The Emperor and the World Alicia Walker, 2012-04-30 Byzantine imperial imagery is commonly perceived as a static system In contrast to this common portrayal this book draws attention to its openness and responsiveness to other artistic traditions Through a close examination of significant objects and monuments created over a 350 year period from the ninth to the thirteenth century Alicia Walker shows how the visual articulation of Byzantine imperial power not only maintained a visual vocabulary inherited from Greco Roman antiquity and the Judeo Christian tradition but also innovated on these artistic precedents by incorporating styles and forms from contemporary foreign cultures specifically the Sasanian Chinese and Islamic worlds In addition to art and architecture this book explores historical accounts and literary works as well as records of ceremonial practices thereby demonstrating how

Museums in the Material World Simon Knell, 2007-08-07 *Museums in the Material World* seeks to both introduce classic and thought provoking pieces and contrast them with articles which reveal grounded practice The articles are selected from across the full breadth of museum disciplines and are linked by a logical narrative as detailed in the section introductions The choice of articles reveals how the debate has opened up on disciplinary practice how the practices of the past have been critiqued and in some cases replaced how it has become necessary to look beyond and outside disciplinary boundaries and how old practices can in many circumstances continue to have validity *Museums in the Material World* is about broadening horizons and moving museum studies students and others beyond the narrow confines of their own disciplinary thinking or indeed any narrow conception of collections In essence this is a book about the practice of interpretation and will therefore be of great use to those students and museum practitioners involved in the field of material culture in museums
