New England Political Parties

Dinah Mayo-Bobee

New England Political Parties:

American Political Parties in the 21st Century Dave Blevins, 2006-05-16 Since the United States gained its independence the American political landscape has been dominated by two major political parties first Whigs and Democrats and over the last century or so Democrats and Republicans In recent years however voter disenchantment with the major parties has led to the formation of numerous smaller parties Often addressing a particular concern such as the environment and operating on a local state or regional level these parties generally focus on affecting political decisions regarding specific topics of interest This book catalogs and describes more than 180 political parties that are active in the United States today Information has been gathered largely from the parties themselves via direct contact with representatives and from their websites From the Alaskan Independence Party to the Young Democratic Socialists entries contain the party name address telephone and fax numbers launch date and email and website addresses A review of the party s history and notable activities as well as an abbreviated summary of each party s platform is also provided Finally a listing of any affiliates and their contact information is also included where applicable

New Directions in American Political Parties Jeffrey M. Stonecash, 2010-06-10 Our portraits of voters their relationship to parties and the behavior of elected party members have changed significantly within the last 10 to 15 years Characterizations of dealignment and decreased importance of parties have been fairly rapidly replaced by a focus on party polarization Voters are becoming more ideological and the debate is now about the relative role of ideology religious attachment views on immigration and class in affecting party identification and voting In a short period of time we have gone from concern that parties are not responsive or sufficiently different to whether polarization has become too great This volume with contributions from some of the most noted scholars of political parties brings together assessments of these changes to provide a comprehensive overview of current trends in the field It serves as an excellent companion to courses on parties and elections and a useful overview for scholars and students of American politics generally

British Political Parties Today Robert Garner, Richard Kelly, 1998-06-15 This important new book one of the first to reflect the 1997 election result and its effects reassesses the major political parties in Britain their ideals organizations finances electoral prospects and the effect they have upon British society The authors begin by clarifying the functions of political parties before examining their policies and the extent to which there is a consensus in modern British politics The shifting nature of Britain s party system is then dissected before a much closer look is taken at the structure leadership and membership of Britain s three major parties A separate chapter also inspects the parties of Scotland Wales and Northern Ireland offering a fresh perspective on their priorities and internal organization Although the book has a strong historical content it also takes a sharp look at British politics under the new Labor government while considering the state of the Tory party under William Hague The likely effect of a more intrusive European Union is also embraced

New England State Politics Duane Lockard, 2015-12-08 A down to earth and fact filled discussion of New

England state politics based on seven years of research and over 1 000 interviews Originally published in 1959 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

The History of Political Parties in the State of New York Jabez Delano Hammond, 1846

The Birth of Mass Political Parties Ronald P. Formisano, 2015-03-08 The first mass political parties appeared in the United States in the 1830 s as the majority of adult white males identified ardently with the Democratic and Whig parties Ronald Formisano opens a window on American political culture in this case study of antebellum voting and party formation in Michigan Examining the social bases of voter commitment and the dynamics of grass roots loyalties from Jackson to Lincoln he proposes that the forming of parties had little to do with issues of political economy but rather with value conflicts generated by the evangelicals promotion of a moral society Borrowing from other disciplines and elaborating some of the analytical techniques used by Lee Benson in The Concept of Jacksonian Democracy Professor Formisano studies demographic and voting data to determine patterns of partisan loyalty His study throws light on the roots of the modern Republican Party links between religion and politics and the role of ethnic and cultural loyalties in political life Originally published in 1971 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Interest Group Politics in the Northeastern States Ronald J. Hrebienar, Clive S. Thomas, 2010-11-01

New England Political Parties Josephine F. Milburn, William Doyle, 1983

New England Federalists Dinah Mayo-Bobee, 2017-01-31 Beginning with controversies related to British and French attacks on U S neutral trade in 1805 this book looks at crucial developments in national politics public policy and foreign relations from the perspective of New England Federalists Through its focus on the partisan climate in Congress that appeared to influence federal statutes New England Federalists Widening the Sectional Divide in Jeffersonian America sets out to explain in their own words why Federalists especially those often deemed extreme or radical by contemporaries and historians alike escalated a campaign to repeal the Constitution s three fifths clause which included slaves in the calculation for congressional representation and votes in the Electoral College while encouraging violations of federal law and advocating northern secession from the Union Unlike traditional interpretations of early nineteenth century politics that focus on Jeffersonian political economy this study brings the impetus for Federalist obstructionism and sectionalism into sharp relief

Federalists who became the sole defenders of New England's economic independence and free labor force later issued calls for northerners to unite against the spread of slavery and southern control of the central government. Along with controversies that placed sectional harmony in jeopardy, this work links themes in Federalist opposition rhetoric to the important antislavery arguments that would flourish in antebellum culture and politics.

The Concise Princeton Encyclopedia of American Political History Michael Kazin, Rebecca Edwards, Adam Rothman, 2011-08-28. Contains 150 articles that provide information about significant topics in American political history, including ideas, philosophies, movements, economics, religion, and more.
