between the ideology of growth and the growth of ideas between control and creativity between measurement and the immeasurable between predictability and the fickle muses of inspiration in engulfing our boardrooms In this scathing swipe at the institutionalised idiocy that is stifling creativity just at the time the world needs it most Gordon Torr draws from the leading lights of creativity research to demolish the myths that surround the generation of ideas in the modern organisation The curse of the brainstorm the commoditisation of creative talent the deskilling of the imagination the startling inadequacies of management theory these and the many other horrors of idea assassination that run rampant in creative sector companies are dissected and disembowelled in this hilarious expose of the drama that unfolds every time a new idea slides across the boardroom table This book sets out to address the black hole that surrounds the management of creative people debunking many myths of creativity and outlining a revolutionary approach to the pressing issue of creative productivity in the contemporary creative sector company A handbook of tools techniques methods and practical ideas whose USP is a framework for thinking about efficient creative management how to extract value from creative time Gordon Torr presents a logical argument that puts in place the building blocks of the author s knowledge and experience towards the final architecture We need them as never before And we know that they re somehow different Yet the productive management of creative people is an almost totally neglected science I doubt if there s a single industry that wouldn t gain immediate advantage from Gordon Torr s scrupulous and enlightening detective work Jeremy Bullmore *Humanistic Management, Organization and Aesthetics* Michał Szostak, 2023-11-17 The book is the first worldwide publication of a complex theory of management aesthetics in humanistic management based on the aesthetics and arts approach allowing for a complete and systemic understanding of the management art and art management phenomena The methodology is based on the critical literature review and empirical research applying qualitative quantitative and autoethnographic approaches The main goal of this monograph is to create a holistic model that organises the issues of management aesthetics and shows the interdependence of the components of this model The role of this model should be to perform a central function for a complete and systemic understanding of the phenomenon of management aesthetics as well as to perform the function of a field based on which analysis of individual issues in the area of management aesthetics is conducted The critical component of this holistic model is Maria Go aszewska s theory of the aesthetic situation Two theses of the book are the following 1 the theory of aesthetics and artistic practice have the potential to enrich the theory and practice of management with qualitative components through deep immersion in the world of values and 2 management theory and practice have the potential to enrich the theory of aesthetics and artistic practice with efficiency components *Creativity and Strategic Innovation Management* Malcolm Goodman, Sandra M.
