Contemporary Practice and Method in the Philosophy of Religion David Cheetham, Rolfe King, 2008-03-27 Among contemporary Anglo American philosophers and students there is a growing awareness of the need to engage more both with philosophical perspectives of other faith traditions and also the distinctive continental tradition of philosophy This important new collection aims to engage philosophers from a variety of different backgrounds and traditions religious and non religious to stimulate dialogue on philosophical method The volume aims to ask an emerging generation of philosophers who specialize in philosophy of religion to write about their personal understanding of the practice method and future focus of the subject with the ultimate goal of illustrating why this expanding subject area is important

Religious Consciousness and Experience Thomas N.

Munson, 2012-12-06 It is one of the ironies of our times that as the practise of religion wanes a theoretical interest in it on the part of many anthropologists psychologists sociologists and philosophers waxes Among these only philosophers bring to their task a long history of theological and religious relations Hence their renewed interest has been hailed as a break down of isolationism heralding perhaps a new era of interdisciplinary peace To celebrate this new ecumenism a Chicago seminary consistently with its purpose sponsored a colloquium to explore the future of philosophical theology If some of its participating professional philosophers initially felt a twinge of embarrassment over their presence at an ostensibly theological meeting they soon were at ease No one was called upon to define the topic or even to suggest its relationship to a philosophy of religion Conveniently everyone could roll up his sleeves and get to work on a job he personally felt needed doing Can we wonder that the lay observer appeared somewhat confused Was the purpose to analyze God talk or to find a place for God in a metaphysical scheme Or if not these something else It soon became evident that the participants in the

colloquium ranged from the free swinger to the severely inhibited depending upon the role each assigned to dogma and creed **Patterns in Meaning** Wilhelm Dupré,1994 Peeters 1994 *The Modern Theologians* David F. Ford,2013-09-23 This popular text has been updated to ensure that it continues to provide a current and comprehensive overview of the main Christian theologies of the twentieth and twenty first centuries Each chapter is written by a leading theologian and gives a clear picture of a particular movement topic or individual New and updated treatments of topics covered in earlier editions with over half the chapters new to this edition or revised by new authors New section singling out six classic theologians of the twentieth century Expanded treatment of the natural sciences gender Roman Catholic theology since Vatican II and African Asian and Evangelical theologies Completely new chapters on spirituality pastoral theology philosophical theology postcolonial biblical interpretation Pentecostal theology Islam and Christian theology Buddhism and Christian theology and theology and film As in previous editions the text opens with a full introduction to modern theology Epilogue discussing the present situation and prospects of Christian theology in the twenty first century **The Concept of Faith** William Lad Sessions,1994 Faith lies at the heart of human life and not just in religious contexts But just what is faith In this book William Lad Sessions ventures a new approach to this age old problem Viewing it in global terms he provides an effective and insightful set of analytical tools for deepening our understanding of the ideas of belief
