Spiritual Formation as the Hero's Journey in John of Ruusbroec Robert Pelfrey, 2022-04-07 This book examines the theology of spiritual formation developed by fourteenth century Flemish mystic John of Ruusbroec arguing that his formational path clearly and consistently displays the characteristics of the archetypal narrative structure of the hero s journey To start with a hermeneutical dialogue between

scholars of the hero's journey and Ruusbroec is established employing the work of Hans Georg Gadamer. The author then examines the stages and tropes of the hero's journey according to Vladimir Propp, Joseph Campbell, Northrop Frye, Ren Girard, Dean Miller and others exploring the parallels in Ruusbroec's writing and theology of spiritual formation. The book follows Ruusbroec's story of answering the divine call, journeying inward and experiencing the trials of spiritual transformation, attaining the treasure of divine union and returning in loving service to others. Finally, the ramifications of the argument for the interpretation and application of other mystical and heroic narratives are considered. Offering a new perspective on John of Ruusbroec, mystical theology and the hero's journey as a spiritual quest, this volume will be of interest to scholars of mysticism, theology, formative spirituality, narrative theory and religious literature of the Low Countries.

Mysticism and Spirituality in Medieval England William F. Pollard, Robert Boenig, 1997. The late fourteenth and early fifteenth centuries in England were a golden age of mysticism; the major figures could draw on and allude to a host of treatises as the Cloud author acknowledges when he explains how the works of St Denis validate all he writes about. Without Denis, without the theologians of the eleventh and twelfth centuries, without the anchoritic writings of the thirteenth century Richard Rolle, Julian of Norwich, Walter Hilton, Margery Kempe could not have written as they did. Likewise, those who followed them, the Wycliffites, the Brigittines, the writers of religious lyrics, responded to those who had gone before. The articles presented here identify major themes and the web of influence that link them; new but solid interpretations are offered of the key figures and their backgrounds, and the emphasis is on the rich variety of mysticism these authors and texts embody.

A Companion to John of Ruusbroec John Arblaster, Rob Faesen, 2014-03. This Companion offers a comprehensive overview of research into the life, work and influence of John of Ruusbroec (1293-1381). In addition, it contains the first English translation of a series of Middle Dutch texts related to Ruusbroec and his context.

Mysticism in the French Tradition Louise Nelstrop, Bradley B. Onishi, 2016-03-09. In the nineteenth and early twentieth centuries, secular French scholars started re-engaging with religious ideas, particularly mystical ones. *Mysticism in the French Tradition* introduces key philosophical undercurrents and trajectories in French thought that underpin and arise from this engagement, as well as considering earlier French contributions to the development of mysticism. Filling a gap in the literature, the book offers critical reflections on French scholarship in terms of its engagement with its mystical and apophatic dimensions. A multiplicity of factors converge to shape these encounters with mystical theology: feminist, devotional and philosophical treatments, as well as literary, historical and artistic approaches. The essays draw these into conversation, bringing together an international and interdisciplinary range of contributions from both new and established scholars. This book provides access to the melting pot out of which the mystical tradition in France erupted in the twenty-first century and from which it continues to challenge theology today.

The Rhineland Mystics Oliver Davies, 2016-06-02. The work of the great Rhineland mystics of the fourteenth century speaks to the modern reader with astonishing directness and clarity. In their emphasis on the personal inward experience of God and their

questioning of the formal ritualistic side of religion Meister Eckhart Johannes Tauler and Jan van Ruusbroec appear almost as contemporaries This impression is heightened by vivid new translations by Oliver Davies who also sets the Rhineland mystics in their historical and cultural context and examines why we seem to have a special sensitivity to their voice in spite of a gap of over six hundred years **Between the 'Mysticism of Politics' and the 'Politics of Mysticism'** David

Ranson,2013-08-31 Between the Politics of Mysticism and the Mysticism of Politics traces the dialectic of the mystical and the political from both a theological and an historical perspective It presents the dialectic as a hermeneutic for the rise of the new ecclesial communities within the Roman Catholic Tradition and suggests it as the framework by which a trajectory for Christian holiness might emerge in the 21st century **The Big Book of Christian Mysticism** Carl McColman,2021-11-16
