## Alliteration

Another name for alliteration is tongue twisters: one after the other share the first few, initial consonant sounds.

E.g. She sells seashells on the seashore.

## Amplification

Repeating the same word one after the other, combined with an adjective or two makes it seem stronger, more significant.

E.g. His face is red, so so red.

## Anaphora

Anaphora is defined as repeating a single word or a phrase in successive phrases.

E.g. Some glory in their birth, some in their skill, some in their wealth.

## Antimetabole

Repeating words in reverse order is what antimetabole is all about.

E.g. Eat to live, not live to eat.

## Antithesis

Any time you make a connection between two events, people or things you are using this rhetorical device

E.g. Love, is ideal, marriage real.

## Allusion

Every time you make a reference to some places, events, or a person you are making an allusion

E.g. I'm not Sherlock Holmes to figure that out.

## Analogy

Sometimes the easiest way to explain things is to strike a parallel with some other thing that is quite similar to it

E.g. She is as pale as a ghost.

## Antanagoge

An antanagoge is when you combined a positive and a negative statement together

E.g. This summer season was dry, but not as dry as the one back in 2012.

## Antiphrasis

This device is used for ironic, sarcastic and humorous effect. It usually makes fun of opposites.

E.g. A really ugly painting, such a Mona Lisa, or a very slow person, Usain Bolt

## Appositive

If you want to describe a noun better, with another noun, you are using appositive

E.g. Alexander of Macedonia, master general.

## Enumeratio

Enumeratio is when you try to make some sort of point by numbering things one after the other.

E.g. The salesgirl lists every feature the item has in an attempt to make you agree with them

**Milton and the Revolutionary Reader** Sharon Achinstein, 2014-07-14 The English Revolution was a revolution in reading with over 22 000 pamphlets exploding from the presses between 1640 and 1661 What this phenomenon meant to the political life of the nation is the subject of Sharon Achinstein's book Considering a wide range of writers from John Milton Thomas Hobbes John Lilburne John Cleveland and William Prynne to a host of anonymous scribblers of every political stripe Achinstein shows how the unprecedented outpouring of opinion in mid seventeenth century England created a new class of activist readers and thus helped to bring about a revolution in the form and content of political debate By giving particular attention to Milton's participation in this burst of publishing she challenges critics to look at his literary practices as constitutive of the political culture of his age Traditional accounts of the rise of the political subject have emphasized high political theory Achinstein seeks instead to picture the political subject from the perspective of the street where the noisy scrappy and always entertaining output of pamphleteers may have had a greater impact on political practice than any work of political theory As she underscores the rhetorical literary and even utopian dimension of these writers efforts to politicize their readers Achinstein offers us evidence of the kind of ideological conflict that historians of the period often overlook A portrait of early modern propaganda her work recreates the awakening of politicians to the use of the press to influence public opinion Originally published in 1994 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important
