various vernaculars The uniqueness of the process lies in the gradual displacement of the learned language by the vernacular long dominated by Romance literatures That development subsequently informs the second crucial differentiating dimension of European literature the multicontinental expansion of its languages and characteristic genres especially the novel beginning in the Renaissance This expansion ultimately results in the reintegration of European literature into world literature and thus in the creation of todays global literary system The distinctiveness of European literature is to be found in these interrelated trajectories **The Challenge of German Literature** Horst S. Daemmrich,1971
