Reflejos An Intermediate Reader For Communication:

Reflejos, an intermediate reader for communication ,1983 *Reflejos* Patricia Boylan,1979-01-01 *Reflejos, an Intermediate Reader for Communication* John Lett,1983 **Creative Activities for the Second Language Classroom** Diane W. Birckbichler,1982 Factors that are closely related to creative behavior are also intimately connected with language learning and the ability to communicate in languages other than one's own. These factors are fluency flexibility elaboration originality sensitivity to problems and the ability to synthesize and analyze to reorganize an idea to handle complexity and to evaluate. Creative thinking or divergent production is contrasted with convergent thinking an orientation that concentrates on finding a definite or correct approach to problems. Divergent production is explored with regard to its educational implications foreign language outcomes communicative ability classroom climate and structuring teaching methods in such a way as to foster creative behaviors. This discussion includes an informal teacher checklist on classroom climate and an interpretation of the checklist. Over 50 activities are described. These activities are grouped according to the creative thinking categories of fluency flexibility elaboration and originality. For each activity a description is provided as well as examples and interpretation of the activity. AMH **Children's Second Language Learning** Barry McLaughlin,1982 This monograph discusses the state of the art in child second language acquisition research. It is of particular interest to teachers administrators and others concerned with educating children whose first language is not English. The first chapter deals with preschool second language acquisition. It examines processes of acquiring the sound system the meaning system the rules for language use the developmental stages in acquisition and the differences between first and second language learning in preschool children. Chapter 2 treats second language acquisition in the classroom. It examines the nature of the school experience and how the language of the school differs from language used outside the classroom. Bilingual education programs in Canada and in the United States are compared and various types of U.S. bilingual programs are discussed in order to specify the various instructional and interactional features that differentiate bilingual classrooms. The third chapter describes ways in which researchers have investigated second language acquisition. The major research areas are studies of the second language learning process the question of language assessment and research on the effectiveness of bilingual education. Each chapter contains suggestions for further reading. Author AMH *El-Hi textbooks in print* R. R.
