Medieval Woman's Song Anne L. Klinck,Ann Marie Rasmussen,2015-08-06 The number of surviving medieval secular poems attributed to named female authors is small some of the best known being those of the trobairitz the female troubadours of southern France However there is a large body of poetry that constructs a particular textual femininity through the use of the female voice Some of these poems are by men and a few by women including the trobairitz many are anonymous and often the gender of the poet is unresolvable A woman s song in this sense can be defined as a female voice poem on the subject of love typically characterized by simple language sexual candor and apparent artlessness The chapters in Medieval Woman s Song bring together scholars in a range of disciplines to examine how both men and women contributed to this art form Without eschewing consideration of authorship the collection deliberately overturns the long standing scholarly practice of treating as separate and distinct entities female voice lyrics composed by men and those composed by women What is at stake here is less the voice of women themselves than its cultural and generic construction

The Oxford Handbook of Music Censorship Patricia Ann Hall,2018 Addresses censorship as a worldwide issue from its earliest recorded form to the modern day Includes unique case studies of music censorship unfamiliar to Western audiences Documents censorship through a necessarily intersectional lens Oxford University Press

Teaching Music History Mary Natvig,2017-07-05 Unlike their colleagues in music theory and music education teachers of music history have tended not to commit their pedagogical ideas to print This collection of essays seeks to help redress the balance providing advice and guidance to those who teach a college level music history or music appreciation course be they a graduate student setting out on their teaching career or a seasoned professor having to teach outside his or her speciality Divided into four sections the book covers the basic music history survey usually taken by music majors music appreciation and introductory courses aimed at non majors special topic courses such as women and music music for film and American music and more general issues such as writing using anthologies and approaches to teaching in various situations In addition to these specific areas broader themes emerge across the essays These include how to integrate social history and cultural context into music history teaching the shift away from the classical canon and how to organize a course taking into consideration time constraints and the need to appeal to students from a diverse range of backgrounds With contributions from both teachers approaching retirement and those at the start of their careers this volume provides a spectrum of experience which will prove valuable to all teachers of music history
