VOLUME I

Reforming Health Care Systems

Susan Giaimo

Reforming Health Care Systems:

Reforming Healthcare Systems Theodore R. Marmor, Claus Wendt, 2011 Healthcare is one of modern society's most crucial arenas, costly, important, and controversial. This comprehensive two-volume collection brings together more than fifty scholarly articles on both healthcare systems in general and health reform in particular. The editors have carefully selected papers by leading academics which will enhance our understanding of the central feature of social and political life. The articles are distinguished by their clear prose and wide disciplinary range. The volumes are an essential reference resource for students and practitioners interested in this topical field. *The Challenge to Change* Rebecca Kolins Givan, 2016-08-19 There is constant pressure on hospitals to improve health care delivery and increase cost effectiveness. New initiatives are the order of the day in the dramatically different health care systems of the United States and Great Britain. Often, as we know all too well, these efforts are not successful. In *The Challenge to Change*, Rebecca Kolins Givan analyzes the successes and failures of efforts to improve hospitals and explains what factors make it likely that the implementation of reforms will be rewarded by positive transformation in a particular institution's day-to-day operation. Givan's in-depth qualitative case studies of both top-down initiatives and changes first suggested by staff on the front lines of care point clearly to the importance of all hospital workers in effecting change and even influencing national policy. Givan illuminates the critical role of workers, managers, and unions in enabling or constraining changes in policies and procedures and ensuring their implementation. Givan spotlights an Anglo-American model of hospital care and work organization even while these countries retain their differences in access and payment. Entrenched professional roles, hierarchical workplace organization, and the sometimes detached view of policymakers all shape the prospects for change in hospitals. Givan provides important examples of how the dedication and imagination of the people who work in hospitals can make all the difference when it comes to providing quality health care even in a challenging economic environment. Reforming Healthcare Lindsay Lee Pratt, Lindsay Pratt, Lindsay Lee Pratt M. D., 2003-12 Wake up America! Have you given any thought to who will be providing your healthcare services in the next decade? Any healthcare delivery system, whether it is a National Health Service, an HMO, or a private delivery system, can offer healthcare services, but only a physician can provide those services. Will replacing the private healthcare delivery system with a National Health Service or with an HMO delivery system attract the best from among our youth into healthcare to become the providers of the public's healthcare services? Over the past three decades, neither Medicare nor the HMO industry have been provider-friendly. This book discusses the importance of a private healthcare delivery system to the future quality and availability of the public's healthcare services. Furthermore, it discusses the existing private delivery system's problems and how easily those problems can be corrected by six changes to regulate a private delivery system. Three addenda are discussed: 1. Healthcare price controls, 2. Healthcare is not a business, 3. The HMO: Patients Beware. *Reforming Health Care in the United States, Germany, and South Africa* Susan Giaimo, 2016-04-29 As

countries confront new health care challenges in the 21st century their health care systems reflect the problems and political settlements of an earlier age Meeting these new challenges requires reform of existing health care system arrangements while reconciling the goals of equitable access to quality care at an affordable price This book compares health care reforms in industrialized nations and the Global South to uncover the similarities and differences in their problems and solutions It examines the struggle over the Affordable Care Act and its alternatives in the United States major health care reforms in Germany in the new century and South Africa s efforts to combat AIDS and construct a comprehensive health care system for all These particular reforms reflect the underlying configuration of politics in each country *Reforming Health Care* [eljko Bogeti?,1993 Reforming Healthcare Thomas J. Scurlock III,2020-09-24 Reforming Healthcare How to Fix the System without the Destruction of the American Way is just that an in depth examination of health care in the United States and around the world It proposes an entirely new system of health care to be implemented in the United States **Consumer Survey Information in a Reforming Health Care System**,1995 Reforming Health Care United States. Congress. Senate. Committee on Appropriations. Subcommittee on Departments of Labor, Health and Human Services, Education, and Related Agencies,1996 **Reforming America's Health Care System** Scott W. Atlas,2013-09-01 Health policy experts from the United States Canada and Western Europe discuss both what to expect from the recent health reform legislation and alternatives that should still be considered The contributors argue that Americans already have a superior health care system and that if Congress enacts reforms that remove artificial barriers and constructively open markets to competition private sector creativity will generate innovative low cost insurance products for tens of millions of consumers Reforming Healthcare Ian Greener,Barbara E. Harrington,David J. Hunter,Russell Mannion,Martin Powell,2015-07-01 NHS reform continues to be a topical yet contentious issue in the UK Reforming healthcare What s the evidence is the first major critical overview of the research published on healthcare reform in England from 1990 onwards by a team of leading UK health policy academics It explores work considering the Conservative internal market of the 1990s and New Labour s healthcare reorganizations including its attempts at performance management and the reintroduction of market based reform from 2004 to 2010 It then considers the implications of this research for current debates about healthcare reorganization in England and internationally As the most up to date summary of what research says works in English healthcare reform this essential review is aimed at anyone interested in the wide ranging debates about health reorganization but especially students and academics interested in social policy public management and health policy
