

The Red-green Coalition in Germany: Politics, Personalities and Power (Issues in German Politics)

Lees, Charles

Note: This is not the actual book cover

Red Green Coalition In Germany Politics Personalities And Power

Marcin Zaborowski

Red Green Coalition In Germany Politics Personalities And Power:

The Red-green Coalition in Germany Charles Lees,2000 This text provides a perspective on the politics and personalities of post war Germany s most unstable and apparently unpredictable national government to date The author uses previously unpublished research into Red Green coalitions in the German Lander in order to understand more clearly the nature of the pressures acting upon Germany s first national coalition between the Social Democrats and the Greens Charles Lees argues that the Red Green coalition is best understood as part of an ongoing process of political co operation between two distinct and often antagonistic parties Grounded and introduced in the context of recent work on coalition theory and public policy analysis the book examines the trail of political trial and error that has led the two parties from the mutual suspicion of the early 1980s to being partners in national government today Drawing on the political history of Red Green coalitions in Germany the author explains why Chancellor Schroeder s 1998 election triumph provoked such excitement and why his government s subsequent political travails could have been predicted

The Politics of Coalition in Korea Youngmi Kim,2011-04-05 This book examines how inter and intra party coalition building affects governability in South Korea Focusing on the Kim Dae jung administration 1998 2003 as a case study in the failure of a government to turn electoral success into stable governability or ability to implement reform policies the book s research draws on two bodies of literature which though focusing on the same dependent variable cabinet or government stability have rarely been used in tandem coalition research on parliamentary systems and studies of divided government in presidential systems Youngmi Kim argues that a weak institutionalization of the ruling party and the party system accounts for political instability and inefficient governability in Korea and in doing so her study makes a number of key contributions to the field Theoretically it proposes a framework which integrates a rationalist approach with one that acknowledges the role of political culture It further enhances the understanding of factors affecting governability after coalition building across regime types and aims to build on recent demands for broader cross regime analysis of minority divided government and of the determinants of governability This has important comparative implications as coalition building within semi presidential systems has occurred in other post authoritarian contexts The book finally provides a new dataset which fills a gap in a field where Western cases constitute the main focus of research The Politics of Coalition in Korea will be of interest to students and scholars of Korean studies Korean politics Asian studies and Asian politics Youngmi Kim is Assistant Professor at the Departments of Public Policy and International Relations and European Studies at Central European University Budapest Hungary

Policy Convergence in the UK and Germany Simon Green,2007-12-24 Policy convergence and policy learning have emerged as central themes in the study of public policy in recent years Previously published as a special issue of German Politics this landmark volume complements the rich literature on theoretical aspects as well as individual case studies by undertaking a systematic comparison of policy convergence between two specific countries the UK and Germany

German Electoral

Politics Geoffrey K. Roberts, 2013-07-19 The study of German electoral politics has been neglected of late despite being one of the most pervasive elements of the German political process Geoffrey Roberts exciting new book argues that concentration on electoral politics facilitates deeper understanding and appreciation of German political system It provides explanations and analysis of the federal electoral system its evolution and the challenges which have been made to its format discusses the role of electoral politics in relation to political parties It goes on to evaluate the effectiveness of the German electoral system in relation to its functions and challenges the premise that electoral politics makes a difference in Germany Ultimately the book aims to reconcile the apparently limited role which elections have in determining the composition of governments with the notion that there is a permanent election campaign in existence in German politics The Politics of Exclusion Simon Green, 2004 Publisher Description

Germany on the Road to Normalcy W. Reutter, 2004-04-02 Many thought that the German question that had shaped European history so catastrophically in the last century had been solved for good in 1990 And the last elections seemed to confirm that Germany was on the road to normalcy However at the beginning of the new century many see Germany as a problem case in Europe This raises the question about the future of Germany and the performance of the incumbent government The book addresses these issues by examining the policies and politics of the Red Green government and by putting recent changes and developments in this country in a long term perspective

Historical Dictionary of the Green Movement Miranda Schreurs, Elim Papadakis, 2020-02-26 There are very serious environmental problems facing the planet Biodiversity loss has reached unprecedented levels Climate change is progressing so rapidly that within this century we are likely to see substantial sea level rise There has been dramatic loss of tropical rainforests Plastic pollution is killing wildlife and polluting our oceans Various movements old and new are addressing these green issues Civil society activism has taken on new strategies with the emergence of new technologies and global networks of green activists have formed A new generation of green activists are emerging and boldly criticizing the status quo At the same time in some parts of the world green movements that looked like they were beginning to gain a political foothold or were even doing quite well are in retreat The reasons are complex Some suffer from lack of funding and hostile political and legal environments Others are being attacked by populist politicians who see green activism as a threat The second edition of Historical Dictionary of the Green Movement contains a chronology an introduction and an extensive bibliography The dictionary section has over 300 cross referenced on green movements green politics green trends and major environmental agreements and events This book is an excellent resource for students researchers and anyone wanting to know more about the green movement

Reader's Guide to the Social Sciences Jonathan Michie, 2014-02-03 This 2 volume work includes approximately 1 200 entries in A Z order critically reviewing the literature on specific topics from abortion to world systems theory In addition nine major entries cover each of the major disciplines political economy management and business human geography politics sociology law psychology organizational behavior and the history and development of the social sciences

in a broader sense The A to Z of the Green Movement Miranda Schreurs,Elim Papadakis,2009-09-21 Human beings have been concerned about nature and their place in it for millennia Disquiet about the consequences of human action on the natural environment date back to the ancient Greeks and Romans The efforts of the green movement can be traced back to the 19th century In this period individuals groups and organizations began campaigning for the conservation and preservation of natural areas and the protection of wildlife species Efforts to combat pollution also began It was not until the 1960s however that the green movement in its more modern incarnation emerged The green movements that arose at this time maintained the concerns with conservation preservation and industrial pollution held by earlier generations but added to their agenda new issues including justice equality participatory democracy and sustainability The A to Z of the Green Movement provides a detailed and comprehensive overview of green parties and movements green issues and green concepts This is done through a chronology an introductory essay a bibliography and hundreds of cross referenced dictionary entries on countries in the world where green parties or proto parties have formed green movement organizations major international environmental conferences and green concepts This useful reference will be greatly valued by students academics journalists and policymakers alike *Germany, Poland, and Europe* Marcin Zaborowski,2004 Zaborowski s study is a vivid and authoritative account of Polish German relations convincingly analysed using Europeanisation as a conceptual prism The book evaluates the relationship from both a historical and contemporary perspective assessing its broader European significance Zaborowski puts particular emphasis upon EU enlargement which he sees as a centrepiece of the post 1989 rapprochement between the two states
