Berton Emerson, 2024-03-25 The study of nineteenth century American literature has long been tied up with the study of American democracy Just as some regions in the United States are elevated to stand in for the whole nation New England is a good example D Berton Emerson argues the same is true for American literature of the nineteenth century a few canonical texts overrepresent the more motley history of American letters Emerson examines an eclectic group of literary texts that have rarely if ever been considered representative of the nation because of their unseemly characters or plots divergence from dominant literary trends of the era or local particularity These are his

literary misfits authors and texts that show different forms of egalitarianism in action that existed outside and even against the dominant liberal narratives of American democracy Emerson's unique contribution is revealing these texts and the people they represent as rich with political knowledge This knowledge he argues finds its most potent expression in the local Such texts show us a different kind of democratic politics one that is egalitarian disorderly and radical rather than homogeneous

Anxious Masculinity in the Drama of Arthur Miller and Beyond Claire Gleitman, 2022-05-19 Staunchly homosocial vaguely or overtly misogynistic anxiously homophobic this study follows the male breadwinner as he is incarnated in Arthur Miller's most celebrated plays and as he resurfaces in different guises throughout American drama from the 1950s to the present Anxious Masculinity offers a compelling analysis of gender dynamics and the legacy of this figure as he stalks through the works of other American dramatists and argues that the gendered anxieties exhibited by their characters are the very ones invoked with such success by Donald Trump Claire Gleitman examines this figure in the plays of Miller and Tennessee Williams as well as later 20th century writers Lorraine Hansberry August Wilson and Sam Shepard who reposition him in more racially and economically marginalized settings He reappears in the more recent work of playwrights Tony Kushner Paula Vogel and collaborators Lisa Kron and Jeanine Tesori who shift their focus to the next generation which seeks to escape his clutches and forge new often gleefully queer identities The final chapter concerns contemporary Black dramatists Suzan Lori Parks Jackie Sibblies Drury and Jeremy O Harris whose plays move us from anxious masculinity to anxious whiteness and speak directly to the current moment
