Complex John Geyman, 2021-04-15 The rise of an enormous medical industrial complex MIC over the last 60 years in the United States has brought wealth to ever larger corporations their shareholders and CEOs at the expense of most Americans who struggle gaining access to affordable health care Despite its might on Wall Street the MIC has left our country poorly prepared to meet the challenges of the coronavirus pandemic together with its resultant economic downturn Add the third simultaneous challenge systemic racism made obvious by the inequities of disproportionate numbers of COVID 19 deaths among minorities This book describes how the status quo that puts profits ahead of care for patients and families is untenable It describes three alternative approaches to health care reform and shows what a new normal can and should look like based on evidence and values of equity and service instead of profiteering corruption and fraud This will be an ultimate battle royal between corporate America and Main Street that we can't afford to lose **Code Blue** Mike Magee, 2019 A

Carceral Space, Prisoners and Animals Karen M. Morin, 2018-02-28 Carceral Space Prisoners and Animals explores resonances across human and nonhuman carceral geographies The work proposes an analysis of the carceral from a broader vantage point than has yet been done developing a trans species carceral geography that includes spaces of nonhuman captivity confinement and enclosure alongside that of the human The linkages across prisoner and animal carcerality that are placed into conversation draw from a number of institutional domains based on their form operation and effect These include the prison death row execution chamber and the animal slaughterhouse sites of laboratory testing of pharmaceutical and other products on incarcerated humans and captive animals sites of exploited prisoner and animal labor and the prison solitary confinement cell and the zoo cage The relationships to which I draw attention across these sites are at once structural operational technological legal and experiential embodied The forms of violence that span species boundaries at these sites are all a part of ordinary everyday industrialized violence in the United States and elsewhere and thus this carceral comparison amongst them is appropriate and timely
