The Red Thumb Mark R. Austin Freeman, 2017-04-12 **The Red Thumb Mark** R. Austin Freeman, 2016-08-02 Before Kathy Reichs's Temperance Brennan and Patricia Cornwell's Kay Scarpetta there was Dr Thorndyke the first ever fictional forensic scientist The only evidence against young Reuben Hornby in a jewel theft is his thumb print smeared in blood It is enough to convict him of the crime until physician Dr John Thorndyke dares to ask and answer the question Can a fingerprint be forged The first detective novel to engage in scientific technology The Red Thumb Mark has become a classic for its use of real science and its introduction to the genre's very first and greatest forensic scientist Dr Thorndyke Described by Otto Penzler as the greatest medico legal detective of all time the tall athletic and handsome Dr Thorndyke approaches crime solving firmly grounded in the disciplines and logic of medical science making inferences from data collected at the scene of the crime instead of basing the investigation on the suspects motivations First published in 1907 R Austin Freeman's tale set the stage for the forensic science detective novel we are so familiar with today and it remains one of the greatest and most memorable of the genre Skyhorse Publishing as well as our Arcade Yucca and Good Books imprints are proud to publish a broad range of books for readers interested in fiction novels novellas political and medical thrillers comedy satire historical fiction romance erotic and love stories mystery classic literature folklore and mythology literary classics including Shakespeare Dumas Wilde Cather and much more While not every title we publish becomes a New York Times bestseller or a national bestseller we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home [The Red Thumb Mark \[by\] R. Freeman, 2018-08-12 John Hornby is the proud owner of a dazzling diamond business and when his nephews go into business with him they are determined to be given their full share of responsibility A consignment of diamonds is entrusted to the nephews who place their precious hoard in a safe overnight But come the morning the diamonds are missing and incredibly the safe has been left untouched all except for two blood smeared thumb prints and the inevitable presence of a mysterious Mr X In one of Freeman's finest will Dr Thorndyke the erudite master of insight solve the enigma of the red thumb mark **The Red Thumb Mark** Beyond Words Press, R Austin Freeman, 2020-09 Originally written in 1907 The Red Thumb Mark opens the series by R Austin Freeman featuring Dr Thorndyke who is a sort of Sherlock Holmes type character A single fingerprint is found at the scene of a crime When the police are able to identify that fingerprint the case seems closed But Dr Thorndyke the detective barrister medical doctor who takes on defense of this suspect thinks he can disprove the prosecution's case based on that same fingerprint It does not take Dr Thorndyke to figure out who the criminal is It is up to Dr John Thorndyke and his new assistant Dr Jervis to prove the young man's innocence before he's found guilty and hanged The mystery in this wonderful detective tale is who the lovely heroine is in love with The answer may surprise you [The Red Thumb Mark](#) R. An 1677 Fabricatam An 1698 Richardo Powell Armiger Thesaurar The words set in four panels which formed a frieze beneath the pediment of a fine brick portico summarised the history of one of the tall houses at the upper end of King s Bench Walk and as I somewhat absently read over the inscription my attention was divided between admiration of the exquisitely finished carved brickwork and the quiet dignity of the building and an effort to reconstitute the dead and gone Richard Powell and the stirring times in which he played his part I was about to turn away when the empty frame of the portico became occupied by a figure and one so appropriate in its wig and obsolete habiliments to the old world surroundings that it seemed to complete the picture and I lingered idly to look at it The barrister had halted in the doorway to turn over a sheaf of papers that he held in his hand and as he replaced the red tape which bound them together he looked up and our eyes met For a moment we regarded one another with the incurious gaze that casual strangers bestow on one another then there was a flash of mutual recognition the impassive and rather severe face of the lawyer softened into a genial smile and the figure detaching itself from its frame came down the steps with a hand extended in cordial greeting My dear Jervis he exclaimed as we clasped hands warmly this is a great and delightful surprise How often have I thought of my old comrade and wondered if I should ever see him again and lo here he is thrown up on the sounding beach of the Inner Temple like the proverbial bread cast upon the waters Your surprise Thorndyke is nothing to mine I replied for your bread has at least returned as bread whereas I am in the position of a man who having cast his bread upon the waters sees it return in the form of a buttered muffin or a Bath bun I left a respectable medical practitioner and I find him transformed into a bewigged and begowned limb of the law

The Red Thumb Mark R. Austin Freeman,2015-10-28 In writing the following story the author has had in view no purpose other than that of affording entertainment to such readers as are interested in problems of crime and their solutions and the story itself differs in no respect from others of its class excepting in that an effort has been made to keep within the probabilities of ordinary life both in the characters and in the incidents Nevertheless it may happen that the book may serve a useful purpose in drawing attention to certain popular misapprehensions on the subject of finger prints and their evidential value misapprehensions the extent of which may be judged when we learn from the newspapers that several Continental commercial houses have actually substituted finger prints for signed initials The facts and figures contained in Mr Singleton s evidence including the very liberal estimate of the population of the globe are of course taken from Mr Galton s great and important work on finger prints to which the reader who is interested in the subject is referred for much curious and valuable information In conclusion the author desires to express his thanks to his friend Mr Bernard E Bishop for the assistance rendered to him in certain photographic experiments and to those officers of the Central Criminal Court who very kindly furnished him with details of the procedure in criminal trials
