People Who Run Europe:

People Who Run Europe Edward C. Page, 1996-12-26 In the minds of many Brussels is very closely associated with bureaucracy Yet we know little about the character of the European Union's bureaucracy Professor Page draws upon a wide range of empirical sources to present a picture of the administrative system of the EU He discusses the complexities of its internal organization and goes on to explore the people who work in it As a multinational organization its procedures for appointment and promotion reflect in part the need to maintain a professional career civil service and in part the desire to secure a fair mix of nationalities among top officials People who Run Europe looks at the distinctive features of the administrative system which these two principles help to produce as well as at the nature of the people their backgrounds careers and skills who are attracted to it The author also examines the role of top officials in the decision making process above all in their dealings with politicians and interest groups

Citizenship and Identity in Europe Leslie

Holmes, Philomena Murray, 2018-12-17 Published in 1999 Issues of citizenship and identity have rapidly moved up the European and social science agendas in recent years This book explores the reason for this It focuses on the dilemmas of citizenship and identity in the uncertain and unpredictable atmosphere of fin de siècle Europe In the course of eight essays it explores the general theoretical issues of citizenship and identity and the relationship between these in contemporary Europe the various aspects of European Union citizenship two chapters democracy and multiculturalism in Western Europe pluralism and citizenship with particular reference to gender in West European politics the various implications for gender politics of divorce in Western Europe exclusion and inclusion in central and Eastern Europe and the extent to which the idea of a Yugoslav national identity has been a failure Citizenship and Identity in Europe will appeal both to informed generalists and to students and scholars of Europe who seek analyses of these issues in Eastern central and Western Europe from a wide range of perspectives At a time when the future of Europe is looking more uncertain than it has for decades this book is both timely and thought provoking

Running across Europe Jeroen Scheerder, Koen Breedveld, Julie Borgers, 2015-01-15 Analysing in depth data from 11 European countries this collection explores the rise of the European running market the reasons and motives for running and the most important players in the field The volume sets out policy challenges and marketing possibilities and addresses issues of participation cost and health

How Europe Underdeveloped Africa Walter Rodney,

Italy in the European Union Sergio Fabbrini, Simona Piattoni, 2007-11-28 Based on an analytical evaluation of both the weaknesses and strengths of the Italian political system Italy in the European Union is the first book to offer a detailed and comprehensive description of Italy's contribution to European Union policy making The contributors to this volume systematically explore the role played by Italian institutional and noninstitutional actors in several decision making processes They show how Italian institutional actors define and promote national policy preferences that are compatible with those of the other European member states However the book functions on two levels it is both a nuanced picture of Italy's

role in the EU and a study of the EU as it has been transformed by subsequent waves of enlargement In a compound polity of twenty seven member states the formation of stable hegemonic coalitions is implausible the concept of national interest which still informs much of the literature on the EU is logically and empirically unusable in many EU policy realms Combining empirical investigation and theoretical analysis this book is indispensable for scholars students and practitioners who study or observe Italian politics It is also necessary for those who want to understand the transformation of European politics and the European Union s increasing development as a compound polity Contributions by Marco Brunazzo Maurizio Carbone Sabrina Cavatorto Vincent Della Sala Alessia Don Sergio Fabbrini Paolo Foradori Giorgio Giraudi Renata Lizzi Simona Piattoni Paolo Rosa Stefano Sacchi Alberta M Sbragia Daniela Sicurelli and Luca Verzichelli **Trans-Atlantic, from Office of Labor Advisors** ,1948 **Congressional Record** United States.
