friendship and the fact that each person has a world of options inside them It was a good lesson that everyone has the power to change their own lives and make a difference in the world Story begins Once upon a time a little boy named Max lived in the quiet town of Springville which was tucked between rolling hills and fragrant fields The room was full of his ideas and wild thoughts Max s bright blue eyes and curious heart were drawn to stories about brave acts and magical worlds He read books at a worrisome rate especially ones that took him to faraway places and told him what ancient treasures really meant Every night when he went to bed his mind was full of exciting trips he had yet to take Max had a strong desire to go on his own trip one in which he could see parts of the Earth that had never been seen before and learn the secrets of the universe He didn t know that fate was working behind the scenes to make all of his deepest wishes come true Max was having a normal day until he found an old book with a leather cover hidden in the darkest parts of his grandmother s attic The book s yellowing pages and broken pictures held a lot of mysteries that needed to be answered Max s eyes were drawn to a flash of light in the distance as he slowly turned the thin leaves Between the worn out paper a faded picture of his grandfather standing proudly next to a strange pocket watch had been slid down Max felt a rush of energy because he was interested in the picture and liked how pretty the watch was He got a sinking feeling in the pit of his stomach when he realized that this watch held the key to his amazing quest Max s hands were shaking when he found the watch in the attic where it had been hidden The watch had stood the test of time and now its metal case had beautiful carvings on it In the meantime the hands of the watch didn t move at all during a moment of endless waiting Max felt a strange warmth rush through his fingers as he grabbed the watch This made a connection between his whole being and the weird power of the watch When Max was younger he liked to go to his grandmother s attic when the sun was shining and golden rays of light were coming in through the windows He had always been curious about the secrets and treasures hidden in this interesting area and today was no different As he climbed the old wooden stairs his heart was beating fast because he was looking forward to what he would find at the top The attic looked like it was stuck in the past because it was full of old trunks lost books and treasures from a long time ago Max s eyes darted from one corner to another as he looked for something to interest him and get his mind going Then as if he were being led by a force he didn t understand his eyes were pulled to a small old wooden box in a dusty corner of the room As Max walked up to the box he was very interested in what was inside He carefully cleaned off the dust that had built up on its surface showing the intricate carvings that had been cut into the wood The box seemed to tell old stories over and over again and promise exciting new adventures Max opened the lid carefully and his hands were cold the whole time When he looked down he saw a treasure chest A small watch with a fancy design was calling to him from inside a box with some old photos and scribbled notes Max was attracted to it like a magnet and he couldn t help but go toward it It seemed like the watch had been waiting for Max all along because it had a mysterious air about it Max was quickly drawn to the face of the watch which was full of symbols and numbers Each symbol s meaning was a secret and it pointed to strange

things that could happen or happen in the future As he held the watch in his hands he could feel a relaxing warmth coming from its smooth surface Because of this his heart rate went up and he got pretty excited Max had a lot of questions running through his head Who owned the watch before you What exciting things had happened while it was there The watch seemed to be the key to a universe that was bigger than anything he had ever imagined It was a doorway to a world of wonder and magic that he had never imagined Max could see beautiful engravings on the sides of the watch as he looked at it more closely The engravings showed mythical monsters celestial bodies old signs and symbols of knowledge and other things It was like the watch itself was a map to all the amazing things in the universe ready for a brave adventurer to solve its mysteries and figure out what they meant Max felt more and more like he belonged to the watch as time went on He felt like the watch had chosen him for a part that was much bigger than he could understand He then put the watch on his wrist A rush of energy went through his whole body leaving him with a tingling feeling of eager expectation Max didn't know that the watch he was wearing could change the way time went It was a treasure from a long time ago full of the mystery of old times Max was asked to follow the symbols and numbers on its face to go back in time and find something really cool These symbols and numbers were more than just decorations they were the locations for a huge tapestry of time Max's eyes lit up with joy and wonder as he looked at the time on the watch he had just put on his wrist He had a feeling that nothing in his life would ever be the same again There were journeys waiting for him puzzles to solve and stories to become a part of him Max had no idea that he was about to go on a series of amazing journeys that would take him back in time to see the rise and fall of great societies meet legendary people and find hidden truths that would change the course of his life As soon as Max put the lid back on the wooden box people began to talk about dark and scary things in the attic The watch had picked him to go on an adventure and he was going to go Max came down from the attic with a new sense of purpose eager to take the first step into a world where time would be his playground and the watch would be his guide At this point Max and the magical watch began their trip which would turn out to be a story of self discovery bravery and the power of the human mind Max would travel through time and see great societies rise and fall meet legendary people and bravely and persistently get through dangerous waters Max's first trip which was made possible by the watch was to old Greece a place full of stories and myths He found himself in the middle of the Olympic Games where he saw the start of a long lasting tradition and stood next to some of the best athletes in the world He was blown away by the beauty of the Parthenon interested in the history of Athens and enthralled by his conversations with the smart people who helped make the world what it is today Max's understanding grew with each time jumped and as he traveled through history he grew to love the variety and depth of people's lives Max loved the sights sounds and tastes of each time period getting lost in the rich wave of human history He went everywhere from the busy markets of ancient Rome to the great courts of the Chinese rulers The watch became more than just a way to get around It also became a way to learn It gave Max the chance to see important events in history like the

signing of the Magna Carta and the first flight of the Wright brothers These events did more than just catch his attention they also made him feel like he had to protect what he had learned As Max traveled through time he met other people who like him were interested in finding new places and learning new things In the past when he was in Egypt he met a young girl named Amina who had a strong connection to the pharaohs They became inseparable because they worked together to figure out what the hieroglyphs meant and what the pyramids were hiding Max didn't know his watch was different until a long time later It could go through the clouds of time letting the person holding it go to distant times in the distant past and distant times in the distant future The watch was a doorway to a world that was so big it was hard to imagine It lets the person who wore it spin through time and meet amazing animals and places Max was very happy when he realized that he was about to go on a trip which had been his dream for a long time Springville where he lived had recently become mysterious and interesting Max imagined himself standing at a crossroads in time about to start his own amazing trip His thoughts were full of the bubbling excitement of anticipation Max would be taken to undiscovered places every time the watch went off There he would meet long dead civilizations monsters from stories and wise sages who knew how to solve the secrets of the universe He would fly through the air with monsters with wings find lost towns make friends with mermaids from the deep sea and see nations rise and fall When Max put the watch that could go back in time closer to his chest he felt like he had a new task and was very excited He could see into the past and the future with the watch and it would also show him how brave and strong he was With each new adventure Max would learn something new about the meaning of his life This would shape his personality and leave an imprint on time Max didn't know that his story would be written down in Springville's history books or that his name would become part of legend Max didn't think either of these From then on Max's life would be a never ending story of bravery discovery and the unbreakable power of a young dreamer's heart Max went on his big journey as a hero to be ready to change the world and leave an indelible mark Before going on his trip he carefully put the watch that could go back in time in his pocket on what was going on in the world around him Max took each step of his journey with a spirit of interest and a desire to learn about new things The first time he went back in time he found himself in the time of the ancient Egyptians Max was fascinated by the huge pyramids and busy shops of a long gone civilization He made friends with scribes who taught him all about hieroglyphics When he saw the beautiful Sphinx being built he was filled with awe

Written by one of the world's foremost authorities on Shelby automobiles, critically acclaimed author Colin Comer, and with a foreword by Lee Iacocca, the American automobile executive credited with the successful development of the Mustang, this is the definitive account of the Shelby. When Ford wanted to toughen up its super successful new Mustang, they approached Carroll Shelby to give it the performance image it so sorely lacked. Beginning with a 1965 K Code 289 cubic inch powered Mustang fastback, Shelby applied the same formula that had made his Cobra sports cars such devastating performers, both on and off the track: more horsepower, less weight, balanced handling. The GT350 quickly established itself as a bonafide force in SCCA B Production racing, twisting back roads and boulevards alike, setting the course for future Shelby Mustangs like the big block GT500. Though those original Shelby Mustangs were gone by 1970, Ford dusted off its Shelby relationship in 2006 and has been producing high performance Ford Mustang Shelybs ever since. This is a must have read for any fan of American performance cars, whether you're a muscle era original or a 21st century stormer. *Adventures In Raspberry Pi* Carrie Anne Philbin, 2013-12-03.
