People Of Terra Nullius Betrayal And Rebirth In Aboriginal Canada:

People of Terra Nullius Boyce Richardson,1993 Discussion of the situation of native peoples in Canada **Recovering Canada** John Borrows,2017-06-22 Canada is covered by a system of law and governance that largely obscures and ignores the presence of pre existing Indigenous regimes Indigenous law however has continuing relevance for both Aboriginal peoples and the Canadian state In his in depth examination of the continued existence and application of Indigenous legal values John Borrows suggests how First Nations laws could be applied by Canadian courts and tempers this by pointing out the many difficulties that would occur if the courts attempted to follow such an approach By contrasting and comparing Aboriginal stories and Canadian case law and interweaving political commentary Borrows argues that there is a better way to constitute Aboriginal Crown relations in Canada He suggests that the application of Indigenous legal perspectives to a broad spectrum of issues that confront us as humans will help Canada recover from its colonial past and help Indigenous people recover their country Borrows concludes by demonstrating how Indigenous peoples law could be more fully and consciously integrated with Canadian law to produce a society where two world views can co exist and a different vision of the Canadian constitution and citizenship can be created **Exalted Subjects** Sunera Thobani,2007-01-01 An absorbing study Exalted Subjects makes a contribution to the transformation of the racialized and gendered underpinnings of both nation and subject formation Aboriginal Peoples and Forest Lands in Canada D.B. Tindall,Ronald L. Trosper,Pamela Perreault,2013-02-11 Aboriginal people in Canada have long struggled to regain control over their traditional forest lands There have been significant gains in the quest for Aboriginal self determination over the past few decades including the historic signing of the Nisga a Treaty in 1998 Aboriginal participation in resource management is on the rise in both British Columbia and other Canadian provinces with some Aboriginal communities starting their own forestry companies Aboriginal Peoples and Forest Lands in Canada brings together the diverse perspectives of Aboriginal and non Aboriginal scholars to address the political cultural environmental and economic implications of forest use This book discusses the need for professionals working in forestry and conservation to understand the context of Aboriginal participation in resource management It also addresses the importance of considering traditional knowledge and traditional land use and examines the development of co management initiatives and joint ventures between government forestry companies and native communities *Struggle for the Land* Ward Churchill,2002-09 Landmark work illustrates the history of North American indigenous resistance and the struggle for land rights **A Common Hunger** Joan G. Fairweather,2006 The impact of colonial dispossession and the subsequent social and political ramifications places a unique burden on governments having to establish equitable means of addressing previous injustices This book considers the efforts by both Canada and South Africa to reconcile the damage left by colonial expansion in part looking back with a critical eye but also pointing the way towards a solution that will satisfy the common need for human dignity **Belongings** Sally Miller,2016-10-20T00:00:00Z Land used to produce food is at the core of

disputes violent conflicts and despair across the world As farmers increasingly can no longer afford to grow food and as one in ten Canadians faces food insecurity each year it is clear that our culture specific land systems lie at the heart of the current food and farm crises Solutions must be implemented to ensure food security and food sovereignty in Canada and the world In *Belongings* Sally Miller illustrates how food and farm crises result from adherence to the rules of private property Miller looks at the state of farmland and farmers in Canada and across the world as a way of understanding ownership land regulation and the dire situation of our ability to produce food Hundreds of acres of prime farmland are lost each day to residential development further restricting the ability of farmers to supply our food needs Farmers face ever increasing financial risks and often have to sell farmable land for commercial development to make ends meet Finally Miller highlights several alternative structures of land use that are proving to be successful in Canada and across the globe and argues that the way in which we understand and manage foodlands needs to be reconsidered to achieve sustainable food systems with healthy food access for all

Reservation "Capitalism" Robert J. Miller, 2013-11-01 Native American peoples suffer from health educational infrastructure and social deficiencies of the sort that most Americans who live outside tribal lands are wholly unaware of and would not tolerate Indians are the poorest people in the United States and their reservations are appallingly poverty stricken not surprisingly they suffer from the numerous social pathologies that invariably accompany such economic conditions Historically most tribal communities were prosperous composed of healthy vibrant societies sustained over hundreds and in some instances perhaps even thousands of years By creating sustainable economic development on reservations however gradual long term change can be effected thereby improving the standard of living and sustaining tribal cultures Reservation Capitalism relates the true history describes present day circumstances and sketches the potential future of Indian communities and economics It provides key background information on indigenous economic systems and property rights regimes in what is now the United States and explains how the vast majority of Native lands and natural resource assets were lost Robert J Miller focuses on strategies for establishing public and private economic activities on reservations and for creating economies in which reservation inhabitants can be employed live and have access to the necessities of life circumstances ultimately promoting complete tribal self sufficiency **Modern Tribal Development** Dean Howard

Smith, 2000-06-14 First Nations people know that a tribe must have control over its resources and sustain its identity as a distinct civilization for economic development to make sense. With an integrated approach to tribal societies that defines development as a means to the end of sustaining tribal character, Dean Howard Smith offers both conceptual and practical tools for making self-determination and self-sufficiency a reality for Native American Nations. Through a century of changes in federal policy, tribal development has typically been viewed through mainstream society's goals and system or according to some pan-Indian framework. Instead, Smith argues that any development prospectus must be created and evaluated within the dictums of the individual indigenous social structure. Otherwise, a tribe must choose between cultural integrity and economic development. Smith draws from his extensive experience as a consultant, teacher, and instructor to offer a wide variety of detailed case studies, and readers will learn from both successful and failed development initiatives. While focused on the United States, his work will be applicable for indigenous peoples in many parts of the world. In addition to tribal employees and communities, *Modern Tribal Development* will be important reading for scholars and students in Native American studies, development studies, community planning, and cross-cultural studies. **Citizenship and Identity** Engin F. Isin, Patricia K. Wood, 1999-12-07 This book provides an introduction to themes within citizenship and identity. The authors draw together debates in sociology, political theory, and cultural gender studies to show how the civil, political, and social meanings of citizenship have been redefined by postmodernization and globalization.
