Miller,1998-01-01 This comprehensive survey of indigenous languages of the New World introduces students and general readers to the mosaic of American Indian languages and cultures and offers an approach to grasping their subtleties Authors Silver and Miller demonstrate the complexity and diversity of these languages while dispelling popular misconceptions Their text reveals the linguistic richness of languages found throughout the Americas emphasizing those located in the western United States and Mexico while drawing on a wide range of other examples found from Canada to the Andes It introduces readers to such varied aspects of communicating as directionals and counting systems storytelling expressive speech Mexican Kickapoo whistle speech and Plains sign language

The authors have included basics of grammar and historical linguistics while emphasizing such issues as speech genres and other sociolinguistic issues and the relation between language and worldview. Ayahuasca Shamanism in the Amazon and Beyond by Beatriz Caiuby Labate, 2014-05-21. Beatriz Caiuby Labate and Clancy Cavnar offer an in-depth exploration of how Amerindian epistemology and ontology concerning indigenous shamanic rituals of the Amazon have spread to Western societies and of how indigenous mestizo and cosmopolitan cultures have engaged with and transformed these forest traditions. The volume focuses on the use of ayahuasca, a psychoactive drink essential in many indigenous shamanic rituals of the Amazon. Ayahuasca use has spread to countries far beyond its Amazonian origin, spurring a wide variety of legal and cultural responses. The essays in this volume look at how these responses have influenced ritual design and performance in traditional and non-traditional contexts, how displaced indigenous people and rubber tappers are engaged in the creative reinvention of rituals, and how these rituals help build ethnic alliances and cultural and political strategies. These essays explore important classic and contemporary issues in anthropology, including the relationship between the expansion of ecotourism and ethnic

tourism and recent indigenous cultural revival and the emergence of new ethnic identities The volume also examines trends in the commodification of indigenous cultures in post colonial contexts the combination of shamanism with a network of health and spiritually related services and identity hybridization in global societies The rich ethnographies and extensive analysis of these essays will allow deeper understanding of the role of ritual in mediating the encounter between indigenous traditions and modern societies
