## S Com No 1 Terror In Turin:

**Cloak and Dagger Fiction** Myron J. Smith, 1982 A new edition of the definitive bibliography of the modern spy adventure intrigue novel First published in 1976 this edition has been thoroughly revised and updated After a discussion of early spy fiction Smith and White provide a detailed listing of novels from 1940 onward **Monographic Series** Library of Congress, The Revolutionary Mystique and Terrorism in Contemporary Italy Richard Drake, 2021-03-02 What drives terrorists to glorify violence In The Revolutionary Mystique and Terrorism in Contemporary Italy Richard Drake seeks to explain the origins of Italian terrorism and the role that intellectuals played in valorizing the use of violence for political or social ends Drake argues that a combination of socioeconomic factors and the influence of intellectual elites led to a sanctioning of violence by revolutionary political groups in Italy between 1969 and 1988 Drake explores what motivated Italian terrorists on both the Left and the Right during some of the most violent decades in modern Italian history and how these terrorists perceived the modern world as something to be destroyed rather than reformed In 1989 The Revolutionary Mystique and Terrorism in Contemporary Italy received the Howard R Marraro Prize from the Society for Italian Historical Studies It was awarded for the best book that year on Italian history The book is reissued now with a new introduction for the light it might shed on current terrorist challenges The Italians had success in combating terrorism We might learn something from their example The section of the book dealing with the Italian superfascist philosopher Julius Evola holds special interest today Drake s original work takes on new significance in the light of Evola s recent surge of popularity for members of America s alt right movement Gung-ho , 1981 **The New York Times Index** , 1918 **Terror** Brett Bowden, Michael T. Davis, 2008 With a foreword by Geoffrey Robertson QC The issues of terror and terrorism confront us every day every time we board a flight pick up a newspaper or watch television Concerns about terrorism now dictate domestic and foreign policies around the world In a very real sense one way or another we find ourselves in the grip of terror But what is terror How is it described measured and experienced Is the current terrorist threat unprecedented The answers to many of these questions and the lessons therein are to be found in history and nowhere more so than in Europe In fact Europe has been home to some of the most terrifying and horrific events in recorded human history This collection takes a broad ranging yet detailed look at the landmark events and epochs of terror across Europe from the Gunpowder Plot of 1605 to the terrorist bombings on the London Underground in July 2005 Drawing on leading authorities from across the globe this volume explores the historical mutation of political violence and concepts of terror Terror will be of interest to scholars of history international relations and political science to policy makers and to the educated layperson **Subject Catalog, 1982** Library of Congress, 1982 **Violence and Terror in the Mass Media** George Gerbner, Nancy Signorielli, 1988-01-13 Originally a Unesco project this annotated bibliography results from more than 4 600 requests to media scholars and researchers for research reports publications and other information relating to violence and terrorism Although there is an

international cast to the materials most are from the U S Even though violence and terrorism permeate our myths and legends there is increasing concern with their effect on viewers This bibliography is particularly timely with entries through spring 1987 The sections of the work mass media content mass media effects pornography and the media terrorism and the media give a better idea of the work s scope than does the title Choice T he annotations are clearly written succinctly descriptive of the original work s research with test groups and evaluative of research results Reference Books Bulletin This bibliography focuses on research and scholarly works relating to violence and terror Consisting primarily of articles published in scholarly journals and books this comprehensive work examines major topics such as violence and mass media content violence and mass media effects terrorism and the mass media and pornography Also included are articles from popular journals reports published by the United States and other governments conference papers and dissertations Each entry consists of the bibliographic citation and a short abstract many of the sources include studies from other countries where relevant research has been conducted The compilers introduction provides a clear definition of violence and terrorism as they are dealt with in this volume and offers an interesting overview of various aspects of the subject **Library of Congress Catalogs** Library of Congress,1980 *Terrorism and Transatlantic Relations* Klaus Larres,Tobias Hof,2021-11-27 This book explores the development of transatlantic policy on international terrorism and assesses the situation today It takes an interdisciplinary approach to terrorism and transatlantic relations bringing together experts from contemporary history political science military strategy psychology law and security Looking back to the roots of modern terrorism from the late 70s to 9 11 and beyond the volume evaluates how attitudes and approaches have changed over this period It analyses potential solutions for finding a shared philosophy to counter the threat of transnational terrorism in the US and Europe against a rapidly changing political landscape Chapters cover a range of topics including the psychology of terrorism online propaganda domestic terrorism terrorism and finance and cyber security **The Legitimization of Violence** David E. Apter,2016-07-27 Violence is a more and more ubiquitous phenomenon While a great deal of attention has been paid to certain aspects terrorism for example it has not been studied as a political phenomenon in and of itself In *The Legitimization of Violence* eight well known specialists explore various types of violence from ideological to fundamentalist movements within a framework of comparative theory *The Portrayal and Punishment of Terrorists in Western Media* Christiana Spens,2018-12-29 This book explores how terrorists have been portrayed in the Western media and the wider ideological and social functions of those representations Developing a theory of scapegoating related to narrative closure as well as an integrated genealogical method of intervisuality the book proposes a new way of thinking about how political images achieve power and influence the public By connecting modern portrayals of terrorists post 9 11 with historical and fictional images of villains from Western cultural history the book argues that the portrayal and punishment of terrorists in the Western media implicitly perpetuates neo Orientalist attitudes It also explains that by repeating these narrative patterns through a ritual of

scapegoating Western media coverage of terrorists partakes in a social process that uses punishment dehumanization and colonialist ideas to purge the iconic villain so as to build national unity and sustain hegemonic power following crisis

*Subject Catalog* Library of Congress, **Terrorists' Target Selection** C. Drake, 1998-08-26 The author examines the factors which influence terrorists target selection In particular he looks at the influence of the ideologies strategies and tactics of terrorist groups and describes how these are restricted by the terrorists resources by protective and anti terrorist measures by the society within which the terrorists operate and by the nature of the terrorists and their supporters He concludes that terrorists target selection is often both explicable and logical **Psychology of Terrorism** Bruce Michael Bongar, 2007 Publisher description [Terrorism and Security](#) Vittorio S.
