Practicing Social Science Devorah Kalekin-Fishman,2016-12-01 How is the process of globalization effecting changes in the structure of knowledge in sociology This path breaking volume looks at the human dimension of developments in the discipline by compiling a set of interviews that exemplify the life and work of a sociologist today Their ideas and conceptualizations show to what extent a paradigm shift has taken root answering questions such as whether sociology still remains a differentiated relatively autonomous social science The chosen interviewees are about equally divided according to gender and have been selected from among professional sociologists in different parts of the globe with an emphasis on areas that are under represented in English publications such as East Asia Latin America and Africa Analysis focuses on changes which are becoming clear from the on going confrontation between traditional sociology which emerged as a project of modernity and the sociology practiced by sociologists who are called upon to adapt the discipline to the upheavals of the twenty first century

Making a Difference Irwin Deutscher, Emphasis on measurement techniques can interfere with understanding how well particular social programs in their field work In Making a Difference The Practice of Sociology Irwin Deutscher links traditional sociological concerns with applied sociology in an effort to overcome this problem He contributes to the debate over the extent to which health educational and social pro grams initiated by the Roosevelt Kennedy and Johnson administrations have been successful in intimate hu man terms The work is divided into five parts Toward a Useful Sociology is a collec tion of essays concerning the causes of social problems and the uses of evalu ation research On Doing Applied Re search explores research tools and ste reotypes The Raised Eyebrow points out obstructions to useful program evaluation Vignettes deals with spe cific areas of social programs public housing aging family disaster relief small town petty crime the integration of public facilities delinquency nurs ing and the education of tribal people Deutscher believes that the introduc tion of a sociological perspective can provide a positive element to interdisci plinary pursuits This belief as well as his fresh perspectives on both the strengths and limitations inherent in applied sociology offer the field a revi talizing lift As such this highly infor mative thought provoking volume will be of interest to sociologists and policymakers in health education crime welfare housing

The Practice of Sociology Maitrayee Chaudhuri,2003 This book grew out of a need to examine the practice the teaching and research of sociology in India This need was in turn prompted by the experience of the contributors as students and teachers of the problems of understanding communicating the connections between sociology and the society in which one lives and between sociological theory and empirical studies
