Redemptive Work Railway And Nation In Ecuador 1895 1930:

The Redemptive Work A. Kim Clark, 1998 At the turn of the century diverse political economic and social conditions divided Ecuador During the construction of the Guayaquil Quito Railway the people of Ecuador faced the challenge of working together The Redemptive Work Railway and Nation in Ecuador 1895 1930 examines local regional and national perspectives on the building of the railway and analyzes the contradictory processes of national incorporation The elite landowners of the highlands were concerned with the transportation of their agricultural products to the coast while the agro export elite of the coast were more interested in forming a labor market Because the underlying objectives were contradictory only a partial consensus was reached on the nature of national development The Redemptive Work is the first text to deal with these complex issues in Ecuador s history It is useful for undergraduate and graduate courses in Latin American history social history anthropology political science and nation and state formation Bandits and Liberals, Rebels and Saints Alan Knight, 2022-05 In *Bandits and Liberals Rebels and Saints* Alan Knight offers a distinct perspective on several overarching themes in Latin American history spanning approximately two centuries from 1800 to 2000 Knight s approach is ambitious and comparative sometimes ranging beyond Latin America and combining relevant social theory with robust empirical detail He tries to offer answers to big questions while challenging alternative answers and approaches including several recently fashionable ones While the individual essays and the book as a whole are roughly chronological the approach is essentially thematic with chapters devoted to major contentious themes in Latin American history across two centuries the sociopolitical roots and impact of banditry the character and evolution of liberalism religious conflict the divergent historical trajectories of Peru and Mexico the nature of informal empire and internal colonialism and the region s revolutionary history viewed through the twin prisms of British perceptions and comparative global history **Strangers on Familiar Soil** Edward D. Melillo, 2015-01-01 A wide ranging exploration of the diverse historical connections between Chile and California This groundbreaking history explores the many unrecognized enduring linkages between the state of California and the country of Chile The book begins in 1786 when a French expedition brought the potato from Chile to California and it concludes with Chilean president Michelle Bachelet s diplomatic visit to the Golden State in 2008 During the intervening centuries new crops foods fertilizers mining technologies laborers and ideas from Chile radically altered California s development In turn Californian systems of servitude exotic species educational programs and capitalist development strategies dramatically shaped Chilean history Edward D. Melillo develops a new set of historical perspectives tracing eastward moving trends in U S history uncovering South American influences on North America s development and reframing the Western Hemisphere from a Pacific vantage point His innovative approach yields transnational insights and recovers long forgotten connections between the peoples and ecosystems of Chile and California Culture, Economy, Power Winnie Lem, Belinda Leach, 2012-02-01 Grounded in a conviction that anthropological

knowledge implies critique and that engaging in anthropology is also ultimately an act of praxis various contributors explore the ways in which the precepts of Marxism continue to illuminate and enhance our understanding of culture economy and politics They focus on the question of epistemology to examine the process of anthropological intellectual production in different national settings and analyze the ways in which hierarchies of power and forms of state domination figure in the formation of subjectivities in different ethnographic contexts The authors also reflect upon how class gender ethnicity racialized forms of ethnicity as well as regional and national identities are configured through the relationships involved in making a living under late capitalism

The International Political Economy of Transformation in Argentina, Brazil and Chile Since 1960 E. The Civilizing Machine Michael Matthews, 2014-01-01 In late nineteenth century Mexico the Mexican populace was fascinated with the country s booming railroad network Newspapers and periodicals were filled with art poetry literature and social commentaries exploring the symbolic power of the railroad As a symbol of economic political and industrial modernization the locomotive served to demarcate a nation s status in the world However the dangers of locomotive travel complicated by the fact that Mexico s railroads were foreign owned and operated meant that the railroad could also symbolize disorder death and foreign domination In *The Civilizing Machine* Michael Matthews explores the ideological and cultural milieu that shaped the Mexican people s understanding of technology Intrinsically tied to the Porfiriato the thirty five year dictatorship of Gen Porfirio Diaz the booming railroad network represented material progress in a country seeking its place in the modern world

Matthews discloses how the railroad's development represented the crowning achievement of the regime and the material incarnation of its mantra order and progress. The Porfirian administration evoked the railroad in legitimizing and justifying its own reign while political opponents employed the same rhetorical themes embodied by the railroads to challenge the manner in which that regime achieved economic development and modernization. As Matthews illustrates, the multiple symbols of the locomotive reflected deepening social divisions and foreshadowed the conflicts that eventually brought about the Mexican Revolution.

Highland Indians and the State in Modern Ecuador A. Kim Clark, Marc Becker, 2007-08-26 *Highland Indians and the State in Modern Ecuador* chronicles the changing forms of indigenous engagement with the Ecuadorian state since the early nineteenth century that by the beginning of the twenty-first century had facilitated the growth of the strongest unified indigenous movement in Latin America. Built around nine case studies from nineteenth and twentieth-century Ecuador, *Highland Indians and the State in Modern Ecuador* presents state formation as an uneven process characterized by tensions and contradictions in which Indians and other subalterns actively participated. It examines how indigenous peoples have attempted, sometimes successfully, to claim control over state formation in order to improve their relative position in society. The book concludes with four comparative essays that place indigenous organizational strategies in highland Ecuador within a larger Latin American historical context. *Highland Indians and the State in Modern Ecuador* offers an interdisciplinary approach to the study of state formation that will be of interest to a broad range of scholars who study how subordinate groups participate in and contest state formation.

Vagrants and Citizens Richard A. Warren, 2007-01-30 This acclaimed book explores popular politics during Mexico's tumultuous post-independence decades. Focusing on Mexico City during the chaotic early years of the nineteenth century, Richard A. Warren offers a compelling narrative of the defining period from King Ferdinand VII's abdication of the Spanish crown in 1808 to the end of Mexico's first federal republic in 1836. Clearly written and meticulously researched, this book is the first to demonstrate that the relationship between elites and the urban masses was central to Mexico's political evolution during the fight for independence and after. Mexico City, capital of both the old viceroyalty and the new nation, often witnessed the first wave of public opinion to respond to competing political proposals in both traditional and new forms that ranged from riots to electoral campaigns. Warren explains the direct effects of these actions on political outcomes as well as their influence on elite perceptions of the new nation's problems and potential solutions. *Vagrants and Citizens* explores the impact of urban mass mobilization on crucial issues of the era such as the evolution of electoral practices, the conflict between federalists and centralists, and social control programs. Shedding new light on a poorly understood era, Warren demonstrates the importance of the urban masses both as actors in their own right and as objects of elite discourse and programs. His compelling narrative offers an ideal supplement for courses on Mexican and Latin American history.

Addicted to Failure Brian Loveman, 2006 For supplementary documentation and useful websites, click [here](#). This perceptive book critically explores why the United

States continues to pursue failed policies in Latin America What elements of the U S and Latin American political systems have allowed the Cold War the war on drugs and the war on terror to be conflated Why do U S policies ostensibly designed to promote the rule of law human rights and democracy instead contribute to widespread corruption erosion of government authority human rights violations and increasing destabilization Why have the war on drugs and the war on terror neither reduced narcotics trafficking nor increased citizen security in Latin America Why do Latin American governments the European Union and U S policymakers often work at cross purposes when they all claim to be committed to democratization and development in the region Leading scholars answer these questions by detailing the nature of U S economic and security strategies in Latin America and the Andean region since 1990 They analyze the impacts and responses to these strategies by policymakers political leaders and social movements throughout the region explaining how programs often generate or exacerbate the very problems they were intended to solve Reviewing official policy and its defenders and critics alike this indispensable book focuses on the reasons for the failure of U S policies and their disastrous significance for Latin America and the United States alike Contributions by Adri n Bonilla Pilar Gait n Monica Herz Kenneth Lehman Brian Loveman Enrique Obando Orlando J P rez Eduardo Pizarro Philipp Sch nrock Mart nez and Juan Gabriel Tokatlian
