Peoples Economy Philippine Communitybased Industries And Alternative Development:

People's Economy Masaaki Satake,2003 Reimagining Development in Southeast Asia Jose Monfred C. Sy, Ananeza P. Aban, 2025-03-15 This volume consolidates chapters from across Southeast Asia as a means of discussing alternative development pathways It presents radical re imaginings of how development might look considered alongside the growing disillusionment over mainstream development models In suggesting alternative models of development it reframes participatory processes from the developing world discussing practices of decolonization anti capitalism plurality anti racism effacing patriarchy and ecological sustainability designed and executed by grassroot communities and civil society organisations CSOs The grassroots and social movement paradigms highlighted in this collection seek to challenge and change the dominant model of development instituted in ASEAN which have largely failed in meaningfully addressing the issues faced by different sectors That the book project springs from an engagement between scholars and on the ground practitioners means that several chapters combine reflective case based viewpoints To this end the book is relevant to scholars students and practitioners working in areas related to Southeast Asian politics economy and culture **Philippine** Politics Lynn White III,2014-12-17 Philippine political history especially in the twentieth century challenges the image of democratic evolution as serving the people and does so in ways that reveal inadequately explored aspects of many democracies In the first decades of the twenty first century the Philippines has nonetheless shown gradual socioeconomic progress This book provides an interpretive overview of Philippine politics and takes full account of the importance of patriotic Philippine factors in making decisions about future political policies It analyses whether regional and local politics have more importance than national politics in the Philippines Discussing cultural traditions of patronism it also examines how clan feuds localize the state and create strong local policies. These conflicts in turn make regional and family run polities collectively stronger than the central state institution The book goes on to explore elections in the Philippines and in particular the ways in which politicians win democratic elections the institutionalized role of public money in this process and the role that media plays Offering a new interpretive overview of Philippine progress over many decades the author notes recent economic and political changes during the current century while also trying to advance ideas that might prove useful to Filipinos Presenting an in depth analysis of the problems and possibilities of politics and society in the Philippines the book will be of interest to those researching Southeast Asian Politics Political History and Asian Society and Culture **Political Booms** Lynn T. White, 2009 Why have Taiwan rich parts of China and Thailand boomed famously while the Philippines has long remained stagnant both economically and politically Do booms abet democracy Does the rise of middle classes promise future liberalization Why has Philippine democracy brought no boom and barely served the Filipino people This book unlike previous books shows that both the roots and results of growth are largely political not just economic Specifically it pays attention to local not just national power networks that caused or prevented growth in the aforementioned countries Violence

has been common in these politics along with money Elections have contributed to socio political problems that are also obvious in Leninist or junta regimes because elections are surprisingly easy to buy with corrupt money from government contracts Liberals should pay more serious theoretical attention to the effects of money on justice and Western political science should focus more clearly on the ways non state local power affects elections By considering the role of local money and power above all from small and medium sized firms that emerged after agrarian reforms on elections and justice this book asks democrats squarely to face the extent to which electoral procedures have failed to help ordinary citizens Students and scholars of Asia will all need this book as will students of the West whose methods have become parochial Philippine Development, 1979 Indigenous People and Economic Development Katia Iankova, Azizul Hassan, Rachel L'Abbe, 2016-03-22 Indigenous peoples are an intrinsic part of countries like Australia New Zealand Canada Finland USA India Russia and almost all parts of South America and Africa A considerable amount of research has been done during the twentieth century mainly by anthropologists sociologists and linguists in order to describe and document their traditional life style for the protection and safeguarding of their established knowledge skills languages and beliefs These communities are engaging and adapting rapidly to the changing circumstances partly caused by post modernisation and the process of globalization These have led them to aspire to better living standards as well as preserving their uniqueness approaches to environment close proximity to social structures and communities For at least the last two decades patterns of increased economic activity by indigenous peoples in many countries have been viewed to be significantly on the rise Indigenous People and Economic Development reveals some of the characteristics of this economic activity coloured by the unique regard and philosophy of life that indigenous people around the world have The successes difficulties and obstacles to economic development their solutions and innovative practices in business all of these elements based on research findings are discussed in this book and offer an inside view of the dynamics of the indigenous societies which are evolving in a globalised and highly interconnected contemporary world **Updated Philippine Development Plan, 1984-1987** Philippines. National Economic and Development Authority, 1984 Tourism and Development in Southeast Asia Claudia Dolezal, Alexander Trupp, Huong T. Bui, 2020-03-24 This book analyses the role tourism plays for sustainable development in Southeast Asia It seeks to assesses tourism's impact on residents and localities across the region by critically debating and offering new understandings of its dynamics on the global and local levels Offering a myriad of case studies from a range of different countries in the region this book is interdisciplinary in nature thereby presenting a comprehensive overview of tourism's current and future role in development Divided into four parts it discusses the nexus of tourism and development at both the regional and national levels with a focus on theoretical and methodological foundations protected areas local communities and broader issues of governance Contributors from within and outside of Southeast Asia raise awareness of the local challenges including issues of ownership or unequal power relations and celebrate best practice

examples where tourism can be regarded as making a positive difference to residents life The first edited volume to examine comprehensive analysis of tourism in Southeast Asia as both an economic and social phenomenon through the lens of development this book will be useful to students and scholars of tourism development Southeast Asian culture and society and Asian Studies more generally **Sustainable Community Development** Marie Hoff,1998-03-04 The 1990s have been marked by a wide spread awareness of the convergence of environmental economic and social problems and issues Many local workers have begun to recognize that severe setbacks or even collapse of their local economy is strongly related to environmental problems either to the depletion of local resources such as timber fish or minerals or to severe pollution and degradation of the local ecosystem This in depth collection of case studies of urban and rural communities committed to a process of sustainable development provides a more detailed description of this dynamic process than was previously available This provocative book demonstrates the commonalities in approach across a wide variety of environmental and cultural settings examining an emerging consciousness from cultural economic social and environmental viewpoints

Local Economic and Employment Development (LEED) Job-rich Growth in Asia Strategies for Local Employment, Skills Development and Social Protection OECD, International Labour Organization, 2011-04-14 A joint OECD ILO initiative this book analyses local approaches in Asia to modernise labour markets and skills strategies and shows how local recovery is taking place through a combination of policy measures on employment creation skills development and social protection

Asia's Environmental Crisis Michael C. Howard, 2019-04-11 This book focuses on the political economy of the environment in Asia examining the economic and political forces that have generated the problems the political efforts to find solutions and the economic and political contexts of proposed solutions

Liberation Theology in the Philippines Kathleen Nadeau, 2001-10-30 Liberation Theology in the Philippines Faith in a Revolution studies the interrelationship of international development policies and local social and economic structures in the Philippines This ethnography demonstrates that the application of conventional development paradigms to the situation overlooks the human suffering and displacement experienced by the people for whom the policies are supposed to help By contrast the Basic Ecclesial Community BEC movement offers an alternative strategy for development that aims to build a more just and community oriented society while promoting sustainable development The study begins with an historical analysis of the relationship between liberation theology the Catholic Church and the nationalist struggle The remaining chapters look at the real experiences of people living and working in the BECs as they struggle against some of the negative impacts of traditional approaches to development In addition the author illustrates how BECs can fail when environmental and social factors clash with a community s attempts at development and highlights the theology and religious aspects of the BEC movement This unique contribution to the study of liberation theology and development will be of interest to scholars students and professionals working with development agencies and religious organizations Cutting Across the Lands Eveline
