universe remains an enormous hypothesis so long as its use has not awakened in us the higher consciousness of a universal order By deepened knowledge of things and their process of becoming we must come to recognize Numbers as a truth and to experience with our senses the living relation of a cause to an effect this relation being truer and more real than the effect could ever be Published in 1917 under the author s given name of Ren Schwaller A Study of Numbers is the first expression of the teachings we have come to associate with his later and better known name R A Schwaller de Lubicz It is a masterly account of the living universal qualitative and casual reality of numbers Starting from the irreducible one Schwaller deals with the unfolding of creation through the cycles of polarization ideation and formation Topics covered include numbers values and relations the disengagement of numbers the harmonic basis of numbers the development of values and the establishment of harmony 7 Codes Of The Soul A Faceless Soul,2025-10-18 This book is not for the curious It is for the called In a world that sells noise distraction and quick fixes 7 Codes of the Soul A Guide to Spiritual Awakening offers something rarer remembrance Not of what you must become but of what you have always been Rooted in the ancient streams of the Vedas Kabbalah and Sufi silence this faceless manuscript reveals seven sacred portals codes of energy emotion prosperity union and soul alignment that have echoed through time to guide seekers home Inside you will discover how to Awaken the hidden energy already within you Transform pain and emotion into light Heal your body through spiritual remembrance Unlock divine prosperity and soulful living Reunite the sacred feminine and masculine within Remember your soul contract and higher purpose This is not theory These words were written as lived truth offered without name or ego a gift for those who feel the stirring inside that there is more If you are ready to cross the threshold to walk through the seven portals and to return to the soul you lost in the noise of the world this book has already found you **The Word** ,1917

Traditional Forms and Cosmic Cycles René Guénon,2003 Ren Gu non 1886 1951 is undoubtedly one of the luminaries of the twentieth century whose critique of the modern world has stood fast against the shifting sands of recent philosophies His oeuvre of 26 volumes is providential for the modern seeker pointing ceaselessly to the perennial wisdom found in past cultures ranging from the Shamanistic to the Indian and Chinese the Hellenic and Judaic the Christian and Islamic and including also Alchemy Hermeticism and other esoteric currents at the same time it directs the reader to the deepest level of religious praxis emphasizing the need for affiliation with a revealed tradition even while acknowledging the final identity of all spiritual paths as they approach the summit of spiritual realization *Traditional Forms and Cosmic Cycles* is a wide ranging collection of articles that could just as well have been called *Fragments of an Unknown History* Although they must remain fragments as Gu non did not return to many of these themes again it would have been regrettable to leave such fascinating articles buried in old journals and so this posthumous collection is now offered to Anglophone readers for the first time The book opens with the key article *The Doctrine of Cosmic Cycles* followed by two pieces on Atlantis and Hyperborea Two sections follow concerned respectively with the Hebrew Tradition and the Egyptian Tradition The former comprises five articles concerned primarily with the Kabbalah and the Science of Numbers and the latter includes three articles on Hermes and the Hermetic Tradition Book reviews are inserted at relevant points To lend the collection coherence no other spiritual Traditions are here represented A list of the Collected Writings of Ren Gu non has been provided for those who wish to investigate Gu non s metaphysical expositions on such topics as Christianity Islam the Greco Latin Traditions Celtism etc
