Pensions Challenges And Reforms International Studies On Social Security Fiss:

Pensions: Challenges and Reforms Einar Overbye, 2017-11-28 Throughout the developed world public and private pension schemes face major challenges that are creating irresistible pressures for reform Major structural changes in Latin America and in Central and Eastern Europe have led to particularly fierce pressure Two member states of the European Union Italy and Sweden have introduced radical reform of their public pensions systems controversial pension reforms have been proposed in France and Germany and the British government has been widely criticized over its pension reforms and its 2002 white paper This exceptional volume examines the challenges faced by pension schemes in the advanced economies and the reforms that have been introduced to tackle these challenges A team of international contributors provides an up to date invaluable analysis of different aspects of pension problems prospects and reforms The book incorporates cross national chapters as well as a focus on individual countries including Belgium Brazil Colombia Finland Greece Italy Sweden the UK and the USA *International Cooperation in Social Security* Ive Marx, Bea Cantillon, 2005 Some commentators have

predicted that the developed welfare states may have to cut back on social protection in the face of international economic competition Concerns have also been expressed about social dumping and a race to the bottom This book addresses the following issues What does theory tell us about such claims Is there empirical evidence pointing to any form of social dumping Are welfare states converging What kind of international cooperation if any is necessary to safeguard developed welfare states while at the same time enhancing social protection in the less developed ones What can be learned from existing models of cooperation within federal states within the European Union and between other international organisations

Revival: Ethics and Social Security Reform (2001) Erik Schokkaert, 2017-07-12 This title was first published in 2001 Ethical considerations play a key role in both the theoretical and practical functioning of the welfare state The contributors to this book examine these ethical issues and demonstrate how value judgements must be integrated into any analysis of social security reform

Welfare to Work in Practice Peter Saunders, 2017-07-05 Welfare to Work in Practice brings together some of the leading international social security experts to discuss the rationale for welfare to work policies their limitations and problems encountered in practice Contributors include Jane Millar Neil Gilbert Martin Werding Jonathan Bradshaw and Einar Overbye who address topics ranging from the linkages between social security and the labour market to how the welfare to work agenda is responding to the needs of special groups such as lone parents the long term unemployed and those with a disability The book puts the arguments and ideas that underlie the new welfare reform agenda under the microscope and explains how it is being implemented in an international context Several new data sets are analyzed in a collection that covers developments in Australia Belgium Denmark Estonia Germany Norway the UK and the US as well as several comparative studies In doing so this volume helps to bridge the gap between research and policy and demonstrates how policy can respond to the challenges it faces

Ethics and Social Security Reform Erik

Schokkaert, 2017-07-12 This title was first published in 2001 Ethical considerations play a key role in both the theoretical and practical functioning of the welfare state The contributors to this book examine these ethical issues and demonstrate how value judgements must be integrated into any analysis of social security reform The State and Social Welfare, 1997 Peter Flora, Philip R. De Jong, Julian Le Grand, Jun-Young Kim, 2018-12-20 First published in 1998 this volume contains an edited selection of papers presented at the Fifth International Research Seminar on Issues in Social Security held on 14-17 June 1997 in Sweden by the Foundation for International Studies on Social Security FISS in memory of Brian Abel Smith The chapters cover a wide range of subjects related to old age pension reform family policy employment privatization of social security and health care The authors form a body of well established researchers and scholars of world wide reputation as well as younger scientists stemming from various continents and representing a range of relevant disciplines This volume is the fourth in a series on international studies of issues in social security The series is initiated by the Foundation for International Studies on Social Security FISS One of its aims is to confront different academic approaches with each other and with public policy perspectives Another is to give analytic reports of cross nationally different approaches to the design and reform of welfare state programs *OECD Reviews of Regulatory Reform: Finland 2003 A New Consensus for Change* OECD, 2003-08-01 This OECD review of Finland presents an overall picture set within a macro economic context of regulatory achievements and challenges including regulatory quality competition policy and market openness **Public Pension Reforms in China** Xinxin Ma, 2023-03-30 This book focuses on the public pension reform in China from both institutional and empirical studies perspectives It introduces the process of the public pension reform in China and investigates its effects on households and firms behaviors and individuals well being It provides the reader with rich academic evidence for understanding the transformation of public pension and its effect on the household consumption participating in risky financial market and firms decision making on wage and employment as well as individuals well being The main content of this book comprises three parts i institutional transitions and issues on public pensions in China ii the impact of public pensions on households or firms behaviors in China and iii the impact of public pensions on well being in China This book provides rich academic evidence about these issues based on economic theories and econometric methods using many kinds of Chinese nationwide representative survey data This book is highly recommended to readers who are interested in up to date and in depth empirical studies on the issues of public pension reform and its impact on individuals households and firms behaviors as well as well being in China This book is of interest to those who are interested in the Chinese economy social security policymakers and scholars with an econometric analysis background *Ageing, Social Security and Affordability* Theodore. R Marmor, Philip. R De Jong, 2018-12-13 First published in 1998 This volume the second of a twin set grouping articles based on papers presented at seminars in Sigtuna Sweden during 1994-1996 deals with the largest spending programs of the welfare state old age pensions and medical care and their place within debates about the

desirability and affordability of modern social programs The volume is divided into four parts The first part deals with general welfare state issues cross cutting themes and characterizations of whole systems within such diverse disciplines as social law sociology and economics Part two deals with old age pension reform The countries discussed have widely different geographical cultural and historical backgrounds Part three takes up a number of interesting topics under the heading of health care reform Part four deals with a substantial issue located at the juncture of aging affordability pensions and especially health care increased longevity and population aging and the associated disability and frailty What effect will these have on the future of modern welfare states

Social Policy and the Labour Market Philip R. de Jong, Theodore R. Marmor, 2019-07-23 First published in 1997 this volume examines why while mature welfare states are being trimmed and privatised new social welfare arrangements are implemented in formerly communist and newly industrialised countries The papers in this volume bring together these different worlds but also different academic approaches Micro economic analyses of social insurance and welfare systems are joined with broader political descriptions of social policy in such disparate regions as Scandinavia China Italy Poland and South Africa They give the reader a sense of the fundamental problem of finding a social welfare system that fits specific economic and cultural conditions This volume is the second in a series on international studies of issues in social security The series is initiated by the Foundation for International Studies on Social Security FISS One of its aims is to confront different academic approaches with each other and with public policy perspectives Another is to give analytic reports of cross nationally different approaches to the design and reform of welfare state programs The present and next volume form a twin set in the sense that they both are based on selections from papers presented at seminars held by FISS in 1994 1996

Albania and Europe in a Political Regard Klodiana Beshku, Orinda Malltezi, 2013-09-11 Albania and Europe in a Political Regard is a multidisciplinary work which aims to develop different points of view in the field of social sciences In this sense it is not by chance that the chapters cover a variety of different disciplines like history sociology political science and philosophy These chapters stand alone and at the same time create a whole network of relationships between Albania and Europe An important element of this work is its multidimensional considerations of Europe it is conceptualised on a number of different levels throughout the chapters sometimes as a continent sometimes as an organization and other times as a leader In some chapters Europe is understood in terms of European integration or European civilization In others Europe is simply the idea of the continent and its reflections in the Albanian society The main axis that drives the chapters is the idea of Albania in relation to Europe how this relationship is understood how it has worked in the past and how it works today The idea of Europe in this book is conceptualised and explored in a number of

different ways from the idea of European modernity to a soft power from a construction of identity to a model of behaviour according to each author's varied point of view and discipline of studies. All the nine chapters in this volume utilise different ways of thinking and approaches but are all connected by a common axis that is Albania and Europe in a Political Regard.

Minimum Income Schemes in Europe International Labour Organisation, 2003. This book investigates the paradox of rich countries of Western Europe who have high levels of poverty whilst proclaiming its eradication as one of the primary social and economic goals. It looks at how policies often do not achieve their goals, why countries need mechanisms to reduce wage inequality and why they choose to provide universal benefits instead of systems of selective benefits targeted at the poor. Along with cross-country comparisons, the volume also presents analysis of the minimum income in France, Portugal, Italy, Finland, Ireland, Belgium and Greece.

OECD Economic Surveys: Finland 2003 OECD, 2003-02-04. This 2003 edition of OECD's periodic review of Finland's economy examines recent economic developments, policies and prospects and includes special features on the effectiveness of public spending, ageing, pension reform and long-term public finances and policies to boost potential output growth.

International Labour Documentation International Labour Organization. Central Library and Documentation Bureau, 1999.

Ageing and the Labour Market Han Emanuel, 2006. Contains an edited selection of papers presented at the 12th Annual International Research Seminar on Issues in Social Security held by the Foundation for International Studies on Social Security FISS in Sigtuna, Sweden, 11-13 June 2005. Deals with the consequences of the ageing of the population regarding the sustainability of social security. Discusses issues of mandatory versus actual retirement ages for industrialised countries.

European Journal of Social Security, 2004.

OECD Reviews of Regulatory Reform: Finland 2003, 2003-08-11. Finland's reform efforts over the last 20 years have strengthened competition in many parts of the economy and fostered above-average growth. A key feature of reform has been the deregulation of important sectors of the economy, reversing a legacy of state control. However, the challenges posed by high unemployment and a rapidly aging population underline the need to spread reforms across all parts of Finnish society. Finland also needs to improve efficiency in its large public sector. The economy has also changed significantly to complement the country's traditional strength in industrial goods and natural resources; an information and communications technology sector has flourished. R&D expenditure is now the second highest in the OECD as a percentage of GDP. To build on those successes, further reforms are needed. The public sector remains large relative to other OECD countries, as do tax burdens. Although significant reforms of the public sector have already taken place, further steps are needed to promote greater efficiency. Finland has worked hard to improve its regulatory governance since the 1980s, but a stronger political drive for impact assessments of new laws and regulations, as well as supporting structures in the centre of government, would improve the efficiency and coherence of regulatory instruments. There is need for further reform as Finland's population is aging more rapidly than it is in most OECD countries. The number of people over age 65 is projected

to increase by more than 50% by 2020 and the labour force could start to decline within a decade Rapid aging also underscores the need for labour market reforms Although unemployment has halved since 1994 at 9% it is still above the EU average Structural unemployment especially long term unemployment remains a major problem Centralized wage negotiations offer little incentive for improvement in sheltered sectors of the economy Moreover the regulatory regime does little to encourage unemployed individuals to return to work
