MacFarlane, 2011-03-11 In his last book The Real Gorbals Story Colin MacFarlane detailed how he witnessed a once great area home to wonderful characters and grand old buildings disappear before his eyes By the time MacFarlane's tenement was knocked down in the early 1970s he had left school and been rehoused in another part of the city In an attempt to extricate himself from his Gorbals gang days he took a job as an apprentice chef at one of Glasgow's top restaurants where

he soon discovered that his colleagues were just as insane as those he had mixed with on the city streets Meanwhile MacFarlane struggled to integrate into the more affluent area that his family had been moved to and soon found himself returning to his old haunts and back in trouble again In No Mean Glasgow MacFarlane charts his eventful fun packed passage from Gorbals street boy to grown man on the brink of a new beginning He describes his adventures with a mixture of humour sadness and delight It is a book for those people living all over the world who remember the old Glasgow a city teeming with warmth passion patter and characters who could brighten up even the darkest of days **The Wind Ninja**

Michael Somers,2012-11-13 Music Comes in Springtime Jared Kuykendall,2023-09-13 We walked down the steps of the church into the cold December air laughing Then I suddenly saw a boy of about fourteen in a cap running past the church shouting The Japs bombed Pearl Harbor The Japs bombed Pearl Harbor For a moment in time Dad and Mom froze and my hair stood on end I didn't even know where Pearl Harbor was located I only knew it must be somewhere in the United States The story of my own family has intrigued me ever since I was a little boy For years I have sat and listened to my parents grandparents and great grandparents besides many aunts uncles and other relatives to hear bits and pieces of our story Life is made up of stories It is how we understand the world around us We need to understand our own lives and choices in light of a historical context We need to have the ability to identify where we align with and don't align with values and ways of life from the past In so doing our lives will feel more grounded People today talk about how they feel a disconnect between themselves in the twenty first century and the untouchable past But the past really holds a lot of the key to the future The right proven ways from the past are ours for the taking if we would but take the time to learn about them And that is what this book is all about Yes it will take time to complete But I don't want it to seem like a homework assignment Enjoy Think about it as a stepping stone to your own historical discoveries May Music Comes in Springtime inspire you as you continue this odyssey called life Garner's Modern English Usage Bryan Garner,2016-03-11 With more than a thousand new entries and more than 2 300 word frequency ratios the magisterial fourth edition of this book now renamed Garner's Modern English Usage GMEU reflects usage lexicography at its finest Garner explains the nuances of grammar and vocabulary with thoroughness finesse and wit He discourages whatever is slovenly pretentious or pedantic GMEU is the liveliest and most compulsively readable reference work for writers of our time It delights while providing instruction on skillful persuasive and vivid writing Garner liberates English from two extremes both from the hidebound purists who mistakenly believe that split infinitives and sentence ending prepositions are malfeasances and from the linguistic relativists who believe that whatever people say or write must necessarily be accepted The judgments here are backed up not just by a lifetime of study but also by an empirical grounding in the largest linguistic corpus ever available In this fourth edition Garner has made extensive use of corpus linguistics to include ratios of standard terms as compared against variants in modern print sources No other resource provides as comprehensive reliable and empirical a guide to current English usage For all concerned with writing and editing GMEU will prove invaluable as a desk reference Garner illustrates with actual examples cited with chapter and verse all the linguistic blunders that modern writers and speakers are prone to whether in word choice syntax phrasing punctuation or pronunciation No matter how knowledgeable you may already be you're sure to learn from every single page of this book **The Angel Trilogy: A Life Beyond Death** K.L. Taylor,2017-02-12 What makes the human mind and the human race such a wondrous thing is not the suffering that occurs in the world but the paths that the human mind takes when faced with that suffering There's always a choice I voiced Exactly that there is always a choice The Angel Trilogy tells
