Institutions, Ideas and Leadership in Russian Politics Julie Newton, William Tompson, 2010-06-23 A stimulating and thought provoking collection that challenges some of the emerging conventional wisdom about contemporary Russia It examines the role of leadership institutions and ideas and the interactions among them in shaping Russia's post Soviet transformation **No Shortcuts** Max Smeets, 2022-06-02 Over the past decade numerous states have declared cyberspace as a new domain of warfare sought to develop a military cyber strategy and establish a cyber command These developments have led to much policy talk and concern about the future of warfare as well as the digital vulnerability of society No Shortcuts provides a level headed view of where we are in the militarization of cyberspace In this book Max Smeets bridges the divide between technology and policy to assess the necessary building blocks for states to develop a military cyber capacity Smeets argues that for many states the barriers to entry into conflict in cyberspace are currently too high Accompanied by a wide range of empirical examples Smeets shows why governments' abilities to develop military cyber capabilities might change over time and explains the limits of capability transfer by states and private actors **Alexander**

Shortcuts Through Time TOM REIDY,

Shortcuts Through Time is my second anthology of Twilight Zone genre science fiction stories Operation Chronos is about a university physicist that befriends an elderly German janitor who had smuggled plans for a time machine out of Germany at the end of World War II The professor is able to construct a time machine from the plans resulting in an alternate universe where professor and janitor reverse roles A Change of Plans is based on the true life experience of the author's mother that had this event not happened the author would most likely never have been born A time warp enables a man to go back to the past and prevent his grandmother's killing at the hands of his grandfather But what will become of this man as a result of the change AUTHOR'S NOTE The names place and dates have been altered or changed Winners and Losers recounts what happens to a community college instructor who can visualize tomorrow's winning lottery numbers The outcome is embedded in the title of the story Back and Forth reveals the unintended consequences of an early 20th century time traveler's attempt to alter the course of the later 20th century by arranging the deaths of Lenin and Hitler before they come to power The Second Shooter tells about a man who is approached by a mysterious stranger with a plan to travel back in time to prevent the assassination of President Kennedy in 1963 The plan succeeds and the assassination is averted however it becomes necessary to go back in time once again this time to ensure that Kennedy is assassinated in order to re-align two parallel universes Hotel Retro is about a couple looking for a certain restaurant in Alton Illinois and getting caught up in a heavy rainstorm as they are entering Alton They take refuge at a hotel with a distinct mid 19th century motif When the hotel catches fire they rescue the man in the adjoining room who bears an uncanny resemblance to Abraham Lincoln When they leave the hotel they are in the 21st century Did they somehow slip through a time warp Maybe but then again maybe not based on a phone call to the hotel after they return home The Tiara is about a man who agrees to steal an ancient papal tiara originally from Persia and turn it over to Iranian agents In doing so he gets trapped in an endless temporal paradox loop The Promotion tells how George Armstrong Custer was mistakenly promoted to Brigadier General In the original reality he was promoted to the rank of Major but a college professor and his student have to create the mistake that will result in the creation of our universe which is parallel to the original universe Operation Northern Lights is the tale of an expedition sent to the North Pole by the United States Government to determine if there is a Hollow Earth civilization as detailed in Admiral Byrd's Secret Diary The exact motivation for this government expedition and what happens to the crew on this mission is not quite clear Are they what they seem to be or is it something else

Russia and Ukraine Maria Popova, Oxana

Shevel, 2023-11-08 In February 2022 Russian missiles rained on Ukrainian cities and tanks rolled towards Kyiv to end Ukrainian independent statehood President Zelensky declined a Western evacuation offer and Ukrainians rallied to defend their country What are the roots of this war which has upended the international legal order and brought back the spectre of nuclear escalation How did these supposedly brotherly peoples become each other's worst nightmare In Russia and Ukraine

Entangled Histories Diverging States Maria Popova and Oxana Shevel explain how since 1991 Russia and Ukraine diverged politically ending up on a collision course Russia slid back into authoritarianism and imperialism while Ukraine consolidated a competitive political system and pro European identity As Ukraine built a democratic nation state Russia refused to accept it and came to see it as an anti Russia project After political and economic pressure proved ineffective and even counterproductive Putin went to war to force Ukraine back into the fold of the Russian world Ukraine resisted determined to pursue European integration as a sovereign state These irreconcilable goals rather than geopolitical wrangling between Russia and the West over NATO expansion are the authors argue essential to understanding Russia s war on Ukraine

No Shortcuts to the Top Ed Viesturs, David Roberts, 2007-11-27 NATIONAL BESTSELLER This gripping and triumphant memoir from the author of *The Mountain* follows a living legend of extreme mountaineering as he makes his assault on history one 8 000 meter summit at a time From the drama of the peaks to the struggle of making a living as a professional climber to the basic how tos of life at 26 000 feet *No Shortcuts to the Top* is fascinating reading Aron Ralston author of *Between a Rock and a Hard Place* and subject of the film *127 Hours* For eighteen years Ed Viesturs pursued climbing s holy grail to stand atop the world s fourteen 8 000 meter peaks without the aid of bottled oxygen But *No Shortcuts to the Top* is as much about the man who would become the first American to achieve that goal as it is about his stunning quest As Viesturs recounts the stories of his most harrowing climbs he reveals a man torn between the flat safe world he and his loved ones share and the majestic and deadly places where only he can go A preternaturally cautious climber who once turned back 300 feet from the top of Everest but who would not shrink from a peak Annapurna known to claim the life of one climber for every two who reached its summit Viesturs lives by an unyielding motto Reaching the summit is optional Getting down is mandatory It is with this philosophy that he vividly describes fatal errors in judgment made by his fellow climbers as well as a few of his own close calls and gallant rescues And for the first time he details his own pivotal and heroic role in the 1996 Everest disaster made famous in Jon Krakauer s *Into Thin Air* In addition to the raw excitement of Viesturs s odyssey *No Shortcuts to the Top* is leavened with many funny moments revealing the camaraderie between climbers It is more than the first full account of one of the staggering accomplishments of our time it is a portrait of a brave and devoted family man and his beliefs that shaped this most perilous and magnificent pursuit
