## **Modal Expressions In English Open Linguistics Series:**

Modal Expressions in English Michael R. Perkins,1983      **Modal Expressions in English** Michael R. Perkins,1983 This work which is both theoretical and descriptive covers the entire range of modal expressions in English It is organized so that the more general issues are dealt with first followed by a more detailed analysis of the semantics of modal expressions It is then supplemented by an assessment of how such an analysis is relevant to pragmatic and developmental perspectives on the expression of modality      *Modal Verbs and Modality in Literary and Non-Literary Texts* Monika Skorasińska,2023-02-21 This collection presents a range of research on modality in the English language It includes comprehensive analyses of English modal verbs in different types of genres including Early Modern English plays and children s literature as well as speeches academic and functional texts The volume fills a niche in the study of modality in English non literary written texts and contributes to the current knowledge on modality and the system of modal verbs in the English language      *Thematic Development of English Texts* Mohsen Ghadessy,1995-01-01 This text discusses the concept of theme and its application as an analytical tool to a number of spoken and written registers of English To date studies of text organization have paid less attention to what is called the method of development of a text that is thematic organization The book shows that the study of this organization can reveal many different strategies employed by speakers and writers when texts are created      **Modal Adjectives** An Van Linden,2012-02-22 The book revisits the notion of deontic modality from the perspective of an understudied category in the modal domain viz adjectives On the basis of synchronic and diachronic corpus studies it analyses the semantics of English adjectives like essential and appropriate and uses this to refine traditional definitions of deontic modality which are mainly based on the study of modal verbs In a first step it is shown that the set of meanings expressed by extraposition constructions with deontic adjectives is quite different from the set of meanings identified in the literature on modal verbs Adjectival complement constructions lack the directive meanings of obligation or permission which are traditionally regarded as the core deontic categories and they have semantic extensions towards non modal meanings in the evaluative domain In a second step the analysis of adjectives is used to propose an alternative definition of deontic modality which covers both the meanings of verbs and adjectives and which can deal with the different extensions towards modal and non modal categories This is integrated into a conceptual map which works both in diachrony defining pathways of change from premodal to modal to evaluative meaning and in synchrony accommodating refinements within each set of meanings In the process this study points to the emergence of partially filled constructions and it offers additional evidence for well established changes in the history of English such as the decline of the subjunctive and the rise of the to infinitive in complement constructions The book is of particular interest to researchers and graduate students with a focus on mood and modality and the interface between syntax semantics and pragmatics as well as that between synchrony and diachrony      Language Acquisition and Development Ana Castro,João Costa,Maria Lobo,2010-08-11 This edited collection contains 43

papers presented at the GALA Generative Approaches to Language Acquisition conference 2009 held in Lisbon Portugal The volume contains a very wide and rich range of topics reflecting the immense quality of the event the acquisition of languages from different families is studied comparisons between acquisition of L1 L2 and atypical language development are made all areas of language development are explored phonology morphology syntax semantics lexicon pragmatics and interactions between components The proceedings of GALA are an invaluable reference for those interested in Language Acquisition Language Development and Child Language Speech and Thought Representation in English Lieven Vandelandotte,2009 Main description The author argues for a new linguistically grounded typology of speech and thought representation in English from a cognitive linguistic perspective Apart from direct and indirect speech thought the types described include the character oriented free indirect and the narrator oriented distancing indirect type and two subjectified types in which reporting clauses such as I think function as hedges *Modeling Biblical Language* Stanley E. Porter, Gregory P. Fewster, Christopher D. Land, 2016-03-21 Modeling Biblical Language presents articles with some of the latest scholarship applying linguistic theory to the study of the Christian Bible The contributors are all associated with the McMaster Divinity College Linguistic Circle a collegial forum for presenting working papers in modern linguistics especially Systemic Functional Linguistics and biblical studies The papers address a range of topics in linguistic theory and the Hebrew and Greek languages Topics include linguistic model building temporality and verbal aspect Greek lexical semantics and Hebrew Greek translation appraisal and evaluation theory metaphor theory corpus linguistics discourse analysis and Greek clausal structure These various areas of linguistic exploration contribute generally to the interpretation and analysis of the Old and New Testaments as well as to linguistic theory proper *The World Atlas of Language Structures* Martin Haspelmath, 2005-07-21 The World Atlas of Language Structures is a book and CD combination displaying the structural properties of the world's languages 142 world maps and numerous regional maps all in colour display the geographical distribution of features of pronunciation and grammar such as number of vowels tone systems gender plurals tense word order and body part terminology Each world map shows an average of 400 languages and is accompanied by a fully referenced description of the structural feature in question The CD provides an interactive electronic version of the database which allows the reader to zoom in on or customize the maps to display bibliographical sources and to establish correlations between features The book and the CD together provide an indispensable source of information for linguists and others seeking to understand human languages The Atlas will be especially valuable for linguistic typologists grammatical theorists historical and comparative linguists and for those studying a region such as Africa Southeast Asia North America Australia and Europe It will also interest anthropologists and geographers More than fifty authors from many different countries have collaborated to produce a work that sets new standards in comparative linguistics No institution involved in language research can afford to be without it *Henry James and the Abuse of the Past* P. Rawlings, 2005-03-02 Henry James and the

Abuse of the Past explores the complex uses to which James puts his oblique experience of the American Civil War Why does James use and abuse the past by fabricating and distorting people and events in his autobiographical work The study integrates four elements history the past and problems of narration and representation the homoerotics of the Civil war tales and other soldiering fiction a life long pre occupation with Shakespeare as a historical figure and theories of time as they come under the pressure of trauma and war This well written insightful and persuasive study is an important contribution to James scholarship and will be of interest to any students and scholars of James *Judging the Judges* Mary L.

Conway,2019-11-02 The book of Judges is full of characters of ambivalent moral integrity and acts of dubious propriety such as Jael s murder of Sisera and the sacrifice of Jephthah s daughter And yet the terse narrative and the reticent narrator frequently leave the ethical character of these actions in doubt In order to avoid reading contemporary worldviews and ethics into this ancient text Mary L Conway applies a blend of narrative and functional linguistic theories to her analysis of the stories of the six major judges in an effort to more accurately identify the unifying ideological stance of the book Using an interdisciplinary approach that employs the concepts of narrative perspective alongside appraisal theory Conway evaluates the judges within their historical context in order to determine whether their actions are normative or aberrant The lexicogrammatical and ideational evidence produced by this methodology reveals contrasts and trajectories within and across the narratives that Conway argues give insight into the character and actions of the Israelites and YHWH and the relationship between them In this trailblazing study Conway models a new approach to biblical interpretation that lays bare the ethics of the book of Judges It will be of interest to biblical studies scholars in particular Old Testament scholars as well as seminary students and pastors

**Ecolinguistics** Adam Makkai,1993 Ecolinguistics recognizes the fact that different words mean different things to different people and that these differences in meaning for any given word correlate with the speaker s sex age education and kind of work as well as the speaker s regional dialect Variationism and a lack of absolute standards are not incidentals as grammatical theory construction but are the norm for all known languages **Pragmatics, Discourse and Text** Erich H. Steiner,Robert Veltman,1988 Advances in Systemic Linguistics Martin Davies,1992

**Grammar in the Construction of Texts** James Monaghan,1987 *Functional Approaches to Writing* Barbara Couture,1986 **The Semiotics of Culture and Language: Language as social semiotic** Robin P. Fawcett,1984

**Studies in Systemic Phonology** Paul Tench,1992 Demonstrates the value of systemic theory to phonology considering not only the theoretical foundations but also the application of the theory to phonologies of specific languages Also discusses the relations between phonology and grammar discourse and textual analysis **Registers of Written English** Mohsen Ghadessy,1988

The Semiotics of Culture and Language Robin P. Fawcett,1984

As recognized, adventure as competently as experience practically lesson, amusement, as without difficulty as understanding can be gotten by just checking out a book **Modal Expressions In English Open Linguistics Series** in addition to it is not directly done, you could take even more around this life, in this area the world.

We give you this proper as competently as simple quirk to get those all. We pay for Modal Expressions In English Open Linguistics Series and numerous books collections from fictions to scientific research in any way. among them is this Modal Expressions In English Open Linguistics Series that can be your partner.
