Annual Bibliography of the History of the Printed Book and Libraries Dept. of Special Collections of the Koninklijke

Bibliotheek,2003-12-31 The Annual Bibliography of the History of the Printed Book and Libraries aims at recording articles of scholarly value which relate to the history of the printed book to the history of arts crafts techniques and equipment and of the economic social and cultural environment involved in its production distribution conservation and description Media and the Mind Matthew Daniel Eddy,2023 A beautifully illustrated argument that reveals notebooks as extraordinary paper machines that transformed knowledge on the page and in the mind We often think of reason as a fixed entity as a definitive body of facts that do not change over time But during the Enlightenment reason also was seen as a process as a set of skills enacted on a daily basis How why and where were these skills learned Concentrating on Scottish students living during the long eighteenth century this book argues that notebooks were paper machines and that notekeeping was a capability building exercise that enabled young notekeepers to mobilize everyday handwritten and printed forms of material and visual media in a way that empowered them to judge and enact the enlightened principles they encountered in the classroom Covering a rich selection of material ranging from simple scribbles to intricate watercolor diagrams the book reinterprets John Locke s comparison of the mind to a blank piece of paper the tabula rasa Although one of the most recognizable metaphors of the British Enlightenment scholars seldom consider why it was so successful for those who used it Each chapter uses one core notekeeping skill to reveal the fascinating world of material culture that enabled students in the arts sciences and humanities to transform the tabula rasa metaphor into a dynamic cognitive model Starting in the home moving to schools and ending with universities the book reconstructs the relationship between media and the mind from the bottom up It reveals that the cognitive skills required to make and use notebooks were not simply aids to reason rather they were part of reason itself Ingenuity in the Making Richard J. Oosterhoff,José Ramón Marcaida,Alexander Marr,2021-11-09 Ingenuity in the Making explores the myriad ways in which ingenuity shaped the experience and conceptualization of materials and their manipulation in early modern Europe Contributions range widely across the arts and sciences examining objects and texts professions and performances concepts and practices The book considers subjects such as spirited matter the conceits of nature and crafty devices investigating the ways in which ingenuity acted in and upon the material world through skill and technique Contributors ask how ingenuity informed the maker s knowledge tradition where the perilous borderline between the genius of invention and disingenuous fraud was drawn charting the ambitions of material ingenuity in a rapidly globalizing world Memory's Daughters Susan M. Stabile,2004 Drawing equally on material culture and literary history Stabile discusses how the group used their writings to explore and at times replicate the arrangement of their material possessions including desks writing paraphernalia mirrors miniatures beds and coffins As she reconstructs the poetics of memory that informed the women s lives and structured their manuscripts Stabile focuses on vernacular architecture penmanship souvenir collecting and mourning Manuscript Cultures of Colonial Mexico and Peru Thomas B. F. Cummins,Emily Engel,Barbara Anderson,Juan Ossio,2015-01-01 This volume showcases dynamic developments in the field of

manuscript research that go beyond traditional textual iconographic or codicological studies Using state of the art conservation technologies scholars investigate how four manuscripts the Galvin Mur a the Getty Mur a the Florentine Codex and the Relaci n de Michoac n were created and demonstrate why these objects must be studied in a comparative context The forensic study of manuscripts provides art historians anthropologists curators and conservators with effective methods for determining authorship identifying technical innovations and contextualizing illustrated histories This information in turn allows for more nuanced arguments that transcend the information that the written texts and painted images themselves provide The book encourages scholars to think broadly about the manuscripts of colonial Mexico and Peru in the sixteenth and seventeenth centuries and employ new techniques and methods of research *Western Illuminated Manuscripts* National Art Library (Great Britain), Rowan Watson, 2011 **Print Quarterly** ,1998 *Writing Relations* Deanna Shemek, Michael Wyatt, 2008 The Harvard Librarian ,1992 **The APHA Newsletter** ,1991 *Typography Papers* ,2005 **The Eighteenth Century** Kevin L.
