California Desert Protection Act United States. Congress. House. Committee on Interior and Insular Affairs. Subcommittee on National Parks and Public Lands, 1991

Southwestern Desert Resources William L. Halvorson, Cecil R. Schwalbe, Charles van Riper, 2023-01-10 The southwestern deserts stretch from southeastern California to west Texas and then south to central Mexico The landscape of this region is known as basin and range topography featuring to sky islands of forest rising from the desert lowlands which creates a uniquely diverse ecology The region is further complicated by an international border where governments have caused difficulties for many animal populations This book puts a spotlight on individual research projects which are specific examples of work being done in the area and when they are all brought together to shed a general light of understanding the biological and cultural resources of this vast region so that those same resources can be managed as effectively and efficiently as possible The intent is to show that collaborative efforts among federal state agency university and private sector researchers working with land managers provides better science and better management than when scientists and land

managers work independently The Desert Encyclopedia Robert Hauptman,2024-08-06 This reference work is the first English language A Z compendium on all topics related to deserts including geography geology meteorology climatology hydrology botany zoology anthropology art music film culture sports as well as the specific and diversely different deserts that one finds in all parts of the world Definitions explanations and clarifications will be contained in more than 2 300 entries that vary in length from a brief sentence to detailed overviews of more complex subjects The Desert Encyclopedia will be invaluable as a source of data and information but it is also enjoyable to read straight through It is also replete with line drawings black and white illustrations maps and images from outstanding photographers *Energetics of Desert Invertebrates* Harold Heatwole,2012-12-06 Desert invertebrates live in an environment where resources alternate unpredictably between brief periods of plenty and prolonged scarcity This book describes the adaptive strategies of desert invertebrates in acquiring energy and sustaining life under such vicissitudes Some cooperate in foraging others compete for resources Some are nomadic and migrate to more favorable sites as conditions change Others conserve energy by going into a deep dormancy until better conditions return Still others store food during plenty and retreat underground during less favorable times The adaptive modes of husbanding scarce energy resources are diverse and lead to an appreciation of the intricate interactions of animals living near their environmental limits **Table Mountain Wind Generating Facility**,2002 *Desert National Wildlife Refuge Complex, Ash Meadows, Desert, Moapa Valley, and Pahrnagat National Wildlife Refuges Comprehensive Conservation Plan* ,2009 U.S. Geological Survey Professional Paper ,1984 **Ecophysiology of Photosynthesis** Ernst-Detlef Schulze,Martyn M. Caldwell,2012-12-06 In a world of increasing atmospheric CO₂ there is intensified interest in the ecophysiology of photosynthesis and increasing attention is being given to carbon exchange and storage in natural ecosystems We need to know how much photosynthesis of terrestrial and aquatic vegetation will change as global CO₂ increases Are there major ecosystems such as the boreal forests which may become important sinks of CO₂ and slow down the effects of anthropogenic CO₂ emissions on climate Will the composition of the vegetation change as a result of CO₂ increase This volume reviews the progress which has been made in understanding photosynthesis in the past few decades at several levels of integration from the molecular level to canopy ecosystem and global scales *Desert Passages* Patricia Nelson Limerick,1985 Traces the development of American attitudes toward the desert using case studies from many writers over the years *Dune Country* Janice Emily Bowers,1998-05 Janice Emily Bowers takes readers from New Mexico s White Sands to Utah s Coral Pink Dunes to the Death Valley dunes of California and beyond Beautifully written and illustrated Dune Country is a perfect introduction to the fragile ecosystems of sand dunes
