Committee on Resources of American Libraries. National Union Catalog Subcommittee, 1968 **Freedom as Spiritual Activity** Edward Warren, 1994 The conception of freedom today is increasingly connected to the realms of economics politics and religion But what really is freedom in its essence and does it have a spiritual aspect Through the use of narrative and discussion Edward Warren helps clarify this central human question focusing particularly on ideas derived from Rudolf Steiner's *The Philosophy of Spiritual Activity* Observing Steiner's wish that his main philosophical book should be reworked for every new generation Warren treats the theme in a fresh and lively manner The British National Bibliography Arthur James Wells, 1969 Practical Training in Thought Rudolf Steiner, 1968 **Fruits of Anthroposophy** George Kaufmann, 1922 **Library of Congress Catalogs** Library of Congress, 1976 General Catalogue of Printed Books British Museum. Anthroposophy in Everyday Life Rudolf Steiner, 1995 Four of Rudolf Steiner's best loved lectures are collected in this book They are some of the most accessible presentations of the anthroposophic approach to life available in English Included are *Practical Training in Thought* *Overcoming Nervousness* *Facing Karma* *The Four Temperaments* The first lecture concerns the fundamental human activity of thinking Everything we do we do through thinking The first task then is to realize the reality of thinking To help us do this Steiner gives exercises that will allow us to experience the cognitive even clairvoyant power of thinking In *Overcoming Nervousness* Steiner shows us how exercises in thinking also give us the calm centered sense needed to lead purposeful healthy lives *Facing Karma* takes us to the heart of life where we experience suffering and happiness The law of karma that determines life's experiences and encounters also helps us develop the self knowledge required for self transformation Finally *The Four Temperaments* show us how the union of hereditary factors and our own

inner spiritual nature shape our psychology The guide here is the ancient classifications of sanguine choleric phlegmatic and melancholic Renewed understanding of these allows us to develop a truly modern spiritual psychology which is the basis of all real inner development With its many practical exercises mantras and meditations this book is a fundamental introduction for anyone beginning or needing encouragement along the path of inner development **Guided Self-Study** Torin Finser,2015-08-01 First one might ask Why not just read the first three books After all Rudolf Steiner wrote them in such a way that the very act of reading them can awaken new faculties Who could ever duplicate that It might even seem presumptuous to select passages from books that were constructed by an initiate To those who have these and other objections I have the following response My hope is that the pages in this book serve as an invitation so that those who work with this material will then be motivated to go to the original texts and work with them more intensively Torin Finser *The British Library General Catalogue of Printed Books to 1975* British Library,1985 **Bibliographie der Übersetzungen deutschsprachiger Werke** ,1971
