Mike Bidlo BRUNO BISCHOFBERGER, Mike Bidlo, TONY SHAFRAZI, 1999-03-01 *Mike Bidlo*, 1998 Mike Bidlo
Mike Bidlo (Künstler), 1998 *The Fountain Drawings* Mike Bidlo, 1998 Perhaps the most infamous object in the history of 20th century art is Duchamp's Fountain Rosetta stone to the avant garde Duchamp's 1917 urinal redefined in one bold conceptual stroke the possibilities of art forever after entering modern consciousness and signifying the start of a counter tradition of ready made's anti art and conceptualism that is 80 years old It is therefore appropriate that artist Mike Bidlo who has in the past made appropriations of legendary artworks by Picasso Man Ray Brancusi etc here focuses his attentive eye on Fountain This book catalogues the surprising results of Bidlo's homage and taken together these 300 drawings bring out both the totemic and painterly qualities of Fountain The book includes an extensive discussion between Bidlo and critics Arthur Danto and Francis Naumann **Mike Bidlo** Galerie Bischofberger (Zürich), 1998 **From Head to Hand** David Levi Strauss, 2010-02-11 In his third book Strauss delves into the mysterious process whereby an idea is born in the mind and materialized through the hand in the expression of an artwork How exactly does this happen It's a question so basic an act so fundamental to art making that it has rarely received attention It makes an ideal topic for Strauss a writer with an exceptional ability to animate art's philosophical dimensions in a clear persuasive manner During this time when craft and the direct manipulation of materials by the artist appear to be in eclipse Strauss comes to their defense in a spirited *cri de coeur* Featuring over 35 illustrations the book examines a wide variety of media and individual examples It explores the works of sculptors Martin Puryear Ursula von Rydingsvard and Donald Lipski painters Leon Golub and Ron Gorchov and writers Robert Duncan Robert Kelly Guy Davenport John Berger and Leo Steinberg In addition there are essays on Joseph Beuys's 7000 Oaks in Ireland contemporary Haida carvers Reg Davidson and Jim Hart Cecilia Vicuña's memory of the fingers and the influence of curators Harald Szeemann and Walter Hopps on the staging of contemporary art exhibitions Known primarily for his writings on photography and politics Strauss here focuses on the least mediated arts painting sculpture and writing His claims are supported by a series of close readings which succeed in recovering the immediacy of the hand and revitalizing contemporary art's connection to the past Italian Modernism Mario Moroni, Luca Somigli, 2004-01-01 Italian Modernism was written in response to the need for an historiographic and theoretical reconsideration of the concepts of Decadentismo and the avant garde within the Italian critical tradition Focussing on the confrontation between these concepts and the broader notion of international modernism the essays in this important collection seek to understand this complex phase of literary and artistic practices as a response to the epistemes of philosophical and scientific modernity at the end of the nineteenth century and in the first three decades of the twentieth Intellectually provocative this collection is the first attempt in the field of Italian Studies at a comprehensive account of Italian literary modernism Each contributor documents how previous critical categories employed to account for the literary artistic and cultural experiences of the period have

provided only partial and inadequate descriptions preventing a fuller understanding of the complexities and the interrelations among the cultural phenomena of the time

Potential Images Dario Gamboni, 2002 In *Potential Images* Dario Gamboni explores ambiguity in modern art considering images that rely to a great degree on a projected or imaginative response from viewers to achieve their effect Ambiguity became increasingly important in late 19th and early 20th century aesthetics as is evidenced in works by such artists as Redon Cezanne Gauguin Ensor and the Nabis Similarly the Cubists subverted traditional representational conventions requiring their viewers to decipher images to extract their full meanings The same device was taken up in the various experiments leading to abstraction For example it was Kandinsky's intention that his work could be interpreted in both figurative and non figurative ways and Duchamp's Readymades suggested the radical conclusion that it is the beholder who makes the picture These invitations to viewers to participate in the process of artistic communication had social and political implications as they accorded artist and beholder symmetrical almost interchangeable roles

Pictures Into Words Ari J. Blatt, 2012-05-01 The explosive proliferation of pictures in advertising and pop culture mass media and cyberspace following World War II along with the profusion of critical thinking that tries to make sense of it has had wide ranging implications for cultural production as such *Pictures into Words* explores how this proliferation of graphic images has profoundly affected narrative writing in France especially as Ari J Blatt argues the structure content and symbolic logic of contemporary French fiction By examining a specific corpus of narratives by authors Claude Simon Georges Perec Pierre Michon and Tanguy Viel books that originate amid conjure up and indeed are essentially about pictures Blatt addresses the most salient questions pertaining to the relationship between literature and visual culture today Each of the novels considered here engages the work of several postwar artists from Robert Rauschenberg Andy Warhol Vincent van Gogh and Orson Welles to Jeff Koons Joseph L Mankiewicz Pierre Huyghe and Marcel Duchamp As Blatt's cross disciplinary readings show despite their gleeful raiding of the visual archive to generate and enrich their stories many contemporary narratives that tell tales about pictures simultaneously express a cautious skepticism toward vision and visual representation *Pictures into Words* examines how such novels while seemingly complicit with the visual simultaneously write back against the images they exploit reclaiming some of literature's lost ground in our visually inundated world

Art, Conservation and Authenticities E. Hermens (ed.), Tina Fiske, 2009 One of the aims of the 2007 conference Art Conservation and Authenticities Material Concept Context was to explore the seemingly embattled position of the term authenticity within conservation practice not so much to progress definitions or rehearse existing debates as to test its continued relevance to a broad range of conservators examine its on going application in the assessment of conservation of objects and consider the critical potential of its pluralized form authenticities The papers delivered at the conference and those formalised for

publication here have engaged these various threads with energy and creativity Drawn from a range of backgrounds and across various specialisms the authors present a range of discussions that offer various responses but which all confirm the still prominent position that authenticity occupies in the evaluative aspect of a conservator's work

Aesthetic Theory, Abstract Art, and Lawrence Carroll David Carrier, 2018-09-06 Boldly developing the central traditions of American modernist abstraction Lawrence Carroll's paintings engage with a fundamental issue of aesthetic theory the nature of the medium of painting in highly original frequently extraordinarily successful ways Aesthetic Theory Abstract Art and Lawrence Carroll explains how he understands the medium of painting shows what his art says about the identity of painting as an art discusses the place of his paintings in the development of abstraction and finally offers an interpretation of his art The first monograph devoted to him this philosophical commentary employs the resources of analytic aesthetics Art historians trace the development of art explaining how what came earlier yields to what comes later Taking for granted that the artifacts they describe are artworks art historians place them within the history of art Philosophical art writers define art explain why it has a history and identify its meaning Pursuing that goal Aesthetic Theory Abstract Art and Lawrence Carroll roams freely across art history focused at some points on the story of old master painting and sometimes on the history of modernism but looking also to contemporary art in order to provide the fullest possible philosophical perspective on Carroll's work
