Equipment, support and technology for UK defence and security Great Britain: Ministry of Defence, 2012-02 Dated February 2012 Summary of responses to Green Paper published December 2010 Cm 7989 ISBN 9780101798921 published alongside the White paper National security through technology Cm 8278 ISBN 9780101827829 *The Defence Industrial Strategy* Great Britain: Parliament: House of Commons: Defence Committee, 2006-05-10 The defence industrial strategy published in December 2005 Command paper Cm 6697 ISBN 0101669720 Its aim was to provide greater transparency on the UK's future defence requirements and to set out those industrial capabilities the UK needs to maintain appropriate sovereignty and operate equipment independently The Committee praises the production of the strategy to a tight timetable and with wide consultation The strategy has been well received by industry In the future there will be more focus on upgrading and maintaining platforms rather than designing and building new equipment The Committee wants the Ministry of Defence MoD to continue improvements in the procurement process and to give more information about future requirements Investment in research and technology needs to increase or the result will be lower quality defence equipment The MoD also needs to develop a greater understanding of the vital role of small and medium sized enterprises in the supply chain Competitive procurement will not always be possible in some areas where there is only a single company with the capacity and capability to deliver the MoD's requirements The Committee expresses concerns about the planned use of long term partnering arrangements seeing the risk of possible monopoly supply and lack of access of other companies to sub contract work **Securing Britain in an age of uncertainty** Great Britain: Cabinet Office, 2010-10-19 This strategic defence and security review provides detailed information on how the Government plans to deliver the strategy outlined in A strong Britain in an age of uncertainty the national security strategy Cm 7953 ISBN 9780101795326 Chapters cover national security tasks and planning guidelines defence the deterrent wider security alliances and partnerships structural reform and implementation An adaptable posture is proposed enabling a flexible response to highest priority risks maintaining a deterrent enhancing partnerships constant review of longer term risks and uncertainties Eight cross cutting national security tasks are identified An outline force structure Future Force 2020 is planned for defence The Army will receive new armoured vehicles and strategic lift aircraft better communications equipment and more battlefield helicopters The role and structure of the Territorial Army and other reserve forces will be reviewed The Royal Navy will get new vessels including two new aircraft carriers though only one carrier will be designed for full operability with allies The Ark Royal carrier will be

decommissioned and Harrier jets phased out as new aircraft are introduced Royal Air Force capabilities will be based around a fleet of Typhoon and Joint Strike Fighter aircraft with supporting unmanned vehicles and an enhanced air transport fleet The nuclear deterrent will be maintained but the number of warheads on each submarine and in reserve will be reduced Wider security covers terrorism instability and conflict overseas cyber security civil emergencies energy security organised crime border security counter proliferation and arms control Alliances and partnerships remain a fundamental part of the approach including bilateral co operation and multilateral engagement through NATO and the UN Structural reform to ensure effective and efficient delivery of the strategy is described Personnel reduction is to be 5 000 Navy 7 000 Army 5 000 RAF and 25 000 civilians

Classic Keys Alan S. Lenhoff, David E. Robertson, 2019-12-09 Classic Keys is a beautifully photographed and illustrated book focusing on the signature rock keyboard sounds of the 1950s to the early 1980s It celebrates the Hammond B 3 organ Rhodes and Wurlitzer electric pianos the Vox Continental and Farfisa combo organs the Hohner Clavinet the Mellotron the Minimoog and other famous and collectable instruments From the earliest days of rock music the role of keyboards has grown dramatically Advancements in electronics created a crescendo of musical invention In the thirty short years between 1950 and 1980 the rock keyboard went from being whatever down on its luck piano awaited a band in a bar or concert hall to a portable digital orchestra It made keyboards a centerpiece of the sound of many top rock bands and a handful of them became icons of both sound and design Their sounds live on Digitally in the memory chips of modern keyboards and in their original form thanks to a growing group of musicians and collectors of many ages and nationalities Classic Keys explores the sound lore and technology of these iconic instruments including their place in the historical development of keyboard instruments music and the international keyboard instrument industry Twelve significant instruments are presented as the chapter foundations together with information about and comparisons with more than thirty six others Included are short profiles of modern musicians composers and others who collect use and prize these instruments years after they went out of production Both authors are avid musicians collect and restore vintage keyboards and are well known and respected in the international community of web forums devoted to these instruments

Performing Nuclear Weapons Paul Beaumont, 2021-07-23 This book investigates the UK's nuclear weapon policy focusing in particular on how consecutive governments have managed to maintain the Trident weapon system The question of why states maintain nuclear weapons typically receives short shrift its security of course The international is a perilous place and nuclear weapons represent the ultimate self help device This book seeks to unsettle this complacency by re conceptualizing nuclear weapon armed states as nuclear regimes of truth and refocusing on the processes through which governments produce and maintain country specific discourses that enable their continued possession of nuclear weapons Illustrating the value of studying nuclear regimes of truth the book conducts a discourse analysis of the UK's nuclear weapons policy between 1980 and 2010 In so doing it documents the sheer imagination and discursive labour required to

sustain the positive value of nuclear weapons within British politics as well as providing grounds for optimism regarding the value of the recent treaty banning nuclear weapons

Understanding Influence Thomas Waldman, Sultan Barakat, 2016-02-24 The overarching objective of this book is to analyse the manner in which statebuilding oriented research has and can influence policies in fragile post conflict environments Large scale externally assisted statebuilding is a relatively new and distinct foreign policy domain having risen to the forefront of the international agenda as the negative consequences of state weakness have been repeatedly revealed in the form of entrenched poverty regional instability and serious threats to international security Despite the increasing volume of research on statebuilding the use and uptake of findings by those involved in policymaking remains largely under examined As such the main themes running through the book relate to issues of research influence use and uptake into policy It grapples with problems associated with decision making dynamics knowledge management and the policy process and draws on concepts and analytical models developed within the public policy and research utilisation literature This book will be of great interest to researchers knowledge managers and policymakers working in the fields of post war reconstruction statebuilding fragile states stabilisation conflict and development

British Grand Strategy in the Age of American Hegemony William D. James, 2024-01-18 Is the United Kingdom capable of grand strategy Common wisdom suggests otherwise Some think it implausible amid the maelstrom of domestic politics while others believe the UK lacks the necessary autonomy as a cog in the US led order British Grand Strategy in the Age of American Hegemony challenges these claims William D James contends that grand strategy is an unavoidable part of governing Grand strategy is the highest level of national security decision making encompassing judgements over a state s overarching objectives and interests as well as its security environment and resource base Getting these decisions right is vital in moments of geopolitical flux Employing several historical case studies between 1940 2003 and marshalling a host of primary sources James argues that British politicians and officials have thought in grand strategic terms under American hegemony even if they do not realise or admit to this He also demonstrates that the role of allies in shaping British grand strategy has been overstated Finally James highlights the conditions under which domestic political actors can influence grand strategic decision making Written for practitioners as well as scholars the book concludes with several policy recommendations at this inflection point in British history

Government and Armed Forces in Britain, 1856-1990 Paul Smith, 2010-07-15 In a period that began with Britain controlling a world wide empire and included two world wars followed by the Cold War and massive expenditure on nuclear armaments the relationship between the politicians and the generals has been central to British history While it is correctly assumed that the Armed Forces have never threatened British political stability in modern times the relationship between the military and their political masters is a major if under emphasised theme of British history While in theory the politicians decided strategy and the military implemented it in practice decisions often depended on the personalities and experience of those involved Asquith the

epitome of the civilian left major strategic decisions in the hands of the military while Churchill an ex soldier and ex First Lord of the Admiralty rode roughshod over professional military advice In a period when arms before ever more technologically sophisticated there was also the problem of how far politicians could decide on strategies proposed by the military other than by the crude yardstick of cost The essays in *Government and the Armed Forces in Britain 1856-1990* provide a coherent account not only of the major decision making of warfare but also of the changes in the organisation and control of the Armed Forces

National security through technology Great Britain: Ministry of Defence, 2012-02 This White Paper divided into two parts lays out the Government's policy objectives in relation to National Security through Technology particularly in relation to technology equipment and support for UK defence and security Part 1 UK Defence and Security Procurement sets out the Government's aims for the procurement of technology equipment and support to meet the UK's defence and security needs Part 2 The UK Defence and Security Industry looks at the wider UK perspective including growth skills and emerging sectors within the context of defence and security procurement policy and at government action to encourage UK based companies to fulfil defence requirements here and develop successful exports The publication follows up and develops themes and issues raised in the Green Paper *Equipment support and technology for UK defence and security consultation paper Cm 7989 ISBN 9780101798921* published December 2010 A second publication published alongside this White Paper *Cm 8277 ISBN 9780101827720* contains the Government's responses to the original Green Paper

Defence Industrial Strategy Great Britain: Ministry of Defence, 2005-12-15 This strategy document sets out the Government's analysis of the UK's defence industrial capabilities requirement and is divided into three parts i a strategic overview including information on the principles and processes that underpin procurement and industrial decisions the need for transparency the evolving defence industry environment developments and innovation in defence research technology ii a review of different industrial sectors and cross cutting industrial capabilities and iii how the strategy will be implemented and an assessment of implications for the Ministry of Defence and industry as a whole

The use of airspace Great Britain: Parliament: House of Commons: Transport Committee, 2009-07-10 The Government's *Future of Air Transport* strategy aims to significantly increase UK airport capacity over the next two decades to accommodate the predicted growth in demand for air travel New runways at Heathrow and Stansted airports are two of the key airport development proposals If all the White Paper supported airport development proposals came to fruition current Government forecasts predict that the number of passengers passing through UK airports will increase from 241 million passengers a year in 2007 to 455 million passengers a year in 2030 This UK growth matches air traffic predictions for the whole continent Eurocontrol the European Organisation for the Safety of Air Navigation predicts that European air traffic will double by 2020 If rising demand for air travel is to be met effectively through additional airport capacity a corresponding increase in airspace capacity must be realised However a country's airspace the portion of atmosphere above its territory and territorial waters controlled by that

country is a finite resource UK airspace particularly in the South East of England is already some of the busiest and most complex to manage in the world This will almost certainly require improvements in the efficiency of the UK air traffic management system The Committee's inquiry aims to look at how to meet these challenges Its findings are aimed at those organisations responsible for airspace related decisions in the UK the CAA NATS and the Department for Transport Passenger numbers and freight demand globally have declined in 2008 and in the first months of 2009 In its conclusions and recommendations the Committee covered the management of airspace strategy change and co ordination in airspace management environmental impacts of airspace changes and European developments

British Defence in the 21st Century John Louth,Trevor Taylor,2018-09-21 This book analyses UK defence as a complex interdependent public private enterprise covering politics management society and technology as well as the military Building upon wide ranging applied research with extensive access to ministers policy makers senior military commanders and industrialists the book characterises British defence as a phenomenon that has endured extensive transformation this century Looking at the subject afresh as a complex extended enterprise involving politics alliances businesses skills economics military practices and citizens the authors profoundly reshape our understanding of defence and how it is to be commissioned and delivered in a world dominated by geopolitical risks and uncertainties The book makes the case that this new understanding of defence must inevitably lead to new policies and processes to ensure its health and vitality This book will be of much interest to students of defence studies British politics and military and strategic studies as well as policy makers and practitioners

Labour's Ballistic Missile Defence Policy 1997-2010 James Simpkin,2022-12-23 This book uses the strategic relational approach to explain how the Labour governments of Tony Blair and Gordon Brown integrated the United Kingdom into the US ballistic missile defence system in order to maintain national security and to uphold the special relationship while at the same time recognising that voters were in general opposed to missile defence Labour's Ballistic Missile Defence Policy 1997-2010 examines how the Labour administration was tasked with navigating a domestic political environment in which they had to appear tough on defence in general in order to appeal to a broader range of the electorate while recognising that voters were opposed to missile defence in particular This book seeks to answer the question of why the centre left government of Tony Blair and Gordon Brown elected on a mandate of multi lateralism in international relations and espousing an ethical dimension to foreign policy committed the United Kingdom to US ballistic missile defence an internationally divisive military project associated with the US Republican Party and George W Bush in particular This book is essential for students and researchers interested in

British military history international relations strategic studies British politics Labour politics and political theory
