Thinking Through Revelation Robert J. Dobie, 2019-01-09

Navigating the seemingly competing claims of human reason and divine revelation to truth is without a doubt one of the central problems of medieval philosophy Medieval thinkers argued a whole gamut of positions on the proper relation of religious faith to human reason Thinking Through Revelation attempts to ask deeper questions what possibilities for philosophical thought did divine revelation open up for medieval thinkers How did the contents of the sacred scriptures of Judaism Christianity and Islam put into question established philosophical assumptions But most fundamentally how did not merely the content of the sacred books but the very mode in which revelation itself is understood to come to us as a book sent down from on high as a covenant between God and his people or as incarnate person create or foreclose possibilities for the resolution of the philosophical problems that the Abrahamic revelations themselves raised

Politics and the Limits of Law Menachem Lorberbaum, 2002-11-01 This book explores the emergence of the fundamental political concepts of medieval Jewish thought arguing that alongside the well known theocratic elements of the Bible there exists a vital tradition that conceives of politics as a necessary and legitimate domain of worldly activity that preceded religious law in the ordering of society Since the Enlightenment the separation of religion and state has been a central theme in Western political history and thought a separation that upholds the freedom of conscience of the individual In medieval political thought however the doctrine of the separation of religion and state played a much different role On the one hand it served to maintain the integrity of religious law versus the monarch whether canon law Islamic law or Jewish law On the other hand it upheld the autonomy of the monarch and the autonomy of human political agency against theocratic claims of divine sovereignty and clerical authority Postulating the realm of secular politics leads the author to construct a theory of the precedence of politics over religious law in the organization of social life He argues that the attempts of medieval philosophers to understand religion and the polity provide new perspectives on the viability of an accommodation between revelation and legislation the

holy and the profane the divine and the temporal The book shows that in spite of the long exile of the Jewish people there is unquestionably a tradition of Jewish political discourse based on the canonical sources of Jewish law In addition to providing a fresh analysis of Maimonides it analyzes works of Nahmanides Solomon ibn Adret and Nissim Gerondi that are largely unknown to the English speaking reader Finally it suggests that the historical corpus of Jewish political writing remains vital today with much to contribute to the ongoing debates over church state relations and theocratic societies

Exile and Restoration in Jewish Thought Ralph Keen, 2011-10-20 Exile and Restoration in Jewish Thought presents the history of an idea originating at the intersection of Judaic piety and the social history of the Jews faith in a protective sovereign deity amid contrary conditions Exiled primordially Eden during the Patriarchal era in the sixth century bce and from the first century to the twentieth the Jewish experience of alienation has been the historical backdrop against which affirmations of divine benevolence have been constructed While histories of Jewish thought have tended to accentuate the speculative creativity of medieval and modern Jewish philosophers the intellectual tradition can come into focus only with attention to these thinkers understanding of diaspora and persecution Ralph Keen describes the distinguishing feature of Jewish thought as a religious hermeneutic in which the primitive promise made to Abraham is preserved not just as a pious memory but as a certain hope for eventual restoration Intended for readers with some familiarity with the history of philosophy this book offers the historical context necessary for understanding the distinctively Judaic character of this tradition of thought and elucidates the role of religious experience in the long process of negotiating between adversity and expectation

Evil and Providence in Maimonides'S Guide of the Perplexed Modestus Anyaegbu, 2014-11-21 Maimonides's rationalist rejection and interpretation of anthropomorphism play a major part in his reading of the problem of evil and providence in the guide of the perplexed The debate has been on finding an explanation as to why the righteous suffer and the vicious prosper in a world under the providence of a divine Creator The anthropomorphic bent given to the legendary case of the biblical Job has given us the concept of God as a personal agent But confronted with the reality of his innocent suffering this image of God leaves much to be desired We shall argue that Maimonides's theory of providence as consequent upon the intellect and evil as consequent upon the absence of intellectual perfection are based on the concept of God as existence It is the absence of intellectual perfection that marks man qua animal and leaves him open to chance occurrences and evil A Promotional Write Up The present work places before us the strange position and it must be said a little bit shocking to us of the great Jewish thinker on

the question of providence Only the intelligent that is to say the human beings who have effectively actualized their intellects and have come to an accomplished knowledge are considered and personally protected by the Eternal In other words the traditional piety that is usually asked of the believers by religious authorities is not sufficient This piety is still marked by illusion and does not procure for man the true knowledge of God which is worthy of him The individual ought to overcome pietistic representations in order to open himself to divine truth which is accessible only through knowledge This is what the Book of Job illustrates At the time when the actuality does not cease to present before us the question of the status of religion and the religious within modernity the attempt by Maimonides to articulate these two styles carries an indisputable force of conviction as shown with abundant evidence in the work presented by Modestus Anyaegbu Jean Michel Counet president of the Institut Suprieur de Philosophie Universit Catholique de Louvain Belgium

Between Worlds

Hava Tirosh-Rothschild, 2012-02-01 It is a work of sound scholarship dealing with an interesting historical figure and his unique cultural world The author focuses correctly on the transition from Italian to Ottoman Jewish culture in the life of David Messer Leon and reveals much about the continuities and discontinuities between both societies He nicely fuses social and intellectual history and uses a life to illuminate a number of interesting and important cultural trends among early modern Jews particularly the integration of kabbalah and philosophy Humanism and Thomism The presentation of the symbiotic nature of Jewish culture with contemporary intellectual trends and the appropriation of Christian theological strategies by a Jewish thinker to explain Judaism make this study a fascinating one

The Philosopher-King in Medieval and Renaissance Jewish Political Thought

Abraham Melamed, 2012-02-01 This original treatment of medieval and Renaissance Jewish thinkers expands the scope of Jewish philosophy and adds new depth to our understanding of Jewish culture of the period While medieval Christian political philosophy was based on Aristotle's Politics Muslim and Jewish philosophy adhered to the Platonic tradition In this book Abraham Melamed explores a major aspect of this tradition the theory of the philosopher king as it manifested itself in medieval Jewish political philosophy tracing the theory's emergence in Jewish thought as well as its patterns of transmittal adaptation and absorption The Maimonidean encounter with the theory via al Farabi is also examined as is its influence upon later scholars such as Felaquera ibn Latif Narboni Shemtov ibn Shemtov Polkar Alemanno Abarbanel and others Also discussed is the influence of Averroes's commentary on Plato's Republic and the Machiavellian rejection of the theory of the philosopher king and its influence upon early modern Jewish scholars such as Simone Luzzatto and Spinoza who rejected it in favor of a so called Republican attitude
