Aus Einem Unbekannten Zentrum, Zu Einer Nicht Erkennbaren Grenze Julie A. Reahard, 1997 In an attempt to discover the one idea with respect to which Goethe claimed he had worked while writing *Die Wahlverwandtschaften* taking my cue from Goethe himself I have united the investigational techniques of hermeneutics and complexity or chaos theory and brought them to bear on the structure of several of the mirroring events in the text The overwhelming conclusion of this author is that like those investigating chaos in nature literary theorists must turn to comprehensive approaches if they wish to treat seriously the structure of texts as works which flow from nature the nature of the human mind

Documentarism in Scandinavian Literature Poul Houe, Sven Hakon Rossel, 1997 Documentary literature became an international phenomenon on the cultural and political scene in the 1960s and 1970s From the American New Journalism in works by such writers as Norman Mailer and Tom Wolfe to the German Industriereportagen by G nther Wallraff and others documentarism presented a variety of controversial interplays between facts and fiction labeled as faction fables of fact or the like Scandinavian literature made important and unique contributions to this international movement and Documentarism in Scandinavian Literature is the first comprehensive volume ever published on the historical significance and future implications of these Nordic dimensions of documentarism and their international context The volume is centered on Swedish documentary literature in the 1960s and 1970s and on such major writers as Per Olov Enquist Sven Lindqvist Sara Lidman and Per Olov Sundman but the powerful voices of Danish writer Thorkild Hansen and Norwegian novelist Dag Solstad are also heard in its critical concert The diversity of Documentarism in Scandinavian Literature is further enhanced by surveys and analyses of the historical background for more recent works and activities and by theoretical inquiries into the epistemological status of documentarism its theoretical narrative and theatrical devices its predominant genres and links to other modes of mass communication and its political affiliations and implications For readers already familiar with its subject matter Documentarism in Scandinavian Literature offers an opportunity to revisit and recontextualize a crucial moment in their recent cultural past For readers who have yet to be exposed to documentary works of fiction the volume presents a timely theoretical historical and critical introduction to the key problematics and potentials of their novel field of interest Whether viewed as part of the past or part of the present documentarism remains an intellectual challenge which this volume is aimed at addressing Documentarism in Scandinavian Literature is edited by two Scandinavian scholars living abroad and its essays are written by senior and junior scholars and critics from Scandinavia Europe and America an interview with Per Olov Enquist and an autobiographical piece by Sven Lindqvist complete the volume
