Beyond the People Zoran Oklopčič, 2018 *Beyond the People* develops a provocative interdisciplinary and meta theoretical critique of the idea of popular sovereignty It asks simple but far reaching questions Can imagined communities or invented peoples ever be theorized without at the same time being re imagined and re invented anew Can polemical concepts such as popular sovereignty or constituent power be theorized objectively If as this book argues the answer to these questions is no theorists who approach the figure of a sovereign people must acknowledge that their activity is inseparable from the practice of constituent imagination Though widely accepted as important even vital for the development of political concepts the social practice of imagination is almost always presumed to operate either historically or impersonally but seldom individually Those who theorize the figures of popular sovereignty do not see that they are in effect conjurors of peoplehood This book invites constitutional international normative and other political and legal theorists of sovereign peoplehood to embrace the conjuring side of their professional identities as a way of exploring the possibility of moving beyond eternally recurring insolvable and increasingly irrelevant questions Instead of asking Who is the people What is the function of constituent power Where may the people exercise its right to self determination *Beyond the People* asks the reader to consider the prospect of a riskier and more adventurous theoretical road that opens with the question What do I as a theorist imaginer or conjuror of peoplehood assume anticipate and aspire to as I theorize the vehicles that mediate the assumptions anticipations and aspirations of others This question is examined throughout the book as it interrogates the idea of peoplehood beyond disciplinary boundaries showing how polemical visual affective conceptual and allegorical language critically shapes our idea of peoplehood It offers a nuanced account of the contested relationship between the social imaginary of peoplehood on the ground and the imaginative practices of the professional conjurors of peoplehood in the academy
