Reforming Asian Socialism The Growth Of Market Institutions:

Reforming Asian Socialism John McMillan, Barry Naughton, 1996 Examines the dramatic transformation of Asian communist countries China in particular to vigorous market economies **REFORMING ASIAN SOCIALISM: GROWTH OF MARKET INSTITUTIONS.** J; NAUGHTON MCMILLAN (B, (ED)), 1996 China's Rural Market Development in the Reform Era Him Chung, 2017-11-30 The rural market in China is not only the venue where 60 per cent of the country's 1.3 billion inhabitants buy their daily necessities and sell agricultural products but also a key area of conflict between government control and liberalization policies Previous research on the topic has adopted a purely economic perspective focusing on macro issues such as price control and grain procurement This book focuses instead on peasants the major participants in rural marketing activities Illustrated by two comparative case studies with a diverse level of development from the Pearl River Delta one of the most prosperous regions in coastal China this book investigates the market hierarchy its change of functions and the interactions between peasants and market outlets In doing so it shows how China's rural market district has changed since the Reform and how these changes affect the marketing activities of peasants **China's Transition to a Socialist Market Economy** Osman Suliman, 1998-09-17 Exploring China's transition to a socialist market economy this book finds that the recent Chinese experience is unique and unprecedented It seems plausible that the distinctive characteristics of China's market reform have been a result of correcting the big bang approach of Eastern European countries and unique conditions that China possesses For instance China is endowed with a relatively high level of skilled labor and a large workforce Moreover China has been experimenting with reform and profit sharing for a number of years especially in the coastal provinces This book juxtaposes native Chinese experiences with those of academics in the U S It integrates the ideas of those living the experience in China with the perceptions of outside observers who might be able to offer constructive criticism The book covers various topics such as macroeconomic policy reform within economic sectors and strategies for sustainable development while making sure that the reader will not find it difficult to follow the process of reform and the main impediments that China may face **Market Institutions in Sub-Saharan Africa** Marcel Fafchamps, 2003-12-05 An analysis of recent data on the economic behavior of market institutions in sub-Saharan Africa with implications for future research and current policy In *Market Institutions in Sub-Saharan Africa* Marcel Fafchamps synthesizes the results of recent surveys of indigenous market institutions in twelve countries including Benin Ghana Kenya Madagascar Malawi and Zimbabwe and presents findings about economics exchange in Africa that have implications both for future research and current policy Employing empirical data as well as theoretical models that clarify the data Fafchamps takes as his unifying principle the difficulties of contract enforcement Arguing that in an unpredictable world contracts are not always likely to be respected he shows that contract agreements in sub-Saharan Africa are affected by the absence of large hierarchies both corporate and governmental and as a result must depend to a greater degree than in more developed

economies on social networks and personal trust Fafchamps considers policy recommendations as they apply to countries in three different stages of development countries with undeveloped market institutions like Ghana countries at an intermediate stage like Kenya and countries with developed market institutions like Zimbabwe Market Institutions in Sub Saharan Africa caps ten years of personal research by the author Fafchamps in collaboration with such institutions as the Africa Division of the World Bank and the International Food Policy Research Institute participated in the surveys of manufacturing firms and agricultural traders that provide the empirical basis for the book The result is a work that makes a significant contribution to research on the continuing economic stagnation of many countries in sub Saharan Africa and is also largely accessible to researchers in other fields and policy professionals
