Russian And The Slavonic Languages:

Russian and the Slavonic Languages William James Entwistle, 1959 **Russian and the Slavonic Languages** William James Entwistle, 1944 **Russian and the Slavonic languages** William J. Entwistle, 1974 **The Russian Language** Григорий Осипович Винокур, 1971-04-02 This work traces the Russian language from its origins for the Common Slavonic to the twentieth century **The Slavonic Languages** Professor Greville Corbett, Professor Bernard Comrie, 2003-09-01 In this scholarly volume each of the living Slavonic languages are analysed and described in depth together with the two extinct languages Old Church Slavonic and Polabian In addition the various alphabets of the Slavonic languages particularly Roman Cyrillic and Glagolitic are discussed and the relationships of the Slavonic languages to other Indo European languages and to one another are explored The last chapter provides an account of those Slavonic languages in exile for example Russian Ukrainian Polish Czech and Slovak in the USA Each language chapter is written by an expert in the field in a format designed for comparative study Information on each language includes an introductory description of social context and development where appropriate a discussion of phonology a detailed presentation of synchronic morphology noting major historical developments comprehensive treatment of syntactic properties a discussion of vocabulary an outline of main dialects and an extensive bibliography listing English and other sources **Russian and the Slavonic Languages by W. J. Entwistle,... and W. A. Morison,....** William James Entwistle, Walter Angus Morison, 1964 **Russian and the Slavonic Languages by W. J. Entwistle,... and W. A. Morison,....** William James Entwistle, Walter Angus Morison, 1964 **Politics and the Slavic Languages** Tomasz Kamusella, 2021-06-17 During the last two centuries ethnolinguistic nationalism has been the norm of nation building and state building in Central Europe The number of recognized Slavic languages in line with the normative political formula of language nation state gradually tallied with the number of the Slavic nation states especially after the breakups of Czechoslovakia the Soviet Union and Yugoslavia But in the current age of borderless cyberspace regional and minority Slavic languages are freely standardized and used even when state authorities disapprove As a result since the turn of the 19th century the number of Slavic languages has varied widely from a single Slavic language to as many as 40 Through the story of Slavic languages this timely book illustrates that decisions on what counts as a language are neither permanent nor stable arguing that the politics of language is the politics in Central Europe The monograph will prove to be an essential resource for scholars of linguistics and politics in Central Europe **Interslavic zonal constructed language** Vojtěch Merunka, 2018-02-01 Interslavic zonal constructed language is an auxiliary language which looks very similar to real spoken Slavic languages in Central and Eastern Europe and continues the tradition of the Old Church Slavonic language Interslavic shares grammar and common vocabulary with modern spoken Slavic languages in order to build a universal language tool that Slavic people can understand without any or with very minimal prior learning It is an easily learned language for those who want to use this language actively Interslavic enables passive e g receptive understanding of the real Slavic languages

Non Slavic people can use InterSlavic as the door to the big Slavic world Zonal constructed languages are constructed languages made to facilitate communication between speakers of a certain group of closely related languages They belong to the international auxiliary languages but unlike languages like Esperanto and Volap k they are not intended to serve for the whole world but merely for a limited linguistic or geographic area where they take advantage of the fact that the people of this zone understand these languages without having to learn them in a difficult way Zonal languages include the ancient Sanskrit Old Church Slavonic and Lingua Franca Zonal design can be partially found also in modern languages such as contemporary Hebrew Indonesian and Swahili
