Un otoño que perduró en la memoria Miguel Ángel Cuenya Mateos, José Ramón Eguibar Cuenca, 2021-08-12 Aunque esta historia coincide con algún periodo de la Revolución mexicana la obra no pretende ser parte de esa historiografía Los autores aspiran a relatar una historia de hombres mujeres y niños indefensos en su gran mayoría que sufrieron frío desnutrición pobreza miseria y diversas enfermedades que afectaban principalmente a la población de la capital poblana La reconstrucción del centro y de las zonas afectadas por los sitios militares de 1863 y 1867 que habían destruido partes importantes de la zona poniente del entramado urbano no pudo resolver la pobreza y crisis

social en la que se encontraba sumida la mayoría de la población. Durante la década de 1910 las dificultades sociales se agudizaron, el movimiento revolucionario trajo aparejados serios problemas en medio del caos y desorden generalizados, además de los conflictos políticos y una constante penuria presupuestal tanto del gobierno estatal como municipal. Esta obra no solo trata de la crisis sanitaria ocasionada por la influenza, sino que es una historia social de los protagonistas, una investigación preocupada por la problemática social cotidiana. El virus de la influenza tiene una larga historia. Se trata de un agente patógeno escurridizo y complejo de analizar. Desentrañar su estructura fue una tarea que consumió horas de trabajo en los principales laboratorios de los Estados Unidos y Europa. Hoy el tema de las grandes pandemias del pasado y en especial de la influenza de 1918 retorna con mucha fuerza, así como la cuestión del aislamiento social, las medidas de higiene y otras como el uso del cubreboca que fueron exitosas en esos momentos y que actualmente se han constituido en un referente de nueva cuenta.

Cuentos del Campus Javier Enrique, Gámez-Rodríguez, Álvaro José, Tirado-Romero, David Felipe, Vega-Villa, Luis Eduardo, Castro-Cera, Gustavo Andrés, Concha-Mendoza, Yenny Rocío, Blanco-Buitrago, Camilo Javier, Velandia-Arias, Leidy Carolina, Herrera-Villalobos, Jorge Luis, Reyes-Carreño, Frak, Torres-Vergel, 2018-10-31. El presente libro es el producto de la convocatoria que la Universidad del Magdalena abrió a principios del año 2018 para funcionarios docentes, contratistas graduados y pensionados que escriben cuentos. Los textos seleccionados son diversos en sus temas y tratamientos, un hecho que refleja la disparidad de visiones y políticas que rige el desarrollo del género en el país y la región. El género y la calidad de algunos de estos cuentos confirman al Caribe y al Magdalena como territorios literarios fecundos, parcelas en donde el cuento mantiene una vigencia privilegiada, muy a pesar de ser un género sin editores que apuesten por él.

The Accountability Gap in EU law Marios Costa, 2016-10-04. Almost two decades ago the fall of the Santer Commission against a background of allegations of maladministration and nepotism had the effect of placing accountability on the political agenda of the EU institutions. More recently the non-ratification of the Constitutional Treaty, the difficulties of the ratification of the Lisbon Treaty and the current financial crisis have increased the calls for accountability in the EU. This book investigates whether any progress towards more accountability and transparency has been made in the post-Lisbon era by taking a holistic approach to the subject. Marios Costa argues that currently the EU institutions and the Member States are not in a position to hold the so-called independent agencies as well as the various committees and expert groups accountable. Despite recent progress the EU still needs to put forward an acceptable constitutional framework which will truly secure accountability at the EU level of governance.

Bibliografía española, 1999-10. The New Economic Governance of the Eurozone Paul Dermine, 2022-07-28. The Eurozone and the European Union have recently been confronted with a number of existential threats. The sovereign debt crisis and the COVID-19 pandemic have forced European decisionmakers to pass important reforms which have radically transformed the nature and scope of the Union's powers in the field of economic and fiscal policy. As the new economic

governance of the Eurozone emerges as the main driver of integration in today's Europe this book seeks to assess the solidity of the constitutional foundations supporting that system and its compliance with the Union's core founding value the rule of law Using competence allocation regulatory quality access to external review and fundamental rights sustainability as analytical benchmarks this book argues that the recent metamorphosis of Eurozone economic governance has not been accompanied by a parallel strengthening of its constitutional settlement leading to a problematic misalignment between the Union's action and its governing principles

The EU as a Global Regulator for Environmental Protection Ioanna
Hadjiyianni, 2019-08-08 This book critically examines the extension of EU environmental legislation beyond EU borders
through measures that determine access to the single market on the basis of processes that take place in third countries It
makes a timely contribution to political debates about the relations between EU and non EU countries and the Union's role in
the global governance of environmental policy where it has been considered a global leader The book aims to identify and
explain the emerging legal phenomenon of internal environmental measures with extraterritorial implications as an
important manifestation of EU global regulatory power and assesses the extraterritorial reach of EU environmental law from
a legitimacy perspective It examines mechanisms that can bolster its legitimacy focusing on the legal orders of the EU and
the World Trade Organization which are key legal fora for controlling the EU's global regulatory power
