## Pepe Rios:

**Pepe Ríos** Daniel Cano,1991 Pepe Rios is the story of a young man's search for peace as the world around him becomes a battlefield The Mexican Revolution of 1910 has broken out and the death of the protagonist's father sets in motion a chain of events that sends Pepe Rios on a long journey across a confused and angry country His adventures of love war and revenge create the irrevocable momentum that make this novel a sure page turner The texture of the novel is drawn from the vivid depiction of the Revolution and the social chaos that it produced *Is somebody here?* María Fernanda Heredia,2005

*The Return of Thematic Criticism* Werner Sollors,1993 In the glory days of high modernist formalism it was anathema to speak about the content of a work of art Those days are gone and critical practice now is largely thematic practice A focus on the themes of literature informs feminist new historicist ethnic and even second generation deconstructionist approaches However such practice is not always recognized The specter of theoretically impoverished positivism still haunts thematic analysis making it the approach to literature that dare not speak its name This volume brings together for the first time an international group of writers critics and theoreticians who have thought deeply about this issue How can we determine the theme of a given text May the focus on form be the theme of a certain moment Can the motif be understood as a formal category What operations permit us to say that three or four texts constitute variants of the same theme The contributors challenge the conventional dismissal of merely thematic approaches and offer the reader different ways of tackling the issue of what a piece of writing is about The work here comes out of such diverse intellectual traditions as Russian film theory French phenomenology Foucault narratology the Frankfurt School intellectual history Geistesgeschichte psychoanalytic criticism linguistics ideological criticism Proppian folklore studies and computerized plot summary models In addition to a collection of aphorisms from Plato to Robert Coover and a group of general and theoretical essays this volume contains examples of practical engagement with such topics as literary history Shakespeare autumn poetry anti-Semitism fading colors bachelors Richard Wagner and the Mexican Revolution No comparable volume exists **United States** A.
