Jet-set, 1989 **Fire and Power** William D. Atwill, 2010-10-01 In *Fire and Power* William D Atwill maps the cultural contours of space age America through readings of some of the era's most popular and influential narratives Saul Bellow's *Mr Sammler's Planet* John Updike's *Rabbit Redux* Norman Mailer's *Of a Fire on the Moon* Tom Wolfe's *The Right Stuff* Thomas Pynchon's *Gravity's Rainbow* and Don DeLillo's *Ratner's Star* Together Atwill demonstrates these key texts comprise a literary history of the space age an exploration of the novel's possibilities in uncertain times and a disturbing critique of postwar society The massive technological enterprise known as the Manned Space Program was in Atwill's words the historical marker of our age and in our race to the moon he says Bellow Updike Mailer Wolfe Pynchon and DeLillo found a trope for the postmodern condition To these writers the space program was the most visible and outward sign of a radical shift in the culture that fostered it a shift from modernism's search for interior individual unity amidst chaos to the postmodern perception of the individual's fragmentation and uncertain standing in the world **Spacefarers** Michael J. Rebecca Janicker, 2022-04-14 In this collection, contributors analyze the depiction of scientists in a wide range of films and television programs that span across genres including horror, science fiction, crime drama, comedy, and children's media. Scientists in popular culture, they argue, often embody the hopes and fears associated with real-life science, which continue to be prevalent in both fictional and non-fiction media. By becoming the human face of scientific insight and innovation, the scientist in popular culture plays a key role in encouraging public engagement with scientific ideas. Scholars of media studies, popular culture, and health communication will find this book particularly useful. *It's Not Rocket Science* Robert

Nance, 2018-08-03 Share the author's amazing journey of being asked to become a flight controller at NASA when he didn't even apply, being in NASA Mission Control when man landed on the moon, being a business owner during good and hard times, being the father of a son desperately needing a liver transplant, and then wanting to share all that the Lord offers. The author received the Presidential Medal of Freedom for being part of the Apollo 13 Mission Operations Team that rescued the Apollo 13 astronauts. Bob Nance is mentally integrating throttle usage by the crew and giving his best guesstimate of the hover time remaining before the fuel runs out. During training, he got pretty good at it and could hit the empty point within plus or minus ten seconds, but he never dreamed he would still be flying this close to empty and depending on Nance's eyeballs. GENE KRANZ, Apollo 11 flight Director, as he describes the final seconds of man's first landing on the moon during Apollo 11, with the author as the Lunar Module Propulsion Flight Controller. *From Failure is Not an Option* by Gene Kranz. This book is about a man on a mission, actually many missions. From rocket scientist at mission control for Apollo 11 and 13 to business owner and new car sales manager, as well as a husband, father, and son, Bob Nance has lived an exciting life full of ups and downs, blessings, and difficulties. Through it all, Bob's main mission has been to trust and follow the Lord Jesus Christ daily. When he has God's sovereignty and presence, they have been beyond question. *It's Not Rocket Science: It's All About Faith* is an inspiring, personable, and easy read. If you have ever questioned God's care and love or His sovereignty over all of life's circumstances, I commend this book to you. J. E. Buddy Childress, Executive Director, Needles Eye Ministries, Richmond, VA.

Entrepreneur's Guide To Start Grow and Manage a Profitable Business In his book *The Right Stuff* Tom Wolfe describes what it took for the early test pilots to succeed A career in flying was like climbing one of those ancient Babylonian pyramids made up of a dizzy progression of steps and ledges and the idea was to prove at every foot of the way that you were one of the elected and anointed ones who had the right stuff and could move higher and higher and even ultimately God willing one day that you might be able to join that special few at the very top that elite who had the capacity to bring tears to men's eyes the very brotherhood of the right stuff itself Although success as an entrepreneur launching a new business does not include feeling superior or facing death it does require that a person have a special set of qualities and skills with which to exercise good judgment make wise decision take calculated risk and get along with and lead others The *The Entrepreneur's Guide To Start Grow and Manage a Profitable Business* provides what it takes what is the right stuff for the successful entrepreneur The most successful entrepreneurs are not necessarily those who work hardest or longest Successful business owners are those who have a vision that can see beyond the bottom line who have learned to manage their professional and personal lives Making it with a new business venture requires all the traits of an entrepreneur as enumerated in *The Entrepreneur's Guide* as well as the knowledge skills and persistence to grow and withstand the stress ambiguity conflicting objectives emotions and chaos that comes with a new business effort Achieving this balance is what *The Entrepreneur's Guide* is about It will help you steer a path to guide you with the right stuff to the top of the pyramid of business success
